DACCA, *the 30th January 1914.*

REVISED RULES FOR THE EXAMINATION OF CANDIDATES IN INDIA FOR ADMISSION TO THE GENERAL LIST OF THE INDIAN FINANCE DEPARTMENT.

(*Vide* Resolutions No. 281F.E., dated Calcutta, the 17th January 1911, and No. 1186F.E., dated Simla, the 6th October 1913, by the Government of India, Finance Department.)

I.—A register of candidates will be kept from which not less than three candidates for each vacancy will be nominated by the Government of India from time to time as vacancies are expected. Only candidates so nominated will be entitled to compete.

II.—Names will ordinarily be entered in the register only on the recommendation of a Local Government.

III.—On or before the first of May in each year, Local Governments will send to the Government of India the names of any persons whom they desire to recommend for entry in the register. The list should be accompanied in the case of each person by copies of certificates of character and education, by a statement of age, and by information regarding any services that may have been rendered to the State by his parents or family. Before being recommended by a Local Government, each applicant must give satisfactory proof that he is a native of India within the meaning of the Statute 33 Vict., chap. 3, section 6.*

* The words "Native of India" shall include any person born and domiciled within the dominions of His Majesty in India of parents habitually resident in India and not established there for temporary purposes only.

IV.—The Government of India will also be prepared occasionally to receive direct applications for registration from suitable candidates. Such applications should be submitted in the applicant's own hand-writing to the Secretary to the Government of India in the Finance Department and should contain the information required by rule III.

V.—The names of persons not possessed of high educational qualifications will not be registered. Clear and distinct hand-writing and a business familiarity with the Engl sh language are indispensable.

VI.—The Government of India reserve an absolute discretion not only in regard to the selection of persons to be entered on the register of candidates but also as to the nomination of candidates to compete at the examination. It must be clearly understood that registration of a candidate's name does not in any way imply that he will be nominated for admission to examination.

VII.—The name of a registered candidate will be struck off the register when he has reached the age of 25, or has failed in two examinations.

VIII.—A candidate nominated for admission to one examination will not be admitted to a later examination unless again nominated.

IX.—The age of a candidate on the first day of the month in which the examination is held must not be less than twenty-two and not more than twenty-five years. A candidate who has been continuously in Government employ since before the age of twenty-five may, however, at the discretion of the Government of India, be allowed to compete at the examination up to the age of thirty, provided that he is satisfactorily recommended by the Head of his Department.

X.—A nominated candidate before appearing at the examination must produce a certificate in the annexed form by a Commissioned Medical Officer or by a Medical Officer in charge of a Civil Station :—

Certificate.

I do hereby certify that I have examined A. B., a candidate for employment in the Indian Finance Department, and that I cannot discover that he has any disease, constitutional affection or bodily infirmity unfitting him, or likely to unfit him, for the public service in any part of India.

XI.—Such candidate must also, before appearing for examination, produce a certificate of age from the officer in charge of the district in which his family reside, or, if they reside in a presidency town or a Native State, from the Presidency Magistrate or Political Agent respectively. To obtain this certificate the date and place of the candidate's birth must be proved before the district officer, Presidency Magistrate or Political Agent, as the case may be, by documentary evidence, supplemented, where this is not conclusive proof, by statements of relatives and others on oath or solemn affirmation.

XII.—Nominated candidates will be examined in the subjects described in the schedule attached to this Resolution. No candidate will be admitted to the Department who fails to show a competent knowledge of the compulsory subjects, and the Government reserve the right of declining to make any appointment when no candidate reaches a high standard of proficiency.

XIII.—The examination will be mainly by written questions and answers. The questions will be prepared, and the examination conducted, in such manner as the Governor-General in Council from time to time directs.

XIV.—Some months before an examination is to be held, its date and place, and the conditions of examination, will be notified in the *Gazette of India*, and the number of vacancies open to competition will at the same time be stated.

XV.—Subject to the above conditions, candidates will be appointed to the posts thrown open to competition according to their order of merit at the examination.

NOTICE is hereby given that the plaintiffs have brought a title suit No. 350 of 1911 in the 2nd Court of Munsif at Tamluk against the defendants. The subject-matters of the suit are, (I) a Pani nala (public drainage). (II) a public pathway of the residents, owners and occupiers of the lands of the villages Sultanpore, Bhabanichack in the pargana of Aranganagore, under the police-station of Nandigram and (III) a Govagar with pond, *gosura* attached to it (a place for throwing dead bodies of cattle) used by the residents of the northern part of Sultanpore, some portion of the Pani nala and the pathway. The whole of Govagar with *gosura* pond have been converted by the defendants Nos 1 and 2 in collusion with other defendants into the newly dug *khai* (ditch, pond and its *pahar* (bank) of the defendents Nos. 1 and 2. The disputed pathway has also partly been levelled to the paddy land and the rest made a part and parcel of the bastu and dhosa of defendants Nos. 1 and 2. The suit is for the establishments of the rights of easement and the customary rights to the disputed land and for the recovery of possession of the same.

The plaintiffs sue in their own right and also on behalf of and for the benefit of the other residents, owners and occupiers of the land of the aforesaid villages. Any resident, owner or occupier of lands of the said villages willing to join the said parties may apply to the said Court on or before the 5th March 1914, otherwise the residents, owners and occupiers of the said villages will be considered as consenting to the said plaintiffs bringing the suit for themselves and on behalf of and for the benefit of other residents of the said villages.

Notice.

No. 846.

SEALED Tenders for the supply by Contract from 1st April 1914 to 31st March 1915 of unscreened Indian steam coal (Bengal Desharghur) or unscreened South Welsh steam coal, as on Admiralty List or unscreened English steam coal of the estimated quantities specified below, at the ports mentioned, will be received by the Director of the Royal Indian Marine at his office in the Royal Indian Marine Dockyard, Bombay, up to 3 P.M. (Standard time) on Wednesday, the 4th March 1914, after which hour no tender will be received .—

		Estimated quantity for either Indian steam coal or English coal.	Estimated quantity for South Welsh coal.
		Tons.	Tons.
Bombay	...	16,000	10,560
Calcutta	...	14,000	9,240
Colombo	...	400	264
Karachi	...	3,200	2,112
Madras	...	350	231
Rangoon	...	9,000	5,940

2. It will not be necessary for Tenderers to tender for all ports, but for such port or ports as they may desire.

3. The Indian coal tendered must have a calorific value of not less than 7,000 calories or 12,600 British thermal units with ash not exceeding 15 per cent. or the evaporative power of the Indian coal must be not less than 7 lbs. of water per lb. of Indian coal with ash not exceeding 15 per cent. For North Welsh coal or similar coal such as Davison's West Hartley tendered as English steam coal the evaporative power must be the same as the foregoing but the ash must not exceed 9 per cent.

4 Tenders must be accompanied by a Bank of Bombay receipt for the amount to be deposited or by Government loan paper, which is not to be endorsed to any Government Officer, but to stand in the name of the owner, interest being made payable at the Bombay Treasury. Tenders must be sent by *registered post*; if forwarded in any other way they will not be received. Informal Tenders will be rejected and no reason will be assigned for the rejection of any Tender. The Director of the Royal Indian Marine does not bind himself to accept the lowest or any Tender.

5. Any Tender containing a conditional clause contrary to these requirements or making stipulations not provided for either in this notice or the printed Tender and Schedule Forms will be summarily rejected.

6. Printed Tender Forms, and any other information in connection with this contract can be obtained at this office and the forms can also be had from the Deputy Director of the Royal Indian Marine, Calcutta, Port Officer, Karachi, Presidency Port Officer, Madras, and from the Principal Port Officer, Burma, Rangoon.

7. The attention of all Tenderers is invited to the necessity for carefully observing the conditions mentioned in this notice.

8. Each Tender is to be superscribed "Tender for Supply of either Indian Steam Coal, or English or South Welsh Coal."

WALTER LUMSDEN,
Director, Royal Indian Marine.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

WHEREAS it is expedient further to amend the Bengal Municipal Act, 1884, in order to provide for the appointment of Sanitary Officers in certain Municipalities; Ben. Act III of 1884.

It is hereby enacted as follows :—

Short title. 1. This Act may be called the Bengal Municipal (Sanitary Officers) Act, 1914.

Insertion of Part XIB in Bengal Act III of 1884. 2. After Part XI A of the Bengal Municipal Act, 1884, the following shall be inserted, namely :—

"PART XIB.—SANITARY OFFICERS.

"349 C. (*1*) The Local Government may, by notification published in the *Calcutta Gazette*, announce its intention to declare this Part to be in force in any Municipality.

Power to declare this Part to be in force in any Municipality.

(*5*) If the Commissioners or any ratepayer of any such Municipality object or objects to this Part being declared in force in the Municipality, they or he may, within a period of two months from such publication, submit such objection in writing, through the District Magistrate, to the Local Government; and the Local Government shall consider all objections so sent.

(*6*) After the expiration of the said period, the Local Government, if no objections have been so sent, or if it considers that the objections so sent are insufficient, may, by a like notification, make the proposed declaration.

(*4*) The substance of every notification under sub-section (*1*) or sub-section (*3*) shall be translated, deposited, posted and proclaimed, within the Municipality affected, in the manner prescribed by section 354.

"349D. Appointment of Sanitary Officers. (*1*) Notwithstanding anything contained in section 46, the Commissioners of every Municipality in which this Part is in force shall from time to time, at a meeting, appoint for the Municipality—

(*a*) a Health Officer, or

(*b*) a Health Officer and one or more Sanitary Inspectors, or

(*c*) one or more Sanitary Inspectors,

as the Local Government may, by notification in the *Calcutta Gazette*, direct; such Health Officer to be of such class, and such Sanitary Inspectors to possess such qualifications, as may be so directed.

(*2*) The provisions of sub-section (*1*) shall not apply to any Municipality the income of which falls below ten thousand rupees a year.

"349E. Salary and allowances of Sanitary Officers. The Local Government shall from time to time fix the salaries to be paid to Health Officers and Sanitary Inspectors out of the Municipal Fund, and the allowances to be granted to them during absence on leave.

"349F. Power to make rules. The Local Government may from time to time make rules prescribing—

(*a*) the qualifications of candidates for employment as Health Officers and Sanitary Inspectors respectively; and

(*b*) the division of Health Officers and Sanitary Inspectors into classes or grades according to their qualifications.

"349G. Unwholesome water. When a Health Officer has been appointed for any Municipality, the power conferred by section 199A shall be exercisable by him as well as by the Chief Civil Medical Officer of the district.

"349H. Application of Act to Sanitary Officers. Every section of this Act which relates to Municipal Officers or servants shall, so far as it may be applicable, apply to the officers referred to in section 349 D:

Provided that no Health Officer appointed thereunder shall be dismissed without the sanction of the Local Government."

CALCUTTA,
The 16th February 1914.

No. 371L., dated the 16th February, 1914—The following Act, passed by the Legislative Council of the Governor of Bengal, received the assent of His Excellency the Governor on the 21th January, 1914, and, having been assented by His Excellency the Viceroy and Governor General on the 10th February, 1914, is hereby published for general infofmation:—

BENGAL ACT No. III OF 1914.

THE DOVETON TRUST ACT, 1914.

An Act to abolish the Parental Academic Institution and Doveton College and Doveton Institution for Young Ladies, and to provide for the application of the property and funds thereof as nearly as possible in accordance with the intentions of the founders.

Preamble.

WHEREAS, on the first day of March, 1823, an Educational Society was established in Calcutta, under the designation of "The Parental Academic Institution," with the object of establishing one or more schools under its own control in order to procure the means of affording to youth the best education of which existing circumstances would admit, and, as far as the state of funds would allow, to provide education for the orphans of members dying not possessed of property sufficient to educate their children;

And whereas the designation of the said Society was changed in the year 1855 to that of "The Parental Academic Institution and Doveton College";

And whereas the said Society was registered as a Society under the Societies Registration Act, 1860, on the twenty-ninth day of August, 1881; XXI of 1860.

And whereas the designation of the said Society was again changed in the year 1886, on the incorporation therewith of "The Young Ladies' Institution," to that of "The Parental Academic Institution and Doveton College and Doveton Institution for Young Ladies";

And whereas various properties and funds have from time to time been vested in the Governing Body of the said Society, and in other persons, for the benefit of, or in trust for, the said Institution or pupils to be educated therein;

And whereas the said Institution is now governed by certain persons claiming to be a Committee duly elected or appointed under an order made by the High Court, Calcutta, on the eighth day of April, 1907;

And whereas it appears to the Governor in Council that the said Committee are unable satisfactorily to manage the said Institution according to the intentions of its founders, and that portions of the property and funds of the Institution have been wasted away in litigation and by mismanagement, and that it is expedient that the Legislature should intervene in order to prevent further waste and mismanagement;

And whereas it appears to the Governor in Council that the objects of the founders of the said Institution would best be met by providing for the application of its property and funds, under the direction of the Government, to the education of Christian children of what is known as the Domiciled Community of Bengal;

And whereas the sanction of the Governor General has been obtained, under section 5 of the Indian Councils Act, 1892, to the passing of this Act; 55 & 56 Vict., c. 14.

It is hereby enacted as follows:—

Short title.

1. This Act may be called the Doveton Trust Act, 1914.

Abolition of the Doveton Institution.

2. The "Parental Academic Institution and Doveton College and Doveton Institution for Young Ladies" is hereby abolished.

The Doveton Trust Act, 1914.

(*Sections 3-6.*)

Vesting and application of trust property and funds.

3. All property, movable and immovable, which is vested in the Managing Committee of the said Institution, or in any other person, for the benefit of the said Institution or anywise in trust therefor, and all sums standing to the credit of the said Institution, shall vest in the Accountant-General, Bengal, as bare trustee, and shall be applied —

(*a*) to the discharge of all debts and liabilities properly payable out of, or chargeable upon, the property or funds of the said Institution, and

(*b*) to making provision for the education of Christian children of what is known as the Domiciled Community of Bengal, by the granting of scholarships, by grants-in-aid to Institutions intended for the education of such children, or in such other similar manner as to the Local Government may seem reasonable and proper.

Appointment of administrator, and transfer of powers to him.

4. The Local Government shall, by notification in the *Calcutta Gazette*, appoint an officer of the Government (not being the Accountant-General, Bengal) by the name of his office to administer the property and sums referred to in section 3; and all powers in respect of such property and sums, which have hitherto been exercisable by the said Managing Committee or by any other person, may henceforth be exercised by such officer, subject to the control of the Local Government.

Power to make rules.

5. (*1*) The Local Government may make rules to carry out the purposes of this Act.

(*2*) In particular, and without prejudice to the generality of the foregoing power, such rules may prescribe—

(*a*) the method of applying property and funds held under this Act to the purpose specified in clause (*b*) of section 3;

(*b*) the securities in which funds held under this Act and not required for immediate disbursement shall be invested;

(*c*) the accounts to be kept by the Accountant-General, Bengal, and by the officer appointed under section 4, and the mode in which such accounts are to be audited;

(*d*) the periodical publication of a list of all property and funds held under this Act, and of an abstract of all accounts kept hereunder;

(*e*) the fees (if any) to be paid to the Government in respect of property held and administered under this Act.

(*3*) The power conferred by this section to make rules is subject to the condition of the rules being made after previous publication.

(*4*) All rules made under this section shall be published in the *Calcutta Gazette*, and on such publication shall have effect as if enacted in this Act.

Indemnity

6. (*1*) No suit shall be instituted against the Government in respect of anything done or purporting to be done under this Act, or in respect of any alleged neglect or omission to perform any duty devolving on the Government under this Act, or in respect of the exercise of, or the failure to exercise, any power conferred by this Act on the Government.

(*2*) No suit shall be instituted against the Accountant-General, Bengal, or any officer appointed under section 4, except—

(*a*) for divesting him of property on the ground of its not being subject to this Act, or

The Doveton Trust Act, 1914.

(*Section 6.*)

(*b*) for making him chargeable with or accountable for the loss or misapplication of any property vested in or managed by him under this Act, or the income thereof, where the loss or misapplication has been occasioned by or through his wilful act, neglect or default

Acts of the Governor General's Council assented to by the Governor General.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Act of the Governor General of India in Council received the assent of the Governor General on the 3rd February 1914, and is hereby promulgated for general information :—

Act No. II of 1914

An Act to prevent the introduction into British India of any insect, fungus or other pest, which is or may be destructive to crops

WHEREAS it is expedient to make provision for preventing the introduction into British India of any insect, fungus or other pest, which is or may be destructive to crops ; It is hereby enacted as follows :—

1. This Act may be called the Destructive Insects and Pests Act, 1914. Short title.

2. In this Act, unless there is anything repugnant in the subject or context,— Definitions.

(*a*) "crops" includes all agricultural or horticultural crops, and trees or bushes ;

(*b*) "import" means the bringing or taking by sea or land ; and

(*c*) "infection" means infection by any insect, fungus or other pest injurious to a crop.

3. (*1*) The Governor General in Council may, by notification in the Gazette of India, prohibit or regulate, subject to such restrictions and conditions as he may impose, the import into British India, or any part thereof, or any specified place therein, of any article or class of articles likely to cause infection to any crop. Power of Governor General in Council to regulate or prohibit the import of articles likely to infect.

(*2*) A notification under this section may specify any article or class of articles, either generally or in any particular manner, whether with reference to the country of origin, or the route by which imported or otherwise.

4 A notification under section 3 shall operate as if it had been issued under section 19 of the Sea Customs Act, 1878, and the officers of Customs at every port shall have the same powers in respect of any article with regard to the importation of which such a notification has been issued as they have for the time being in respect of any article the importation of which is regulated, restricted or prohibited by the law relating to Sea Customs, and the law for the time being in force relating to Sea Customs or any such article shall apply accordingly. Operation of notification under section 3

VIII of 1878.

5 (*1*) The Local Government may, subject to the control of the Governor General in Council, make rules for the detention, inspection, disinfection or destruction of any article or class of articles in respect of which a notification has been issued under section 3 or of any article which may have been in contact or proximity thereto, and for regulating the powers and duties of the officers whom it may appoint in this behalf Power of Local Government to make rules

(*2*) In making any rule under this section the Local Government may direct that a breach thereof shall be punishable with fine, which may extend to one thousand rupees.

6 No suit, prosecution or other legal proceeding shall lie against any person for anything in good faith done or intended to be done under this Act. Protection to persons acting under Act

Entrance to the Haiho—Establishment of river mouth leading marks and Inward and outward turning transit marks.

No. 100 (first publication).—The Coast Inspector, Shanghai, has given Notice (No. 563 of 1913), that the following aids to navigation have been established, to assist vessels in navigating between the Deep Hole and the entrance to the Haiho :—

Two *black* pyramidal Beacons, to be known as the River Mouth Leading Marks, have been established on the northern bank of the Haiho, about 1 mile to the north-westward of the Fort Light.

The high (or rear) Beacon exhibits a *white* light. The low (or front) Beacon exhibits a *red* light. The lights are Fixed, Dioptric, of the Sixth Order. These Beacons in transit mark the channel from the Spit Light-boat towards the entrance to the Haiho, until Central Fort (about 4 cables S.S.W. of Fort Light), is abeam.

Three Beacons, forming two sets of unlighted transit marks, and to be known as the Inward and Outward Turning Transit Marks, have been established in the neighbourhood of the Taku Bar Outer Leading Marks.

The high (or rear) Beacon is a *black* square. The low (or front) Beacons are two *black* pyramids.

The southernmost of these two sets of transit marks—the Inward Turning Transit Marks—indicate, when in line, where an inward-bound vessel should leave the Taku Bar Inner Leading Marks and proceed on the River Mouth Leading Marks. The northernmost of these two sets of transit marks—the Outward Turning Transit Marks—indicate, when in line, where an outward-bound vessel should leave the River Mouth Leading Marks and proceed on the Taku Bar Inner Leading Marks.

The accompanying plan shows the position of aids to navigation marking the entrance to the Haiho.

The customary withdrawal of the floating aids to navigation during the winter months is not affected by this Notice. The lighting of the several Leading Marks will be continued during the winter.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 74 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1914), are republished :—

PART I.

CLOSING OF PORTS.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that local or other circumstances may arise in which

it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) **If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.**

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

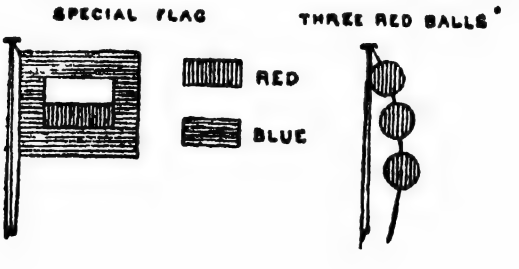
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Examination anchorage. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned below in Part III, serious delay and risk will be avoided if four efficient all-round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.
(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage' on the Admiralty Charts and anchor there, or keep the sea.

Whilst at anchor in the Examination anchorage Masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(9) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(10) The pilots attached to the ports will be acquainted with the regulations to be followed.

BRITISH EMPIRE.

Signals to be made by vessels approaching ports when inconvenienced by searchlights.

No. 75 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 2 of 1914), are republished :—

Any vessel approaching a port in the British Empire when searchlight are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined :—

(*a*) By flashing lamp, *four short* flashes followed by *one long* flash.

(*b*) By whistle, siren, or fog-horn, *four short* blasts followed by *one long* blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked, as far as circumstances will permit, so as to cause the least inconvenience, being either extinguished, raised, or altered in direction.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of a searchlight it is impossible to know which searchlight is affected.

Note.

These signals are designed to assist mariners and do not render the Government liable in any way.

ADMIRALTY PUBLICATIONS.

The introduction of ***TRUE*** *bearings.*

No. 76 (second publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 4 of 1914), are republished :—

Former Notices.—No. 1619 of 1911, No. 2 of 1912 and No. 3 of 1913 (*This office No. 61 of 1912.*)

Notice is hereby given that TRUE bearings are being gradually introduced in all Admiralty Publications.

Details of the new system are as follows :—

(*a*) On charts :

A new pattern compass is being gradually introduced which enables True Bearings to be laid off on the chart in addition to Magnetic Bearings. (*See* diagram overleaf.)

The compass consists of two graduated circles, clearly separated from each other.

The outer circle is a True compass, graduated from 0° (True North) to 360°, measured clockwise.

The inner circle is a magnetic compass, graduated in points and in degrees from 0° to 90° as heretofore.

The bearings of leading and clearing marks, etc., are given both True and Magnetic, and a note to this effect is placed in the title of the charts. (*See* overleaf.)

Example.—The bearing N. 62° W. true, with a Variation of 8° Westerly, will be shown thus : 298° (*N. 54° W. Mag.*).

(*b*) In Sailing Directions:

Bearings will be given as True only, in degrees from 0° (North) to 360°, measured clockwise; and a note to this effect will be given in the title page, in the Advertisement, and in the page immediately preceding page 1 of all volumes of Sailing Directions. The Variation will continue to be given on each page as at present, so that Magnetic bearings may be obtained when required.

This alteration only applies to new editions of Sailing Directions and their Supplements. In the case of Sailing Directions in which Magnetic bearings are still given, Magnetic bearings will be given in their Supplements.

(*c*) In Notices to Mariners:

All bearings are given both True and Magnetic in a similar manner to that adopted on charts.

(*d*) Lists of Lights:

Bearings will be given in all Parts of the List of Lights for 1914 as True only, in degrees from 0° (North) to 360°, measured clockwise.

On each page of the List of Lights, a footnote is placed stating that all bearings are **TRUE FROM SEAWARD.**

PATTERN OF COMPASS.

(adopted after June 1911).

The Administration Report of the Commissioners of the Port of Calcutta for the year 1912-13.

1. *Income.*—The income of the Trust, which amounted to Rs. 1,42,46,317 during the year, was the highest hitherto earned and exceeded that of last year, viz., Rs. 1,35,90,408, which was the largest amount earned previously, by Rs. 6,55,909. This great improvement was largely due to the increase in

the traffic dealt with at the Foreign Import Jetties and at the Wet Docks, which resulted in a larger income not only from these sections but also from the receipts from river dues, port dues and the terminals paid by the railways. During the past decade the income has expanded from Rs. 79,65,376 in 1903-04 to Rs. 1,42,46,317 in 1912-13, in spite of reductions made in rates and charges which are said to represent an annual relief of Rs. 15½ lakhs on the traffic of the present time.

2. *Expenditure.*—The total expenditure during the year amounted to Rs. 1,47,00,316, against Rs. 1,33,38,940 in 1911-12. After allowing for a sum of Rs. 1,54,049, which should properly have been adjusted in previous years, the total expenditure is reduced to Rs. 1,45,46,267, thus leaving a net deficit of Rs. 2,99,950 on the years' working. This deficit is due in great part to additional charges on account of interest and Sinking Fund payable on loans raised from Government and the public to carry out capital works, and to the annual instalment towards the repayment of the dock loan having increased from two to four lakhs of rupees.

On the subject of the growth of these charges the Commissioners sound a warning note in the following passage in their report :—

"So great has been the expansion of the traffic during the past five years that, even with the additional berths constructed both at the jetties and docks, the accommodation of the port is altogether insufficient to meet the requirements of the shipping and the trade. A still heavier programme of capital expenditure has therefore to be undertaken in the immediate future, and to meet the charges on this expenditure it appears to the Commissioners that it will be necessary to revise the tolls, dues and rates from which the revenue of the Trust is derived. The Commissioners have in the past reduced their rates to the minimum compatible with financial equilibrium, but it is clear that those rates no longer suffice and that the shipping and trade must contribute more to the cost of the extended facilities which they demand. The Commissioners have under consideration the question of the additional revenue that will be required, and the manner in which it should be levied, to meet the capital expenditure to be incurred and also the natural and unavoidable increase in the cost of maintenance and other working expenses."

3. The receipts and expenditure under the more important heads of account were as follows :—

Jetties.—The total earnings rose from Rs. 15,76,784 in 1911-12 to Rs. 18,86,697 during the year, an increase of Rs. 3,09,913, whereas the expenditure incurred was Rs. 10,23,673 against Rs. 8,72,696, an increase of Rs. 1,50,977 which was chiefly due to the increased charges on account of labour, maintenance and repairs, and extra staff engaged to supervise the work of the sheds.

One thousand seven hundred and thirty vessels, with a gross tonnage of 7,074,830, entered the port, as against 1,706 vessels, with a gross tonnage of 6,762,228, in the previous year.

Despite the fact that a certain number of foreign import vessels were sent to the docks to discharge, the congestion at the jetties still continued. A great improvement, however, has been effected through the greater attention which has been paid to the sorting and stacking of goods at the time of landing, which has enabled the Commissioners to reduce the free time allowed to importers for the clearance of goods from three to two days, and to levy double the rent charges on goods which are not cleared within three days from the expiration of the free time. An additional jetty has also been constructed and there has been some re-arrangement of the existing jetties and sheds, etc. But it cannot be hoped that such improvements, however successful, will suffice to relieve entirely the congestion at the jetties, and it has been found necessary to institute special enquiries upon a broad basis as to the general facilities afforded to the trade of the port and the lines upon which they can be improved and augmented. In order to carry through such enquiries, and in accordance with the wishes of the mercantile community of Calcutta, as expressed at an influential conference convened by the Bengal Chamber of Commerce in August 1913, Government has

appointed a Committee to deal with the whole question of the development of trade facilities within the port of Calcutta and its approaches.

Sale Tea Warehouse.—There was an increase of Rs. 26,531 in the income under this head over that of the previous year, the number of chests of tea sold showing an increase of 92,788 chests as compared with the previous year. Increased facilities are required to meet the expansion of this traffic.

Petroleum Wharf.—The total receipts on account of wharfage, landing and storage charges on imported oil, and from rents paid by the several oil companies decreased by Rs. 46,716, which was chiefly due to the large falling off in the importation of oils in tins and cases, on which stevedoring and handling charges are recovered. The expenditure was also less by Rs. 13,750. The whole of this decrease was in respect of labour charges.

It is noticeable that in the year 1896-97 American oil represented 30 per cent. of the total imports and Russian oil 67½ per cent., while Burma oil totalled only 1 per cent. The corresponding figures for the past year were 15½ per cent. for American oil, 1 per cent. for Russian oil, and 67 per cent. for Burma oil.

Inland vessels' wharves.—The income derived from the inland vessels' wharves increased from Rs. 4,95,214 during 1911-12 to Rs. 5,23,432 during the year, an increase of 28,218. The income from this source has been steadily increasing yearly.

Port Approaches.—The expenditure under this head has risen by Rs. 46,471. The following figures show how the work of survey in these approaches has expanded during the past 28 years—

	1885	1900-01	1912-13
Miles sounded	1,295	5,864	6,927
River plans, charts and notices ...	20	606	1,021
Number of buoys (Calcutta to Diamond Harbour)	7	30	48
River marks	57	115	263

The dredger "Sandpiper" has proved of great value during the year, and the work done in improving the various channels in the Upper Reaches of the river has been very noticeable. The new dredger "Belari," which is specially designed for work in the lower reaches, where the dredger "Sandpiper" is less effective, has been put into commission after a series of most satisfactory trials.

Railway.—The earnings under this head advanced from Rs. 14,03,086 to Rs. 15,71,721 on account of heavy traffic in jute and coal and large bookings of imported sugar. The expenditure also increased from Rs. 10,97,865 to Rs. 11,83,460, owing to the heavier traffic carried and extensive repairs to the permanent way.

Ferry service.—There are 13 steamers now in commission, and the number of passengers carried increased from 8,754,961 to 9,538,189. The southern section of the ferry service has been extended to Muteabruz and Rajabagan and to Rajgunge, and further extensions are under the consideration of the Commissioners. The service has proved valuable to the public and is greatly appreciated.

Kidderpore Docks.—The total import and export traffic at the docks exceeded five million tons, exports of coal alone rising to 3,153,404 tons and imports of sugar to 272,755 tons. The exports of tea and jute continue to show satisfactory development.

The income of the wet docks rose from Rs. 32,81,463 to Rs. 35,52,858, while the expenditure increased from Rs. 29,19,699 to Rs. 32,76,005. Much of the increase in expenditure is due to maintenance and repair charges.

River dues.—These charges, which are levied on goods, rose from Rs. 22,45,074 to Rs. 25,01,943. The increase was due principally to the coal traffic and the increase generally in exports and imports.

Establishment charges.—There was a slight reduction in the percentage of establishment charges to income.

4. During the year under review a sum of Rs. 50,31,128 was raised by the issue of debentures of Rs. 50 lakhs. The capital debt of the Trust at the close of the year, after allowing for the amount of Rs. 1,32,17,067 at the credit of the Sinking Fund for debenture loans, and of Rs. 8,32,812 repaid on the Kidderpore Dock loan, was Rs. 8,74,21,287, as against Rs. 8,45,39,050 on 31st March, 1912.

The assets, which were valued at Rs. 11,37,37,911. exceeded the liabilities by more than Rs. 2½ crores ; but the value of the Strand Bank and the Howrah foreshore lands has not been included in the assets, which also have not been credited with any increase in the value of landed property since that property was acquired.

Over and above the value of property and the amount at the credit of the Sinking Fund, the Commissioners have other funds accumulated out of revenue, viz., the Reserve Fund, the Vessels Replacement Fund and the Fire Insurance Fund. The total amount at credit of these funds on the 31st March 1913 was Rs. 45,16,850.

5. The expenditure under the head of Capital amounted to Rs. 39,90,856, the following being the most important works in progress or completed during the year :—

Completion of No. 27 berth at the docks, the last of the four new produce berths.

Construction of a fifth produce berth, with double storeyed transit shed.

Provision of increased transit shed accommodation in Dock No. 1 and paving the quays at No. 10 berth with stone sets.

Erection of a new railway bridge over the boat canal, to give direct access for grain trains to the receiving and marshalling lines at Durgapore from which the grain traffic is distributed to the Kantapuker shed.

Extension of the Kantapuker grain depôt by the construction of two sheds.

Remodelling of the dock junction for the purpose of carrying out all the marshalling operations without interference with the reception and despatch of foreign trains, which retarded the working in the past.

Provision of 300 covered goods wagons and six new locomotives.

Construction of an additional jetty berth No. 9.

Provision of additional trolly equipment and other facilities for the handling of goods at Nos. 2 and 7 jetties.

Extension of No. 5 jetty shed.

Construction of a large double storeyed transit shed for the traffic of the Inland Vessels Wharves.

Provision of a new suction dredger for the port approaches and of a new double ladder dredger for dredging at the Jetties and wharves with two hopper barges.

Purchase for the ferry services of two new light draft steamers.

6. In addition to the works mentioned above the scheme for lighting the lower reaches of the river between Saugor and Mud Point, with a view to their navigation at night, as recommended by a committee of experts convened by the Port Commissioners, was sanctioned by Government after careful consideration of the views expressed by the members of the Liners' Conference and their representatives in India and by the Bengal Chamber of Commerce, who were in favour of the scheme, and also of the views of the Bengal Pilot Service, who are opposed to it.

The plans for the extensions at the docks are maturing and the Commissioners have determined upon the construction of four riverside berths in Garden Reach for export as well as import traffic, the plan and estimate for which have been submitted to the Government of India for provisional sanction. The recommendations of the Committee appointed by the Commis-

sioners in England to advise them on the entrance to the new dock system and connected works are receiving the attention of the Commissioners.

7. The thanks of Government are due to the Commissioners for the able assistance they have rendered to the administration in their efficient discharge of the important duties entrusted to them, and to the Hon'ble Mr. H. J. Hilary for his successful labours as officiating Vice-Chairman and the excellent report submitted by him. The Governor-in-Council desires also to take this opportunity of acknowledging the debt which he and all who are connected with the Port of Calcutta owe to Sir Frederick Dumayne, who took long leave preparatory to retirement in March last, for the conspicuous ability and zeal with which he performed the duties of Vice-Chairman during the twelve years of his tenure of that appointment. During that period the income and the expenditure of the Port have nearly doubled and the responsibilities of this post have increased in proportion. The experience and the energies of Sir Frederick Dumayne have been placed unsparingly at the disposal of the authorities of the Port during a critical term of expansion and development and have merited the cordial tribute of thanks which His Excellency now desires to place upon public record.

By order of the Governor in Council,

H. H. GREEN,

Secretary.

MONTHLY WEATHER AND CROP REPORT OF BENGAL FOR JANUARY 1914.

I. *Character of the season.*—During the month under review no rain fell throughout the province excepting a few scattered showers at Jessore, Khulna, Jalpaiguri and Darjeeling The rainfall in Darjeeling was, however, slightly in excess of the normal. The usual rainfall statement is appended.

II. *Progress of agricultural operations.*—Harvesting of winter rice was entirely finished and that of *rabi* crops was in progress. Fields were being prepared for autumn rice and jute. Cutting and pressing of sugarcane were also going on.

III. *State of standing crops.*—The condition of standing crops was generally good at the end of the month.

IV. *The prospects and probable outturn.*—The prospects of the spring crops were favourable and a fairly good outturn was expected.

V. *Damage to crops.*—No damage was reported to have been done by insect-pests or any other natural causes during the month.

VI. *Condition of agricultural stock.*—The condition of agricultural stock was fair. Cattle-disease was found to be prevalent in parts of Nadia, Murshidabad, Burdwan, Bankura, Malda and Mymensingh

VII. *Failure of pasturage and fodder.*—Fodder was reported to be insufficient in parts of Midnapore only.

VIII. *Prices of food-grains.*—During the second fortnight of the month under review the price of common rice rose in fifteen districts, fell in five districts only and remained stationary in the rest. It varied from 6 seers 12 chitaks per rupee at Mymensingh to 10 seers 4 chitaks at Bankura.

IX. *Condition of agricultural people.*—The condition of agricultural population was reported to be fairly good excepting in the Contai subdivision of the Midnapore district, where gratuitous relief and agricultural loans continued to be granted to those people who were in distress on account of the floods which occurred during the rainy season last year.

IRRIGATION DEPARTMENT.

The 3rd February 1914.

No. 1 Notification.—The following draft of (1) rules and (2) schedule of rates of tolls, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make and fix for the navigable channels of the Magra Hât Drainage scheme, as defined in Notification No. 4, dated the 22nd April 1913 (published at page 634, Part I, of the *Calcutta Gazette* of the 23rd *idem*), is published, as required by section 12 of that Act, for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 18th March 1914, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

H. H. GREEN,
Secy. to the Govt. of Bengal.

DRAFT RULES FOR THE MAGRA HÂT CHANNELS.

1. Every vessel entering or making use of the Magra Hât channels shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Governor in Council as Collectors of Tolls or Navigation Canal Officers shall have authority to again measure a vessel notwithstanding that it was measured before.

2. Vessels for the purpose of the determination of maundage shall be divided into three classes as follows :—

Class I.—To include all vessels of the usual native types of build known as salteas, but not *bonâ fide* tal (or palm-tree) dongas and not exceeding 50 maunds by canal measurement.

Class II.—To include all other vessels of usual native types of build or cutters.

Class III.—To include all steamers, flats, barges and other square-built boats.

The net maundage of every vessel, whether laden or empty, shall, for the purposes of the Canals Act, 1864, and of these rules be determined by the following measurements :—

CLASS I.

A.—The product of one-quarter the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel multiplied by three-quarters of the depth, measured from the top of the vessel amidships to the interior bottom of the vessel is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length to be made in feet, rejecting inches, and of the breadth and depth in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—Any vessel the maundage of which calculated as above exceeds 50 maunds shall be reckoned as a vessel under class II.

CLASS II.

A.—The product of one-quarter the length of the vessel from stem to stern measured outside and along the water line, multiplied by the greatest interior breadth of the vessel multiplied by the greatest interior depth from the water line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches, the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, rejecting any remainder of less than 12½ maunds. In the case of boats exceeding 500 maunds by measurement the maundage shall be reckoned to

the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—In the case of boats carrying passengers only, one foot shall be deducted from the full interior depth of the vessel, the other measurements and the calculations for maundage being made in the methods prescribed for vessels under Class II.

CLASS III.

A.—For vessels of class III, the number of maunds obtained by the system of measurement prescribed for vessels of class II shall be increased by one-half. For vessels of this class exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds rejecting any remainder of less than 100 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

B.—In case of steamers that have been surveyed under the Inland Steam-vessels Act, 1884, the registered tonnage entered in the certificate may be accepted as the tonnage of the steamer in lieu of measurement.

3. All vessels under class I, known and defined as saltees, will be charged under a system of compounded tollage in accordance with rules contained in Appendix A.

4. Every vessel included in classes II and III entering or passing along the canal shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The number of days so allowed without additional payment shall be calculated as follows :—

Boats.—One day for every eight miles or portion of eight miles, to be traversed together with one day for every 100 maunds of measurement or part of 100 maunds.

Floats (timber).—One day for every five miles for any number of timbers not exceeding fifty, and one day for every additional fifty or part of fifty.

Rafts (bamboos).—One day for every five miles for any number not exceeding five hundred and one day for every additional five hundred or part of five hundred.

5. Every vessel which does not complete its voyage within the number of days allowed by rule 4 shall, for each day or part of a day in excess, be liable to an extra charge equal to one-half of the toll payable on the maundage of the vessel as per the Schedule of Rates in Appendix B, provided that in no case shall the demurrage charged exceed Rs. 5 per diem. The Superintending Engineer may, at his discretion, exempt any boats on any line of navigation, or any portion of line of navigation from the payment required by this rule.

Exemption from payment of demurrage may, at the discretion of the Collector of Tolls, be granted for vessels detained in the channels (steamers broken down and boats damaged) by stress of weather, should immediate notice of detention, for the information of the Collector of Tolls, Magra Hat channels, be given to the nearest toll-station.

6. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed : Provided that the Collector of Tolls may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

7. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to do so. If, on demand, the ticket is not produced, such person shall assess the tollage as provided in rule 2, and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel will be liable to seizure and detention in accordance with the provisions of section 9 of the Canals Act, 1864.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of Re. 1. Provided that for tickets on which the

total tollage is less than Rs. 4, the fee to be charged for a duplicate shall be one-quarter of the total tollage with a minimum of As. 4.

9. A vessel, which has been detained under these rules or under section 9 of the said Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

10. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Circular No. 11., dated the 11th July 1906.

11. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor or Navigation Canal Officer. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

12. At places where mooring posts have been provided by the Supervisor or Navigation Canal Officer, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor or Navigation Canal Officer may direct, and shall not be moored in any other manner.

13. The Supervisor or Navigation Canal Officer may, by written notice to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor or Navigation Canal Officer from time to time, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety or obstruct the passage of other boats. Every vessel, when stationary, shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

15. Vessels passing through the canals shall keep in separate lines, empty boats keeping close to the bank, and those that are laden in the centre.

16. In portions of the canals where only one towing-path exists, vessels shall moor on the side opposite to the towing-path, and the towing-path side shall always be kept clear.

17. Iron-built cargo boats, with outside angle iron projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the locks.

18. No fire, or open, unprotected light of any description shall be used on boats containing petroleum, jute, hay or straw in any place prohibited by the Navigation Canal Officer or Supervisor, and no fire, or open, or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor or Navigation Canal Officer and his subordinates shall offer every assistance in removing the same.

If in three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor or Navigation Canal Officer and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, in cases where navigation is seriously obstructed, arrangements may be made at once to remove the wreck.

21. When a sunken vessel has been recovered, the Supervisor or Navigation Canal Officer shall cause notices to be posted at the locks, toll offices or other prominent places calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Canals Act, 1864.

22. The purchaser of a vessel sold under the provisions of section 9 of the said Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered, or when any laden vessel has been seized under the provisions of the said Act or of these rules, the Supervisor or Navigation Canal Officer shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the Supervisor or Navigation Canal Officer be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 21 shall be effected by a notice exhibited in his office and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. No steam-vessel, whose length exceeds thirty feet, shall ply in the Magra Hât channels except in the following:—Diamond Harbour creek, Usti Nainan outfall, Nazra khal, Sangrampur khal up to Sangrampur bridge, and the Surjipur outer khal up to the Surjipur bridge.

26. *Lights and Signals.*—All vessels, whether travelling or moored in the Magra Hât channels, must, between sunset and sunrise, carry a white light in a lantern on the forepart of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed above.

27. *Speed of vessels.*—Every vessel plying in the Magra Hât channels must, between sunset and sunrise, limit her speed to three miles per hour. No steam-vessels shall ply between sunset and sunrise in channels detailed in rule 25.

28. No vessel shall remain in the outer entrance channels of the locks at Diamond Harbour and Uttarbhag nor in the inner lock channel and diversion channel of the Diamond Harbour lock and sluice, nor in the approach channels to any sluice. A board will be put up limiting the portion of the channels in which boats are not permitted to moor.

29. The places at which boats cannot be loaded or unloaded will be fixed by the Superintending Engineer, South-Western Circle, and will be demarcated with suitable posts and notice boards.

30. For any contravention of rules 10, 14, 15, 16, 17, 19, 20, 26, 27 and 28, the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 for any one infringement, or Rs. 5 a day for any continuing infringement.

31. The channels may be closed, whenever necessary, for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but, in the event of any sudden emergency, the channels may be closed at any time without prior notice, and no claim in such cases by owners of vessels or others for compensation on account of detention or otherwise shall be entertained.

32. The term "Navigation Canal Officer," as used in these rules, shall include all persons appointed to collect tolls under section 8 of the Canals Act, 1864, and all Public Works officers or subordinates in charge of the channel, not below the grade of Sub-Overseer.

33. No vessel whose beam exceeds 19 feet will be permitted to enter the channels through the Diamond Harbour lock. The same prohibition will apply in the case of the Uttarbhag lock to all vessels exceeding 14 feet beam.

34. Any vessel which enters the channels through the Diamond Harbour lock for the purpose of taking refuge during stormy weather will be charged a nominal toll of As. 8 per boat, provided the vessel leaves the channel again as soon as the weather conditions permit, and does not load or unload cargo inside the channel. All vessels seeking refuge under this rule must anchor in the creek close to the toll-collector's office and will not be permitted to proceed up the creek without paying the usual tolls.

35. Any vessel entering the channels through the Diamond Harbour lock and proceeding to load or unload at the Diamond Harbour station only will be charged tollage at the rate of As. 2 per 100 maunds to include the return journey. Should such boats proceed up the creek, they will be charged the ordinary tolls.

APPENDIX A.

Rules for licensing and registration of sattees or vessels under class I.

1. As provided for under rule 3, no vessel coming under class I, rule 2, shall ply, whether regularly or only occasionally in, or partly within and partly without the limits of, the Magra Hât channels unless licensed and registered by the Collector of Tolls of the Magra Hât channels.

2. Every owner of a vessel or his agent or manjhi shall apply to the Collector of Tolls, Magra Hât channels, for licensing and registration, giving the owner's name and residence or those of his agent duly authorised to act for him.

3. Every license granted under these rules shall continue in force for either six months or one year from the date of issue.

4. The license is not transferable, and if the ownership or manjhi or both of the vessel be changed, notice of the transfer must be given to the Collector of Tolls of Magra Hât channels, who will endorse the change of ownership on the certificate and register free of charge.

5. The license certificate granted for a vessel should contain the registered number of the vessel, owner's name and residence, name of manjhi, the maundage measurements, amount of compounded tollage and the dates of issue and expiry and shall be kept on board. It shall be produced, when required, by a Navigation Canal Officer and shall be delivered up on the expiration of the license.

6. The charge for the issue of a duplicate license to vessels in lieu of those defaced or lost is Re. 1.

7. The registered number of every licensed vessel shall be engraved or branded, as well as painted in figures easily discernible on both sides of the vessel for which a charge of Re. 1 will be made. These figures shall be legibly maintained during the period of the license.

8. On the expiration of the license the manjhi shall deliver up his ticket to the toll collector at the station from which it was issued.

9. No person in charge of any licensed vessel plying within the limits of the Magra Hât channels shall use or have any ticket resembling those granted under the authority of these rules.

10. Every renewal of a license shall, unless the Navigation Canal Officer considers it unnecessary, involve the issue of a fresh license certificate without alteration in the registered number of the vessel.

11. Every vessel under class I, found plying in the channels without being licensed and registered shall be charged a demurrage rate of Rs. 3 for every such offence, provided that such vessel is not proceeding to the nearest toll station for the purpose of obtaining a license and being registered

No. 28Marine.—The following draft of rules which, in exercise of the power conferred by section 30A of the Inland Steam-vessels Act, 1884 (VI of 1884), the Governor in Council intends to make to regulate the navigation of inland steam-vessels in certain portions of the river Hooghly, in supersession of the rules published under this Department's Notification No. 5Marine, dated the 10th January 1902, as amended by Notification No. 140Marine, dated the 22nd December 1906, and also in supersession of this Department's preliminary Notification No. 93Marine, dated the 1st July 1913, is published for the information of persons likely to be affected thereby.

II. The draft rules will be taken into consideration on or after the 25th March 1914, and any objections or suggestions with regard thereto which are received by the undersigned before that date will be duly considered.

H. H. GREEN,
Secy. to the Govt. of Bengal.

DRAFT.

Steering rules to regulate the navigation of inland steam-vessels in certain portions of the river Hooghly.

1. All inland steam-vessels navigating the river Hooghly shall be navigated as follows:—

(*a*) Between Kidderpore Docks and Luff Point, they shall be navigated on the shallow side of the channel when meeting or being overtaken by sea-going vessels.

(*b*) In College Reach, they shall navigate on the edge of College Sand, and shall keep to the northward of the sea-going traffic between Shalimar Point and Camberbachies Point.

[*Note.*—College Reach is bounded to the west by a line drawn due north of Camberbachies Point and to the east by a line drawn from Shalimar Point flagstaff and Kidderpore Clock Tower.]

(*c*) In Panchpara and Sangral Reach, they shall navigate on the edge of Sangral Sand.

(*d*) In Jarmakers Reach, they shall navigate on the edge of Munikolli Sand.

(*e*) In Koffri Reach, they shall navigate on the edge of Koffri Sand.

(*f*) In the upper part of Budge-Budge Reach, they shall navigate on the right bank of the river; in the lower part, on the edge of Budge-Budge Sand.

(*g*) At Pujali Crossing and in the Ulubaria and Achipur Reaches, they shall navigate on the edge of the sand on the left bank of the river.

(*h*) At Moyapur Bar, they shall navigate the shallow tracks.

(*i*) In Royapur Reach, they shall navigate on the edge of the Royapur Sand.

(*j*) In Royapur Crossing, they shall navigate the shallow tracks.

(*k*) In Hog River Reach, they shall navigate on the edge of Hog River Sand.

(*l*) At Fisherman's Point and in Fulta Reach, they shall navigate on the edge of Fulta Sand.

(*m*) At Ninan, they shall navigate on the edge of Shibgunge Sand.

(*n*) At the James and Mary, they shall navigate the Western Gut when there is sufficient depth of water. When obliged to use the Eastern Gut, they shall navigate on the edge of Nurpur Sand and the Muckraputti Lumps.

2. When crossing from one reach to the other or from one side of the channel to the other, in the portions of the river Hooghly specified in rule 1, inland steam-vessels shall not obstruct the passage or cause risk of collision with any sea-going vessels crossing or passing at the same time, and if necessary, they shall slacken their speed, or shall stop and reverse engines until the sea-going vessel has passed them.

3. When inland steam-vessels meet other inland steam-vessels, they shall pass port to port.

The 24th February 1914.

No. 488M.—The 18th February 1914.—In exercise of the power conferred by section 290 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council makes the following rules, subject to which the Commissioners of the Narayanganj Municipality may allow communication-pipes to be laid down from the service-pipes of the Commissioners for the purpose of leading water to premises within the Municipality for domestic purposes only :—

Rules.

1. So long as the Commissioners deem it practicable and consistent with the maintenance of an efficient water-supply, they may allow any owner or occupier of a holding paying a water-rate imposed under the provisions of Part VII of the Bengal Municipal Act, 1884, on the annual value of such holding when such annual value is not less than Rs. 100 to lay down communication-pipes from the service-pipes of the Commissioners for the purpose of leading water to such holding for domestic purposes only, subject to the following rules and conditions.

2. The owner or occupier of any holding requiring water to be laid on to such holding for domestic purposes, or requiring any addition or alteration to an existing water-supply must apply for the same on a printed form to be supplied free of cost at the Municipal Office.

3. A fee of Rs. 2 must be paid to the Commissioners by such owner or occupier for each connection before any work is commenced. This fee must be paid at the time when the application for the connection is deposited, and will be in addition to all other costs and charges imposed under these rules.

4. (*i*) Each holding shall have a separate connection from a service main, and extensions from the communication-pipe of one holding to another shall not be allowed.

(*ii*) A branch main may be allowed to rate-payers applying for the same at their own expense and from the branch main connections to holdings may be extended. Such branch main when laid down shall be the property of the Municipal Commissioners.

5. The owner or occupier of the holding in respect of which the connection is required must pay the entire cost of the connection, including the supply and fixing of the fittings referred to in rule 7, and must also pay the cost of such alterations in, or repairs to, roads, drains, sewers, gas or water mains or pipes and the cost of such other works as may be necessitated by, or result from, the work of making such connection.

6. (*i*) The work required may, at the option of the Commissioners, either be carried out by the Commissioners themselves at the expense of the owner or occupier of the holding in respect of which the work is required, or may be carried out by a person or firm employed by such owner or occupier and approved by the Commissioners.

(*ii*) No laying down, repair, alteration, removal or extension of any communication-pipes and fittings shall be undertaken except under the direct supervision of the Water-works Engineer of the Municipality.

7. A holding connection shall comprise the following parts or fittings :—

(*a*) a brass or gun-metal ferrule inserted in the main supply pipe,
(*b*) a galvanized iron communication-pipe from the ferrule to the meter,
(*c*) a stop-cock and its surface-box,
(*d*) a meter,
(*e*) service-pipes from the stop-cock to the taps, and
(*f*) taps.

8. (*i*) All the fittings referred to in rule 7 shall be exact duplicates of standard samples kept in the office of the Commissioners, and approved by them in a meeting.

(*ii*) All fittings shall be inspected and tested and stamped by an officer of the Municipality before being fixed.

(*iii*) If any owner or occupier shall desire to adopt any fitting of a pattern different from the standard patterns he must present such fitting for the approval of the Chairman, and any fittings so presented may, if considered satisfactory by the Chairman, be stamped and samples thereof may be purchased and placed among the standard fittings.

9. Every communication-pipe must be capable of withstanding a pressure of a column of water 100 feet in height and must be of a quality approved by the Water-works Engineer of the Municipality.

10. (*i*) Whenever any communication-pipe has to be laid across a sewer or open drain or in any place where in the opinion of the Commissioners it is liable to injury or contamination, such pipe must pass through a cast-iron pipe of sufficient length to afford due protection to the communication-pipe.

(*ii*) No more bends or elbows than are absolutely necessary shall be allowed in any communication-pipe. No bend by heating and no gradual bend or long sweep such as is likely to cause the pipe to split shall be allowed.

11. The stop-cock and its surface-box shall be placed as near as practicable to the points where the supply-pipes enter the holding to be supplied, but must not be within any private premises. The surface-box shall be so designed that it can be locked and the key of it shall remain under the control of the Water-works Engineer. The stop-cock shall be capable of adjustment so that the supply to the holding may be regulated thereby.

12. (*i*) The meter shall be placed as near to the stop-cock as possible and in a position where it can be conveniently examined.

(*ii*) The meter must be fixed in a brick chamber covered over with a cast-iron surface-box of approved pattern.

(*iii*) Subject to the provisions of rule 13, no meter must be touched or interfered with in any way except with the permission of the Chairman.

13. The Commissioners shall depute an authorized person to read every meter not less than once a quarter, and shall give notice to the occupier at least twenty-four hours before the reading is recorded.

14. Not more than one cistern connection shall ordinarily be allowed to any holding. All cistern connections shall be provided with a ball-cock. The size of all cisterns permitted shall be regulated by the Commissioners.

15. (*i*) No connection shall in any case be sanctioned unless and until the applicant makes provision to the satisfaction of the Commissioners for draining away waste water.

(*ii*) When the holding is within 50 feet of any public drain, a connection from the service-pipes shall not be sanctioned, unless and until the applicant constructs a drain of masonry work for carrying off the waste water to the said public drain.

16. When the Commissioners are satisfied that any owner or occupier of a holding having a connection from the service-pipe has wilfully contravened or has failed to observe any of the above rules and conditions or continues to wilfully waste water after having been warned against doing so, they may turn off the water from such holding for such time as they may think fit.

17. (*i*) Every owner or occupier of any holding in respect of which a connection has been made under these rules shall be entitled to a supply of 3,000 gallons of water per quarter for each rupee paid by him quarterly as water-rate in respect of such holding.

(*ii*) For all water in excess of the amount allowed under sub-rule (1) such owner or occupier shall be charged quarterly as follows:—

	Per 1,000 gallons Rs. A.
(*a*) For any excess quantity of water not exceeding one-half of the amount of the free allowance.	0 6
(*b*) For any excess quantity of water exceeding one-half of the amount of the free allowance, but not exceeding the amount of free allowance.	0 8
(*c*) For any excess quantity of water exceeding the amount of the free allowance, but not exceeding twice the amount.	0 12
(*d*) For any excess quantity of water exceeding twice the amount of the free allowance.	1 4

18. If the owner or occupier of any holding which is supplied with water under these rules shall refuse or neglect to pay any of the fees or charges imposed in accordance with these rules for a space of fourteen days after he has been served with a notice of demand for the same, the Commissioners may, at any time after the expiration of that period, and without further notice, disconnect any pipe forming part of the connection made in respect of such holding, and may recover the cost of disconnecting such pipe from such owner or occupier:

Provided that the disconnection of such pipe shall not relieve any person from any liabilities which may have been incurred under these rules.

19. The sizes of the ferrules and the diameter of the communication-pipe referred to in clauses (*a*) and (*b*) of rule 7, and the number of taps shall be fixed in accordance with the annual valuation of the holding as follows:—

Annual valuation of holding	Sizes of ferrule	Diameter of communication-pipe	Number of taps
Under Rs. 200 ...	$\frac{3}{16}$ inch.	$\frac{1}{2}$ inch.	1
From „ 200 to Rs. 399 ...	$\frac{1}{4}$ „	$\frac{1}{2}$ „	2
„ „ 400 „ „ 599 ...	$\frac{3}{8}$ „	$\frac{3}{4}$ „	3
„ „ 600 „ „ 899 ...	$\frac{7}{16}$ „	$\frac{3}{4}$ „	4
„ „ 900 „ „ 1,199 ...	$\frac{1}{2}$ „	$\frac{3}{4}$ „	5
Rs. 1,200 and above ...	$\frac{5}{8}$ „	$\frac{3}{4}$ „	6

Every tap shall be of the same size as the pipe to which it is attached, and shall be of brass and of the pattern known as screw-down. Every tap shall be at least three feet above the surface of the earth in the holding.

II. This cancels rules (1) to (9) published under Eastern Bengal and Assam Government Notification No. 310M., dated the 19th January 1909.

No. 490M.—The 18th February 1914.—In exercise of the power conferred by proviso (*a*) to sub-section (*3*) of section 279 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to direct that the water-rate shall not be levied in the Narainganj Municipality upon any house or land of which no part lies within a radius of 1,500 feet from the nearest stand-pipe or other supply of filtered water available to the public.

Advertisement of Sale.

NOTICE is hereby given that the undermentioned plots of land, no longer required by Government, situated along the Bengal Nagpur Railway, in the district of Howrah, will be put up to sale at 12 o'clock on Tuesday, the 14th April 1914, corresponding with the 1st *Bysak* 1321 B.S. Bengali at the Howrah Collectorate.

The purchasers of the several plots of land will be subject to the following conditions :—

1st.—The purchasers will have no power to make any excavations on the land nearer than fifteen feet from the railway boundary, or to plough the land nearer than three feet from the same.

2nd.—If the amount of purchase-money does not exceed Rs. 100, the whole amount must be paid down at once.

3rd.—If the amount of purchase money exceed Rs. 100, one fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale, reckoning the day of sale as one, or if that day be a close holiday, then by noon of the first succeeding office day, the sale shall be cancelled, the sum deposited being forfeited to Government, and the lot again put up for sale at the risk of the defaulting purchaser, after issue of advertisement, as in the case of original sale.

4th.—The plots of land will be sold revenue-free to the highest bidders.

5th.—The sale will become final on receipt by the Collector of the orders of the Commissioner confirming it, and a regular conveyance will then be granted to the purchaser.

Notice.

No. 846.

SEALED Tenders for the supply by Contract from 1st April 1914 to 31st March 1915 of unscreened Indian steam coal (Bengal Deshargbur) or unscreened South Welsh steam coal, as on Admiralty List or unscreened English steam coal of the estimated quantities specified below, at the ports mentioned, will be received by the Director of the Royal Indian Marine at his office in the Royal Indian Marine Dockyard, Bombay, up to 3 P.M. (Standard time) on Wednesday, the 4th March 1914, after which hour no tender will be received :—

	Estimated quantity for either Indian steam coal or English coal.	Estimated quantity for South Welsh coal.
	Tons.	Tons.
Bombay ...	16,000	10,560
Calcutta ...	14,000	9,240
Colombo ...	400	264
Karachi ...	3,200	2,112
Madras ...	350	231
Rangoon ...	9,000	5,940

2. It will not be necessary for Tenderers to tender for all ports, but for such port or ports as they may desire.

3. The Indian coal tendered must have a calorific value of not less than 7,000 calories or 12,600 British thermal units with ash not exceeding 15 per cent or the evaporative power of the Indian coal must be not less than 7 lbs. of water per lb. of Indian coal with ash not exceeding 15 per cent. For North Welsh coal or similar coal such as Davison's West Hartley tendered as English steam coal the evaporative power must be the same as the foregoing but the ash must not exceed 9 per cent.

4. Tenders must be accompanied by a Bank of Bombay receipt for the amount to be deposited or by Government loan paper, which is not to be endorsed to any Government Officer, but to stand in the name of the owner, interest being made payable at the Bombay Treasury. Tenders must be sent by *registered post*; if forwarded in any other way they will not be received. Informal Tenders will be rejected and no reason will be assigned for the rejection of any Tender. The Director of the Royal Indian Marine does not bind himself to accept the lowest or any Tender.

5. Any Tender containing a conditional clause contrary to these requirements or making stipulations not provided for either in this notice or the printed Tender and Schedule Forms will be summarily rejected.

6. Printed Tender Forms, and any other information in connection with this contract can be obtained at this office and the forms can also be had from the Deputy Director of the Royal Indian Marine, Calcutta, Port Officer, Karachi, Presidency Port Officer, Madras, and from the Principal Port Officer, Burma, Rangoon.

7. The attention of all Tenderers is invited to the necessity for carefully observing the conditions mentioned in this notice.

8. Each Tender is to be superscribed "Tender for Supply of either Indian Steam Coal, or English or South Welsh Coal."

WALTER LUMSDEN,
Director, Royal Indian Marine.

LEGISLATIVE DEPT.;

BOOK DEPÔT BRANCH,
The 14th December 1913.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz.

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Entrance to the Haiho—Establishment of river mouth leading marks and Inward and outward turning transit marks.

No. 100 (second publication).—The Coast Inspector, Shanghai, has given Notice (No. 563 of 1913), that the following aids to navigation have been established, to assist vessels in navigating between the Deep Hole and the entrance to the Haiho:—

Two *black* pyramidal Beacons, to be known as the River Mouth Leading Marks, have been established on the northern bank of the Haiho, about 1 mile to the north-westward of the Fort Light.

The high (or rear) Beacon exhibits a *white* light. The low (or front) Beacon exhibits a *red* light. The lights are Fixed, Dioptric, of the Sixth Order. These Beacons in transit mark the channel from the Spit Light-boat towards the entrance to the Haiho, until Central Fort (about 4 cables S.S.W. of Fort Light), is abeam.

Three Beacons, forming two sets of unlighted transit marks, and to be known as the Inward and Outward Turning Transit Marks, have been established in the neighbourhood of the Taku Bar Outer Leading Marks.

The high (or rear) Beacon is a *black* square. The low (or front) Beacons are two *black* pyramids.

The southernmost of these two sets of transit marks—the Inward Turning Transit Marks—indicate, when in line, where an inward-bound vessel should leave the Taku Bar Inner Leading Marks and proceed on the River Mouth Leading Marks. The northernmost of these two sets of transit marks—the Outward Turning Transit Marks—indicate, when in line, where an outward-bound vessel should leave the River Mouth Leading Marks and proceed on the Taku Bar Inner Leading Marks.

The accompanying plan shows the position of aids to navigation marking the entrance to the Haiho.

The customary withdrawal of the floating aids to navigation during the winter months is not affected by this Notice. The lighting of the several Leading Marks will be continued during the winter.

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 74 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1914), are republished :—

PART I.

CLOSING OF PORTS.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that local or other circumstances may arise in which

it may be necessary, on account of periodical exercises, manœuvres, or otherwise, to forbid all entrance to certain ports of the Empire, this is to give Notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, referred to in Part III of this Notice, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this Notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) **If entrance to a port is prohibited, three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this Notice.**

If these signals are displayed, vessels must either proceed to the position marked "Examination Anchorage" on the Admiralty charts and anchor there, or keep the sea.

(3) At all the ports or localities at home or abroad referred to in Part III of this Notice, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

EXAMINATION SERVICE.

(4) Under certain circumstances it may become necessary to take special measures to examine vessels desiring to enter the ports or localities at home or abroad, referred to in Part III of this Notice.

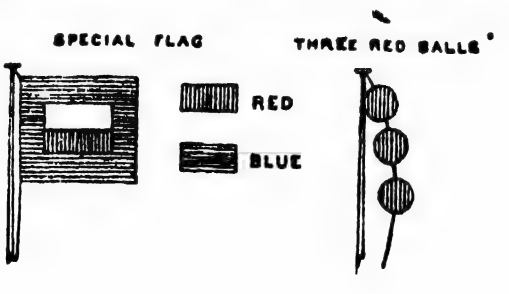
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the ports and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the Examination anchorage. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In entering by night any of the ports mentioned below in Part III, serious delay and risk will be avoided if four efficient all-round lamps, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguishing flags of the Examination Steamer will be a special flag (white and red horizontal surrounded by a blue border) and a blue ensign.

Also, three red vertical balls if the port is closed.



By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.

(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, before attempting to enter any of these ports when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer. In the absence of any instructions from the Examination Steamer they must proceed to the position marked "Examination Anchorage" on the Admiralty Charts and anchor there, or keep the sea.

Whilst at anchor in the Examination anchorage Masters are warned that they must not lower any boats (except to avoid accident), communicate with the shore, work cables, move the ship, or allow anyone to leave the ship, without permission from the Examination Steamer.

(9) In case of fog, Masters of vessels are enjoined to use the utmost care, and the Examination Anchorage itself should be approached with caution.

(10) The pilots attached to the ports will be acquainted with the regulations to be followed.

BRITISH EMPIRE.

Signals to be made by vessels approaching ports when inconvenienced by searchlights.

No. 75 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 2 of 1914), are republished :—

Any vessel approaching a port in the British Empire when searchlight are being worked, and finding that they interfere with her safe navigation, may make use of the following signals, either singly or combined :—

(*a*) By flashing lamp, *four short* flashes followed by *one long* flash.

(*b*) By whistle, siren, or fog-horn, *four short* blasts followed by *one long* blast.

Whenever possible, both flashing lamp signals and sound signals should be used.

On these signals being made, the searchlights will be worked, as far as circumstances will permit, so as to cause the least inconvenience, being either extinguished, raised, or altered in direction.

The signals should not be used without real necessity, as unless the vessel is actually in the rays of a searchlight it is impossible to know which searchlight is affected.

Note.

These signals are designed to assist mariners and do not render the Government liable in any way.

ADMIRALTY PUBLICATIONS.

The introduction of ***TRUE*** *bearings.*

No. 76 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 4 of 1914), are republished :—

Former Notices.—No. 1619 of 1911, No. 2 of 1912 and No. 3 of 1913 (*This office No. 61 of 1912.*)

Notice is hereby given that TRUE bearings are being gradually introduced in all Admiralty Publications.

Details of the new system are as follows :—

(*a*) On charts:

A new pattern compass is being gradually introduced which enables True Bearings to be laid off on the chart in addition to Magnetic Bearings. (*See* diagram overleaf.)

The compass consists of two graduated circles, clearly separated from each other.

The outer circle is a True compass, graduated from 0° (True North) to 360°, measured clockwise.

The inner circle is a magnetic compass, graduated in points and in degrees from 0° to 90° as heretofore.

The bearings of leading and clearing marks, etc., are given both True and Magnetic, and a note to this effect is placed in the title of the charts. (*See* overleaf.)

Example.—The bearing N. 62° W. true, with a Variation of 8° Westerly, will be shown thus: 298° (*N. 54° W. Mag.*).

(*b*) In Sailing Directions:

Bearings will be given as True only, in degrees from 0° (North) to 360°, measured clockwise; and a note to this effect will be given in the title page, in the Advertisement, and in the page immediately preceding page 1 of all volumes of Sailing Directions. The Variation will continue to be given on each page as at present, so that Magnetic bearings may be obtained when required.

This alteration only applies to new editions of Sailing Directions and their Supplements. In the case of Sailing Directions in which Magnetic bearings are still given, Magnetic bearings will be given in their Supplements.

(*c*) In Notices to Mariners:

All bearings are given both True and Magnetic in a similar manner to that adopted on charts.

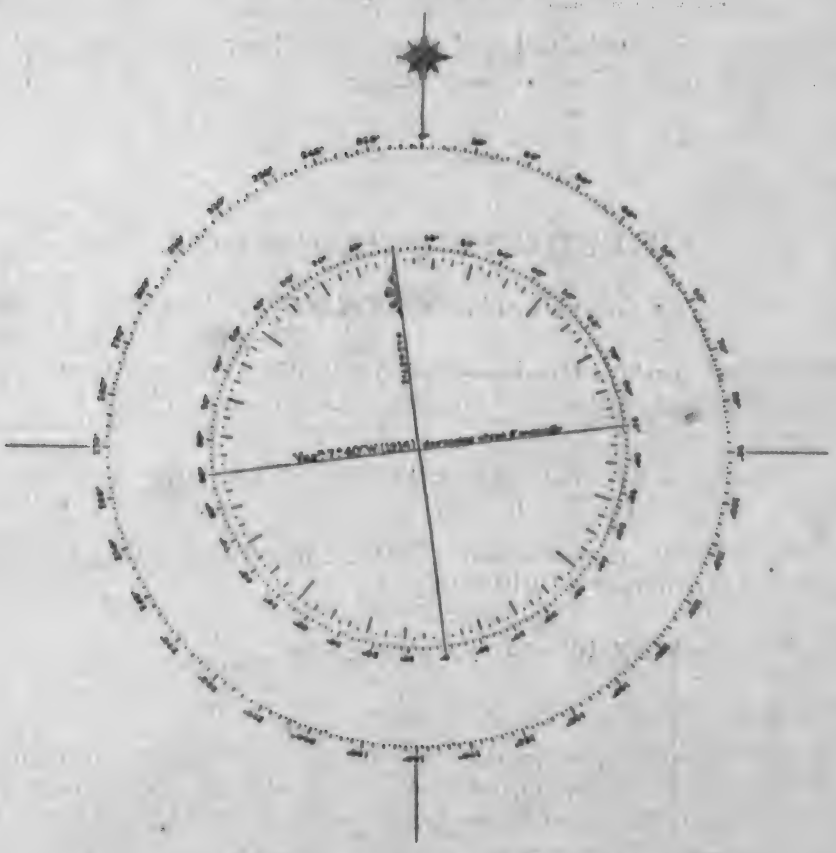
(*d*) Lists of Lights:

Bearings will be given in all Parts of the List of Lights for 1914 as True only, in degrees from 0° (North) to 360°, measured clockwise.

On each page of the List of Lights, a footnote is placed stating that all bearings are **TRUE FROM SEAWARD.**

PATTERN OF COMPASS.

(adopted after June 1911).



Addition to title of Chart

Bearings are given both True and Magnetic thus 298° (N54°W Mag)

CHINA, GULF OF PE CHILI—PEI HO.

Taku bar—Customs hulk established.

No. 77 (third publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 5 of 1914), are republished:—

Position.—At a distance of 13 cables, 264° (*S. 88° W. Mag.*), from Taku light vessel.

Lat. 38° 56′ 40″ N., long. 117° 51′ 15ˢ E., on chart No. 598,

Description.—Hulk *Tienching*.

Remarks.—All vessels waiting to cross the bar must anchor northward of a line drawn between the Customs hulk and Taku light-vessel, and within a reasonable distance of the former.

The anchorage for vessels of heavy draught which discharge outside the bar is the same as formerly, but they must anchor as near the Customs hulk as their draft will safely permit.

Variation.—4° W.

LIBERALITY OF RAI JYOT KUMAR MUKHARJI BAHADUR.

No. 786, dated Calcutta, the 18th February 1914

From—The Hon'ble Mr. H. F. SAMMAN, I.C.S., Secretary to the Government of Bengal, General Department,

To—The Commissioner of the Burdwan Division.

WITH reference to your letter No. 651J.G., dated the 23rd December 1913, to the address of the Municipal Department of this Government, reporting that Rai Jyot Kumar Mukharji Bahadur, of Uttarpara, has made a donation of Rs. 25,000 for the establishment at Howrah of a public library, to be called "Duke Public Library," I am directed to request that you will be so good as to convey the thanks of Government to the donor for his liberality and public spirit.

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 23rd February 1914

Summary.—During the earlier part of the week under review light to moderate rain fell throughout the province. The rainfall greatly helped ploughing operations for jute and autumn rice and was also favourable to standing *boro* paddy, but was unfavourable to mango blossoms, the potato crop and pulses. Harvesting of *rabi* crops and pressing of sugarcane continue. The outturn is fair. Cattle-disease is reported from six districts. The average price of rice has slightly risen as compared with that of the previous week.

No. 703Medl.—The 26th February 1914.—The following draft of a notification which it is proposed to issue in exercise of the powers conferred by section 69B, clause (*ii*) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and section 138, clause (*k*) of the Bengal Local Self-Government Act of 1885 (Bengal Act III of 1885), is published for the information of persons likely to be affected thereby, and notice is hereby given that the draft will be taken into consideration by the Governor in Council on or after the 1st May 1914.

Any objection or suggestion which may be received from any person with respect to the draft before the date fixed as aforesaid will be considered by the Governor in Council.

H. L. STEPHENSON,
Secy. to the Govt. of Bengal.

DRAFT NOTIFICATION.

IN exercise of the powers conferred upon him by section 69B, clause (*ii*) of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), and section 138, clause (*k*) of the Bengal Local Self-Government Act, III of 1885 (Bengal Act III of 1885), and in supersession of the Notification No. 2497Medl., dated the 31st December 1908, and of the rules published therewith, as subsequently amended, the Governor in Council is pleased to make the following rules for the establishment and management of hospitals and dispensaries under the supervision of the Government of Bengal :—

RULES FOR THE MANAGEMENT OF HOSPITALS AND DISPENSARIES UNDER THE SUPERVISION OF THE GOVERNMENT OF BENGAL.

PRELIMINARY.

In these rules—

"Local authority" and "Local Fund" defined.

(*a*) "Local authority" means any body of persons for the time being invested by law with the control and administration of any matters within a specified local area. It includes a Joint Committee under section 30 and a Local Board under section 101 of Bengal Act III of 1885.

(*b*) "Local fund" means any fund under the control or management of a local authority.

CLASSIFICATION.

Classification of hospitals and dispensaries

RULE 1.—Hospitals and dispensaries under Government supervision are divided into the following classes :—

Class I. *State—Public hospitals and dispensaries.*	These include all institutions maintained by Provincial funds and under Government management. (The fact that an institution possesses endowments or receives contributions from local funds or private subscriptions should not be regarded as a reason for not classing it as "State," so long as Provincial and Imperial funds are ultimately responsible for all the charges connected with it.)
Class II. *State—Special hospitals and dispensaries.*	
(*i*) Police ...	
(*ii*) Forest and Surveys ...	
(*iii*) Canals ...	
(*iv*) Others ...	
Class I.—"Public" are State dispensaries which are open to the poorer classes of the public.	
Class II.—"Special" are State dispensaries which serve only a special section of the public, as indicated in the sub-classification attached.	

Class III.—*Local Fund Hospitals and Dispensaries*—includes all institutions which are vested in local authorities, or guaranteed or maintained by local funds. The fact that such an institution is aided by private subscriptions or receives assistance from Government in the shape of part of the salary of the medical officer, grants of medicine or otherwise, should not be regarded as a reason for not classing it as a Local Fund Dispensary so long as its existence is ultimately dependent upon local funds.

Class IV.—*Private aided Hospitals and Dispensaries*—comprises institutions supported by private subscriptions or guarantee, but receiving aid from Government or local funds.

Class V.—*Private non-aided Hospitals and Dispensaries*—comprises institutions maintained entirely at the cost of private individuals or associations. The fact that Government supplies superior inspection or registers and forms should not be regarded as a reason for not treating it as a private non-aided dispensary.

Class VI.—*Railway Hospitals and Dispensaries*—comprises all Railway institutions whether maintained by State Railways or others.

OPENING AND CLOSING OF DISPENSARIES AND CONDITIONS UNDER WHICH GOVERNMENT AID AND SUPERVISION WILL BE GIVEN.

Opening and closing of Dispensaries

RULE 2.—A dispensary may be opened by a local authority with the sanction, general or special, of the Commissioner, and on provision of the necessary funds in the annual budget, and it may be closed by the same authority, with the same sanction. When thus opened or closed by a local authority, the fact shall be reported by the Civil Surgeon to the Inspector-General of Civil Hospitals, in order that the dispensary may be added to or struck off from the list in class III. No dispensary in class III in which a Government medical subordinate is employed shall, however, be closed without the sanction of Government, and, in the case of a dispensary in class IV or V, three months' notice shall be given to the District Magistrate and the Civil Surgeon before the dispensary is closed. All dispensaries maintained by local authorities with public funds entrusted to them by Government are subject to all the rules hereby laid down for the management of such institutions. Whenever a dispensary under class IV or class V is opened or closed by a private individual, the fact shall be reported by the Civil Surgeon to the Inspector-General of Civil Hospitals.

(i) Institutions in class IV, which are in receipt of aid from Government or Local funds, shall be subject to these rules. Private non-aided dispensaries shall not be brought under the supervision of Government except at the request of those who are responsible for their maintenance. When the Inspector-General of Civil Hospitals approves of their being brought under Government supervision, they shall be placed in class V and be subject to such of these rules as are applicable to them.

(ii) Whenever a new dispensary is opened, whether it is a State or Local Fund dispensary, or when a private dispensary is proposed to be placed under Government supervision, the Civil Surgeon of the district should furnish the Inspector-General of Civil Hospitals with information on the following points :—

(*a*) Allotment made under the different heads of expenditure for the maintenance of the dispensary.

(*b*) A copy of the Divisional Commissioner's order sanctioning the establishment of the dispensary, unless it is a private one.

(*c*) A plan of the building in which the dispensary is or will be located.

(*d*) The authority mainly responsible for its maintenance and the class in which it is proposed to place it.

(*e*) The diploma and other certificates of the Medical Officer whom it is proposed to appoint as laid down in rule 10.

(iii) No dispensary should be removed from one place to another until the matter has been fully discussed and the Inspector-General of Civil Hospitals informed in sufficient time to enable him to express an opinion and to sanction or reject the proposal.

Grants-in-aid by Government and local authorities

RULE 3.—Applications for grants from Government in respect of any dispensary shall be submitted to Government through the Magistrate and the Commissioner.

(i) The Governor in Council reserves the right to withdraw Government supervision or aid in any case, or at any time, when it may seem desirable to do so.

(ii) No grant may be made by a local authority in aid of any hospital or dispensary which has not received the recognition of Government and been classified under these rules. Grants-in-aid shall be made only in accordance with these rules.

Guarantee bond

RULE 4.—A guarantee bond for the maintenance of a dispensary for a given period may, if thought necessary, be required from the intending supporters of an institution in class IV or V as a condition precedent to their obtaining assistance from Government in money or in any other way.

Submission of reports, returns and accounts

RULE 5.—The Managing Committee or Manager or person or persons vested with the management of every hospital or dispensary under these rules, whether in class I, class II, class III, class IV, class V or class VI, shall submit to the Medical Department, through the Civil Surgeon of the district, such reports, returns, and accounts as may be prescribed by the Inspector-General of Civil Hospitals from time to time. Such reports, returns, and accounts shall be in such forms, and be submitted on such dates, as may be prescribed. All books, registers, and forms which may be necessary for the preparation and submission of such reports, returns, and accounts will be supplied by Government free of cost.

Inspection and supervision.

RULE 6.—Every institution which is recognized by Government and brought under these rules is subject to inspection and supervision by the Commissioner of the Division, by the Civil authorities of the district, by the Civil Surgeon, by the administrative officers of the Medical Department, and by any other person who may be generally or specially appointed by the Commissioner of the Division in that behalf. No charge will be made for such inspection or supervision.

Conditions for grant-in-aid

RULE 7.—Government aid to a hospital or dispensary will be conditional on the observance of due economy in the management of the dispensary funds. The Inspector-General of Civil Hospitals will bring to the notice of Government any instance in which he considers that such economy is not observed, and that the Government aid should be continued or withdrawn.

Admission of Police cases, and *post mortems*.

RULE 8.—Every dispensary under Government supervision which has accommodation for in-patients shall admit all cases brought by the Police for examination and treatment.

APPOINTMENT, PAY, LEAVE, AND PENSION OF MEDICAL OFFICERS.

Appointment of medical officer in State institutions

RULE 9.—The medical officer of every institution in class I or II of these rules shall be a member of the Government service, and shall be appointed by the Inspector-General of Civil Hospitals.

Appointment of medical officer in other cases.

RULE 10.—The local authority or Managing Committee vested with the control and administration of an institution in class III, and the Managing Committee, Manager or person or persons vested with the management of an institution in class IV, V or VI (private) shall be entitled to appoint their own medical officer subject to the following conditions, viz.—

(*a*) that he be a duly qualified medical man, licensed or certified by a recognised medical college or school, his license or diploma being subject to examination and approval by the Inspector-General of Civil Hospitals;

(*b*) that he be not a dismissed servant of Government, or disqualified for his duties by age, infirmity or character; and

(c) that in the event of misconduct, insolvency, or professional incompetence by reason of age or otherwise, being proved against him to the satisfaction of the Medical Department he be removed from his charge on the requisition of the Inspector-General of Civil Hospitals:

(i) Provided that, on the application of the local authority or Managing Committee of any such institution, the services of a Government medical officer may be lent to such institution, subject to these rules. In such cases the pay *plus* contribution towards pension and allowance for leave including privilege leave of an Assistant Surgeon will be assumed to be Rs. 290 per mensem, and the pay including contribution for privilege leave allowance of a Sub-Assistant Surgeon Rs. 57, and local authorities be required to pay these sums into the treasury half-yearly in June and December, irrespective of the actual pay of the officer appointed.

(ii) Provided, also, that in the case of dispensaries situated at the head-quarters of districts or of subdivisions, the medical officer shall be a member of the Government service, and shall, in all cases, possess such qualifications as may be declared to be necessary for such an appointment. The salary of a medical officer in charge of a dispensary at the head-quarters of a subdivision shall be as laid down in Rule 11.

NOTE.—This rule does not preclude the local authority or the Managing Committee or Manager which appoints a medical officer to the charge of a dispensary vested in it from removing that officer on its own initiative. It only vests the Inspector-General of Civil Hospitals with power to secure the dismissal of a medical officer found to be incompetent.

Remuneration of Assistant Surgeons and Civil Hospital Assistants.

RULE 11.—In the case of a hospital or dispensary situated at the head-quarters of a subdivision, the Government medical officer in charge of the subdivision will usually be in charge of the hospital or dispensary in addition to his other duties, and will receive from the managers of the dispensary an additional allowance of Rs. 10 a month if he is a Sub-Assistant Surgeon, or Rs. 20 a month if he is an Assistant Surgeon.

(i) If the officer sanctioned by Government for the medical charge of the subdivision is of the Sub-Assistant Surgeon class, it will be open to the managers to obtain the services of a Civil Assistant Surgeon on payment of the difference between the assumed pay of an Assistant Surgeon (Rs. 290) and the assumed pay of a Sub-Assistant Surgeon (Rs 57) in addition to the dispensary allowance.

RULE 11 (*a*).—In some subdivisions and sadar stations there are two medical officers—one an Assistant Surgeon and the other a Sub-Assistant Surgeon. In the absence, other than merely temporary, of one of such officers if the absentee's work is carried out by the remaining officer in addition to his own duties the latter will be granted an allowance at the rate of Rs. 10 a month in the case of a Sub-Assistant Surgeon, and Rs. 20 a month if a Civil Assistant Surgeon; such allowance being paid by the authority (Government or local body) responsible for the pay of the absentee.

Removal or transfer of Government Medical Subordinate.

RULE 12.—The Inspector-General of Civil Hospitals may, at any time, for departmental or other reasons, remove or transfer any Government medical subordinate whose services have been lent to an institution in class III, IV, V or VI (private) and may appoint another medical subordinate to succeed him. In every such case, except as hereinafter provided, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by Government:

Provided that if any officer is removed or transferred at the request of the local authority or Managing Committee or Manager, the transit pay and travelling allowances both of the officer transferred and of his successor shall be entirely paid by the local authority or Managing Committee or Manager concerned. In such cases the local authority or Managing Committee or Manager of institutions in classes III, IV, V and VI (private) shall be required to give three months' previous notice of their intention.

NOTE.—The transit pay and travelling allowance of a Government medical officer whose services are withdrawn from a Local Fund dispensary at the request of the local authorities or the Managing Committee or Manager will, in the first instance, be drawn from the local Government treasury and will subsequently be recovered by the Accountant-General, Bengal, through the Collector of the district.

Pay of Government medical subordinate limited to his grade pay.

RULE 13.—The pay to which a Government medical subordinate in medical charge of any dispensary is entitled is only the pay of his grade, and no allowance in addition to his authorized pay can be granted by a local authority without the consent of Government.

NOTE.—Any application under this rule must be made through the District Magistrate, the Commissioner of the division and the Inspector-General of Civil Hospitals, Bengal.

Pension and leave allowances of Government medical subordinates

RULE 14.—A Government medical subordinate appointed to the charge of a hospital or dispensary under these rules will retain his right to pension and leave allowances under the rules of the Civil Service Regulations.

Applications for leave and payment of allowances.

RULE 15.—All applications for leave from Government medical subordinates must be submitted through the Managing Committee or Manager and the Civil Surgeon to the Inspector-General of Civil Hospitals, Bengal, who alone is authorized to grant the leave and to appoint a substitute, whose transit pay and travelling allowance will be paid by Government. The leave pay of Government medical officers in charge of hospitals or dispensaries in classes III, IV, V and VI (private) proceeding on leave including privilege leave will be borne by Government.

Leave of officers not in Government service.

RULE 16.—Medical officers in charge of hospitals and dispensaries in class III, IV or V, who are not in Government service, shall be entitled to such leave as the local authority or Managing Committee or Manager may grant: provided that the leave or allowances during leave shall not exceed what would be admissible under the rules which apply to an officer paid from general revenues, and that in the case of an institution in class III, if rules for the grant of leave have been framed by the local authority concerned, leave shall only be granted in accordance with such rules. The local authority or Managing Committee or Manager shall appoint a *locum tenens* duly qualified under Rule 10, and shall provide for any expenditure that may be incurred on account of the pay of the medical officer while on leave, and the pay and travelling allowances, if any, of his *locum tenens*. In no case shall leave be granted to a medical officer (who is not in Government service) in charge of a dispensary without the cognizance of the Civil Surgeon of the district.

MEDICAL STORES.

Indents for medical Stores

RULE 17.—The indents for medical stores for hospitals and dispensaries in class III, IV, V or VI (private) must be drawn up by the medical officer of the institution and be checked and passed by the Civil Surgeon before the stores are purchased. Such institutions shall make their own arrangements for the supply of medicines and medical stores.

N.B.—It is advantageous to obtain medical stores excluding opium and quinine from Messrs Burgoyne Burbidges & Co., of London, tinctures and other alcoholic preparations from Messrs. Smith, Stanistreet, & Co., of Calcutta, mineral acids from Messrs. D Waldie & Co., of Calcutta, cinchona febrifuge and quinine from the Government Quinologist, castor-oil from the Rampur Boalia Central Jail, and opium from the local treasury.

Supply of stores.

RULE 18.—Medical stores will be supplied to State hospitals and dispensaries from the Government Medical Store Department; but the indent must be checked and countersigned by the Civil Surgeon. It will, however, be in the discretion of the Inspector-General of Civil Hospitals to sanction or disallow any demand.

Indent to be annual.

RULE 19.—Medical stores to be supplied from the Medical Store Department must be indented for annually, and the annual indent must be submitted on the date fixed by the Civil Surgeon, to enable him to submit the combined indent for his district punctually on the date fixed by the Inspector-General of Civil Hospitals, Bengal.

MANAGEMENT AND SUPERVISION.

Management in whom vested.

RULE 20.—The management of hospitals and dispensaries under these rules shall be vested as follows:—

If the institution is in—

(*a*) Classes I and II—in such officer, person or persons as Government may direct.

(*b*) Class III—in the local authority with which the ultimate responsibility for its maintenance rests, or in a Managing Committee appointed by that authority, subject to the veto of the Commissioner of the Division. Such Managing Committee may include persons who are not members of the local authority. The District Magistrate and the Civil Surgeon at head-quarters and the Subdivisional Magistrate and the medical officer of the subdivision shall be *ex-officio* members. The members shall be notified by the Commissioner in the *Calcutta Gazette*.

(*c*) Classes IV and V—in a Manager or Managing Committee to be nominated by the supporters and approved by the Commissioner of the Division; provided that no Committee shall be appointed for any institution which receives no aid from Government or local funds, unless the proprietors or chief supporters apply for such appointment.

(*d*) The members of the Managing Committee of a dispensary are vested with powers to appoint their own Chairman and Vice-Chairman.

No employé of the dispensary shall be eligible for appointment as a member of the Dispensary Committee. This prohibition does not, however, refer to Civil Surgeons or Subdivisional Medical Officers who are not employés of the dispensary.

NOTE.—The management of a local fund hospital or dispensary may be vested by the local authority in a Manager instead of a Managing Committee in places where the services of an efficient Committee cannot be secured. Such Manager shall exercise in respect of the hospital or dispensary for which he is appointed the powers exercised by a Managing Committee under these rules, or such powers additional or otherwise as may be delegated to him by the local authority.

Term of office of members of Managing Committee

RULE 21.—Every member of a Managing Committee appointed under rule 20, clauses (*a*) and (*c*), shall vacate his office at the end of three years from the date of his appointment as such member; and

every member of a Managing Committee appointed under rule 20, clause (*b*), shall vacate his office when the term of office of the members of the local body by which the Committee is appointed expires:

Provided that the term of office of the members of the Committee shall be held to include any period which may elapse between its expiration and the date of the first meeting of a new committee appointed to take its place.

Members of Managing Committees appointed under Rule 20 shall be eligible for reappointment after their term of three years expires.

Removal of members.

RULE 22.—(1) A member of a committee appointed under Rule 20, clause (*a*), may at any time be removed from office by the Commissioner of the Division.

(2) A member of a committee appointed under Rule 20, clause (*b*), may at any time be removed (*i*) by resolution of the local body by which the committee was appointed, passed by a majority of votes of the members of such body present at a meeting specially convened for the purpose, or (*ii*) for any of the reasons for which a member of the local body might be removed from office by the authority empowered by law to remove such member.

(3) A Manager or a member of a committee appointed under Rule 20, clause (*c*), may at any time be removed from office by the Commissioner of the Division, at the request of the supporters or any of them, or by the Commissioner of his own motion for any of the reasons for which he might remove from office a Municipal Commissioner.

Filling of vacancies

RULE 23.—If any member of the committee shall be unable to complete his full term of office, or shall avail himself of leave granted by the committee, the vacancy caused by his resignation or removal, or death or absence on leave, may be filled up by the appointment of another person, and the person so appointed shall fill such vacancy for the unexpired remainder of the term for which such member would otherwise have continued in office, or during his absence on leave, as the case may be.

Chairman and Vice-Chairman.

RULE 24.—In cases falling under (*b*) and (*c*) of rule 20, the local authority or the Managing Committee shall elect two of their number to be Chairman and Vice-Chairman, respectively, and may also elect another of their number as Secretary.

Meetings of committee

RULE 25.—The Managing Committee shall hold meetings at such intervals as may be necessary, not being less than once a quarter, to enable them to exercise an efficient scrutiny over the accounts and to enquire into all matters affecting the welfare of the institution. They shall examine and pass the monthly accounts and shall keep a minute book in which their proceedings shall be recorded. The dispensary accounts shall, however, be passed regularly each month by the Chairman of the Managing Committee or, in his absence, by the Vice-Chairman or Secretary.

Duties and functions of Committee

RULE 26.—The Managing Committee or Manager or the person or persons vested with the management of a dispensary in class IV or V shall be responsible for the management of the funds of the institution. It shall be their duty to see that the guaranteed and promised subscriptions are regularly collected. After defraying the current expenses of the institution, the balance at the end of the month, if any, of the donations, subscriptions, and interest realized by the Committee shall be deposited by them in the Post Office Savings Bank. When the amount at credit of the dispensary exceeds Rs. 200 the Comptroller-General shall ordinarily be asked to invest the whole or a part of it in Government securities. No other mode of investment will be allowed without the previous sanction of Government. The proprietors of dispensaries in class V may, however, adopt any form of investment so far as the funds of their institution are concerned.

Custody of endowments and invested funds.

RULE 27.—In the case of institutions in class III, the endowments and subsequent investments, which must be made in Government securities, shall be held in the custody of the Accountant-General apart from the assets of the local fund. Small sums available for investment should be placed in the Government Savings Bank. The securities must not be sold, and the invested funds must not be appropriated or used in any way without the sanction of Government.

Subdivision for purposes of accounts of Local Funds dispensaries.

RULE 28.—Dispensaries in class III are subdivided for purposes of account into two classes: Class IIIA—Dispensaries for which separate banking accounts are allowed to be opened in the treasury with the sanction of Government; and class IIIB—Dispensaries for which separate accounts are not allowed at the treasury, but the funds of which are kept under the direct control of the local authority.

(*a*) CLASS IIIA—DISPENSARIES.

Preparation of dispensary budgets

(1) (*a*) The Managing Committee shall annually prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year arranged according to the headings given in Statement H of the Annual Return (B. C. M. D. Form No. 22), and submit it to the Commissioner of the Division through the local authority on a date fixed by that authority. The local authority will check the figures against the heads "Local Fund contribution" or Municipal Fund contributions, as the case may be, and "Interest on Investments" and, if the figures are correct, forward the estimate to the Commissioner. On receipt of the Commissioner's orders

approving the estimates, the local authority will incorporate the figures in its own budget estimate under appropriate headings. In the case of Municipalities the fixed annual contribution should be shown against the head "Charges to be met from the general fund and endowments," and the total estimated expenditure less that amount under the head "Charges to be met from special receipts."

(*b*) No expenditure under any head in excess of the amount sanctioned by the Commissioner of the Division in the budget estimates shall be incurred by the Dispensary Committee. If it is found necessary to meet excess expenditure under any one head either from anticipated savings under another, or from increased receipts from subscriptions or other special sources or the accumulated balance, an application for reappropriation or an additional budget grant, as the case may be, with a clear explanation of the necessity for additional expenditure shall be submitted to the Commissioner direct; but the expenditure proposed should not be incurred before receipt of the Commissioner's orders.

Method of keeping accounts where separate banking account is opened in treasury

(2) All subscriptions and donations shall be collected by the Managing Committee and shall be paid into the treasury for credit to the Dispensary Fund. The income from endowments and investments shall, however, be realised by the local authority, and shall be remitted by it to the treasury for credit to the Dispensary Fund, an advice being sent at the same time to the Managing Committee. If any cheques for remittance orders are received, they should be sent intact to the treasury for *per contra* credit to the Dispensary Fund.

(3) All claims should be discharged either by payments from the imprest placed by the Committee in the hands of the medical officers in charge, or by cheques drawn by the Secretary or the Chairman upon the treasury in favour of the actual payees. The imprest in the hands of the medical officer shall not ordinarily exceed Rs. 50 in the case of sadar dispensaries, and Rs. 25 in the case of other dispensaries.

If it is necessary for the local authority to make a contribution to supplement the dispensary funds, such contribution should be paid in quarterly instalments on the first day of each quarter by cheques which should be made payable by transfer to the credit of the dispensary account in the treasury, failure to do which should be brought to the notice of the District Magistrate by the Managing Committee. These amounts will be credited in the cash-book of the Managing Committee as contribution from the local authority by *per contra* debit as remitted to the treasury.

(4) The Managing Committee shall keep a cash-book in B. C. M. D. Form No. 7 in which shall be entered all receipts and payments with necessary details as soon as the transactions occur. The cheque on which the imprest in the hands of the Medical Officer is drawn should be charged off as an advance, and the imprest should be recouped from time to time by presentations of bills supported by the payees' receipts to the Secretary. The amount of each recoupment should always exceed Rs. 10. The cash-book should be closed every month, and a memorandum recorded reconciling the balance with that shown in the pass-book. A copy of the monthly account signed by the Chairman of the Committee shall be forwarded to the office of the local authority before the 5th of the succeeding month for incorporation in their accounts. Care should be taken not to mix up final payments with advances which should be clearly shown as such. The payment vouchers should be carefully preserved for production at the time of audit.

The transactions of the Dispenary Fund with the treasury will be shown in a pass-book, which will be supplied gratis by the treasury. The pass-book shall be closed and balanced at the end of every month. It should be examined by the Secretary of the Committee every time that it is received back from the treasury, to see that all the transactions have been duly entered therein. At the close of every month the treasury officer will prepare a memorandum showing the opening balances, monthly receipts and payments and the closing balances of the several dispensary funds banking with the treasury, and enter this memorandum in the pass-books of the local authority to which the dispensaries belong to enable it to verify the balances.

(5) Dispensary establishments paid from funds vested in the local authority should be sanctioned in the same way as other establishments under that authority, but temporary appointments or other special charges

if paid out of subscriptions and donations may be created by the Managing Committee without such sanction, provided there is provision in the budget.

(6) The dispensary accounts will be annually audited by the Examiner of Local Accounts.

(*b*) CLASS IIIB.—DISPENSARIES.

Preparation of dispensary budgets

(1) The Managing Committee shall annually prepare a budget estimate of the probable income and expenditure of the dispensary for the ensuing financial year arranged according to the headings given in B. C. M. D Form No. 22, and submit it to the local authority on a date fixed by that authority for the sanction of the Commissioner of the Division. No expenditure shall be incurred in excess of the amounts sanctioned by the Commissioner, unless his previous sanction has been obtained to either a reappropriation of grants or an additional grant obtained through the local authority.

Method of keeping accounts where funds are under direct control of local authority

(2) As regards these dispensaries, the interest on the investments will be accounted for by the local authority direct. But all donations and subscriptions will be collected by the Managing Committee and paid into the Savings Bank at the post office. The account should be in the name of the Chairman or Secretary of the Committee. The whole amount collected should be sent intact to the Savings Bank. Amounts required for expenditure may be withdrawn according to requirements, but there should be in support of each payment a duly vouched bill passed by either the Chairman or Secretary, and the total expenditure under any head in the budget should not be exceeded without the sanction of the Commissioner of the Division. The Managing Committee should maintain an account of the withdrawals from the Savings Bank and the disbursements therefrom in B. C. M. D. Form No. 8 and a subscription register in B. C. M. D. Form No. 6.

(3) All claims in respect of these institutions shall be either paid from the imprest in the hands of the medical officer in charge or from the money withdrawn according to requirements from the Savings Bank or discharged by the local authority concerned on bills duly passed by the Managing Committee by issue of cheques upon the treasury. The Medical Officer shall from time to time present bills in recoupment of his imprest supported by payees' receipts.

(4) The Managing Committee shall keep a monthly account in B. C. M. D. Form No. 60, showing all transactions of the dispensary, including the contributions payable by the local authority, and forward a copy of this account to the local authority at the end of every month for comparison with the accounts kept at the office of the local authority concerned. All bills paid out of withdrawals from Savings Bank should be forwarded with the necessary sub-vouchers to the office of the local authority with the monthly account. Interest allowed by the post office should be shown against "Miscellaneous" in B. C. M. D. Form No. 60.

Civil Surgeon to be Superintendent.

RULE 29.—The Civil Surgeon shall be the Superintendent of every hospital and dispensary in his district which is classified under these rules, and shall exercise complete professional control over the medical officer in immediate charge.

Scrutiny of accounts and control by Superintendent.

RULE 30.—The Superintendent shall scrutinize the expenditure and accounts of every hospital and dispensary in his district, and shall call the attention of the managing body to any irregularity or other circumstance which, in his opinion, deserves notice. The managing body shall be bound to consider any communication from the Superintendent, to afford him full information as to the conduct of the medical officer in charge, and all other matters affecting the welfare of the sick and the management of the institution. In all professional matters the decision of the Superintendent will be final; but if any difference of opinion arises between him and the managing body regarding any non-professional matter affecting the management of the institution, a reference must be made to the Inspector-General of Civil Hospitals or to Government for a decision.

Inspection by Superintendent

RULE 31.—The Superintendent shall visit each dispensary in his district not less than four times annually, except by special dispensation from the Inspector-General of Civil Hospitals, and shall prepare and submit promptly to the Inspector-General of Civil Hospitals inspection reports in B. C. M. D. Form No. 29.

The sadar hospital should be visited by the Civil Surgeon daily at a fixed hour which should be notified throughout the district so that patients who wish to consult him may know exactly when they can do so.

Annual report by Superintendent

RULE 32.—The Superintendent shall furnish an annual report of working of the hospitals and dispensaries in his district to the Inspector-General of Civil Hospitals, in B. C. M. D. Form No. 50 and annual returns in accordance with B. C. M. D. Forms Nos. 18, 19, 20, 21 and 22.

Record of work and of accounts to be kept by Managing Committee.

RULE 33.—The Managing Committee or Manager of every hospital or dispensary shall cause to be kept at the institution—

(*a*) a record of the work done, showing day by day the number of patients treated, the affections for which they were treated, and, in important cases, some account of the symptoms, the treatment, progress, and the result,

(*b*) a record of the accounts of the institution.

These shall be written up daily by the medical officer in charge, and shall be open at all times to the inspection of inspecting officers.

The medical officer shall write up all other books and records prescribed under these rules, and, in any case in which this is not done, the reasons should be stated in the inspection report of the Superintendent.

Submission of extract of proceedings to Superintendent

RULE 34.—An extract from the proceedings of each meeting of the Managing Committee and of the local authority, so far as they relate to hospitals and dispensaries, shall be promptly forwarded to the Superintendent, who may, if he thinks fit, and shall, if the Managing Committee so desire, submit it with his remarks to the Inspector-General of Civil Hospitals.

Visitors' Book

RULE 35.—A visitors' book shall be kept in every hospital and dispensary in which will be recorded the remarks of visitors. A copy of these remarks shall be forwarded, within twenty-four hours to the Superintendent, who will, if necessary, transmit it with his remarks to the Inspector-General of Civil Hospitals within three days of its receipt in his office.

GENERAL.

Responsibilities of medical officer.

RULE 36.—The medical officer in charge of a hospital or dispensary is responsible for the proper treatment of the sick, and this duty shall not on any account be delegated to a subordinate; he is also responsible for all matters connected with the comfort and well-being of the patients and for the proper working of the dispensary establishment.

Hours of attendance

RULE 37.—The Managing Committee or Manager shall prescribe the hours of attendance (which shall not be less than four hours in the morning and two hours in the afternoon) within which the medical officer must be present at the dispensary. He must also give attention to urgent cases at other hours.

The hours of attendance shall be clearly stated in a notice posted in some conspicuous part of the dispensary.

Advice and medicines to be free.

RULE 38.—Any person attending at a charitable dispensary is entitled to receive advice and medicines free of charge; but the medical officer should impress upon any person who is not poor the duty of subscribing to the dispensary or paying for the medicines supplied to him, and should bring to the notice of the Committee or Manager any cases in which the privilege is abused.

Diet charges in medico-legal cases.

(i) The diet charges in medico-legal cases sent by the police should be recovered from the Magistrate and met from his contingent grants.

Issue of medicines.

RULE 39.—No medicines shall be issued from the dispensary stock to any one who does not receive treatment at the dispensary either as an in-door or out-door patient.

Issue of medicines to Government servants.

Exception (*i*).—At dispensaries which receive a contribution from Government for the supply of medicines and medical stores to Government servants, these stores shall be supplied from the dispensary stock free of charge to such Government servants as are entitled to receive them.

Exception (ii).—At dispensaries which receive a contribution from Government for the supply of medicines and medical stores for the treatment of sick prisoners in subsidiary jails, these stores should be supplied from the dispensary stock free of charge. Medical appliances from such dispensaries shall also be given on loan when required temporarily for the use of sick prisoners.

Supply of medicines and medical appliances to Subsidiary Jails.

RULE 40.—Where special accommodation has been provided for paying patients, fees may be levied according to a scale previously sanctioned in that behalf by the Managing Committee or Manager.

Scale of fees for accommodation of paying patients.

RULE 41.—The medical officer in charge of a dispensary has the privilege of engaging in private practice, provided it does not interfere with his attendance at the dispensary during the hours prescribed in rule 37, or in any other way with his dispensary work.

Private practice.

RULE 42.—No medical officer in charge of a hospital or dispensary or any compounder, dresser, or other servant of such institution, shall have any interest in a private dispensary or druggist's shop. In places where there is no approved druggist's shop or private dispensary, a medical officer may, with the consent of the Civil Surgeon and the Managing Committee or Manager, keep a private supply of medicine for the use of his private patients.

Prohibition of interest in private dispensary or druggist's shop.

RULE 43.—Sub-Assistant Surgeons employed in sanctioned appointments, whether under Government or local bodies, will be granted by the authorities paying their salaries free quarters or house-rent in lieu thereof, provided that such quarters are approved and are at a convenient distance from the scene of the officers' duties. In respect of Sub-Assistant Surgeons, who do not hold any sanctioned appointments, free quarters or house-rent allowance in lieu thereof may be granted with the sanction of the Local Government, subject to the condition that the amount of the allowance shall in no case exceed the rent actually paid by the Sub-Assistant Surgeon concerned.

Provision of quarters for Sub-Assistant Surgeons.

RULE 44.—In dispensaries in which there are house-patients, a bed-head ticket in the prescribed form (*vide* B. C. M. D. Form No. 9) shall be hung over the bed of each in-patient.

Bed-head tickets.

RULE 45.—Medicines and instruments shall be kept under lock and key, except small quantities of the articles in daily use during the attendance of patients.

Storage of medicines and instruments.

RULE 46.—Poisons should be stocked in special bottles and kept under separate lock and key which should remain in the custody of the medical officer in charge of the dispensary: the doses in which these drugs are usually administered internally should be legibly written on a conspicuous label. A list of poisons should be hung up in the almirah specially reserved for the custody of such drugs.

Poisons.

RULE 47.—(i) No building for the accommodation of a dispensary or hospital in classes I, II, III, IV and V shall be constructed, and no extension of such building involving an alteration of the structural design shall be made, until the plan of such building or extension has been approved by the Inspector-General of Civil Hospitals, Bengal. An extension or alteration involving no change of design shall be approved by the Civil Surgeon.

Sanctions necessary for construction, extension or alteration of a hospital or dispensary.

(ii) In the construction of new dispensaries the standard plan should ordinarily be followed. If it is desired in exceptional cases to deviate therefrom, the alternative proposals which are submitted should be fully justified. If in-patients are to be accommodated, provision should be made

Instructions for the construction of dispensaries.

for at least 90 superficial and 1,200 cubic feet of space for each patient, and the beds should be so placed that the patients will not be obliged to sleep in a draught of air. In isolation wards for infectious cases, 120 feet of superficial space should be allowed to each patient. The beds of all in-door hospitals should be placed so as to have a window or door on each side.

Details of plans to be prepared

(iii) Every project for the construction of a new hospital or dispensary shall be accompanied by a site plan, showing the situation of the proposed building with reference to adjacent buildings, the various features of the surroundings of the proposed site, the prevailing direction of the wind, and all other matters capable of graphic delineation which may have influenced the selection. If the site is on land liable to be flooded, the highest flood level should be shown with reference to the general level of the site.

All proposals, either for the construction of new hospital buildings or for the alteration of existing buildings, shall further be accompanied by line plans, drawn to scale, showing the dimensions of each room, the purpose for which it is designed and (if an in-door hospital) the position of each bed. The points of the compass should be clearly indicated upon such plans.

Committees for the consideration of sites and plans.

(iv) When it is desired to initiate any project for the construction of a new, or the alteration of an existing, hospital or dispensary, the selection of a site and the details of the plans shall first be considered by a Committee to be constituted in the following manner. Any subsequent proposals to modify the original plans and specifications shall be referred to the same Committee :—

The Senior Medical Officer will act as President, and the appointment of the Medical Officers will be made on the application of the Superintending Engineer.

available, and should move him to convene the Committee. The Engineer concerned should frame the necessary plans and estimates in accordance with the decision of the Committee, and the proceedings of the Committee, after consideration by the private person or association concerned, should be forwarded to the Civil Surgeon for transmission to the Inspector-General.

Every plan should, before submission to the Inspector-General of Civil Hospitals, be countersigned by the Civil Surgeon or the Superintendent in token of his approval.

Execution of repairs to local fund or private institutions.

RULE 48.—In the case of institutions in class III, IV or V, repairs to the dispensary buildings shall be executed by, and be chargeable to, the local authority or Managing Committee or Manager, as the case may be.

Appointment and discharge of compounders, dressers, and menial servants.

RULE 49.—Menial servants will be appointed and discharged by the Medical Officer in charge subject to the approval of the Managing Committee or Manager of the institution. Compounders and dressers will be appointed and be liable to removal by the Managing Committee or Manager subject to the approval of the Superintendent.

Conditions of appointment and remuneration of compounders.

RULE 50.—All compounders appointed to dispensaries in classes I, II and III after the 1st April 1897 must hold certificates under the rules for the grant of certificates to compounders under section 252 of the Bengal Municipal Act, III of 1884, and section 498 of the Calcutta Municipal Consolidation Act, III of 1899, and will draw pay at the rate of Rs. 15 rising by biennial increments of Re. 1 to Rs. 20. Compounders already employed in such dispensaries will be entitled to draw pay at the above rate on obtaining such certificates.

(i) In selected cases the pay may, with the approval of the Inspector-General of Civil Hospitals, Bengal, be fixed at any other rate subject to a maximum of Rs 25: provided that if it be incremental it shall ordinarily rise by biennial increments of Re. 1 and attain the maximum in ten years.

(ii) The Inspector-General of Civil Hospitals is empowered to cancel the certificate of any compounder proved to have made a serious mistake in the dispensing of a medicine either through ignorance or carelessness.

(iii) Compounders should not, except in very exceptional cases, be placed in charge of dispensaries, and even then only for a very short period. Whenever a compounder is placed in charge of a dispensary, the fact should immediately be reported to the Inspector-General of Civil Hospitals.

(iv) Compounders attached to in-door dispensaries will be entitled to free quarters which must be provided for them by the dispensary authorities.

Prohibition of employment of apprentices in certain cases.

RULE 51.—The employment of apprentices is prohibited, except in hospitals and dispensaries the Superintendents of which are authorized by the Inspector-General of Civil Hospitals, Bengal, to receive and train candidates for the compounder class. The number of such apprentices in an institution should be limited to two.

Prohibition of private employment of dispensary servants.

RULE 52.—Dispensary servants must not be employed in the private service of the medical officer, or of the members of the Managing Committe or Manager.

Disposal of non-infected clothing and property of deceased patients.

RULE 53.—Articles of clothing which are not infected, and other moveable property belonging to deceased house-patients, should, unless, in the case of Indian patients, to whom section 64 of Act II of 1874 does not apply, there are heirs to whom the property may be made over, be sent through the Police to the local Munsif or District Judge for disposal under the provisions of Regulation V of 1799. In the case of European or other patients to whom section 64 of Act II of 1874 applies, there is no obligation on the hospital authorities to report the death to the Judge or to send to him the property of the deceased. It may be taken away by the relations or friends of the deceased, if there are any present. If not, the hospital authorities may keep any moveable property left by the deceased until the friends or relations of the deceased can take them away. If no application is made within six months the articles may be sent to the District Judge with a report of the death of the deceased. In making over such property or allowing such property to be taken away, the hospital authorities will exercise due care and caution, and will advise the parties that they are not legally entitled to possession of these until they have complied with the provisions of law on the subject

of the effects of deceased persons, and that they are permitted to remove the property at their own risk.

A receipt for the goods should be taken in a register to be kept for the purpose or on a separate paper which should be filed

BOOKS AND FORMS.

Books and forms to be kept up by the Medical Officer

RULE 51.—The following books and forms are required to be kept up by the medical officer at hospitals and dispensaries brought under these rules:—

(1) Diary and register of in-door patients (B. C. M. D. Form 1).

(2) Register of operations (B. C. M. D. Form 3).

(3) Bed-head ticket (B. C. M. D. Form 9). This should be written up daily and be filed, so as to preserve a concise history of the case and treatment.

(4) A case-book for recording all special or important cases (blank book).

(5) A clinical chart of temperature, pulse, and respiration in B. C. M. D. Form 51. This should be posted into the case-book against the patient's case.

(6) Register of out-patients (B. C. M. D. Form 2).

(7) Ticket for out-door patients (B. C. M. D. Form 10).

(8) A book of copies of certificates given in police and medico-legal cases.

(9) A book for record of *post-mortem* examinations, medico-legal or otherwise and for keeping detailed records of wounds or other police cases. Instead of the book being kept up, a copy of B. C. M. D. Form 35, which is to be used when despatching viscera to the Chemical Examiner, may be filed as a record of medico-legal *post-mortem* examinations.

(10) Monthly returns of in- and out-patients (B. C. M. D. Forms 26, 27 and 28). These should be kept up to date for the more easy and accurate preparation of the annual return. A copy should be submitted to the Civil Surgeon soon after the close of the month.

(11) Monthly bill in detail of establishment, diet, and contingencies. These are to be prepared by the medical officer in charge, and sent for examination, countersignature, and payment to the Secretary or Manager. In all cases in which there is expenditure for establishment, diet or any other charge to be paid by Government, the bills of such expenditure are to be kept separate from the private accounts of the charity.

(12) A bill-book for copies of all the dispensary bills (blank book).

(13) A daily account or cash-book showing actual receipts and expenditure in detail (blank book). This is to be kept by the medical officer, and the account totalled up at the end of each month.

(14) A diet-book in B. C. M. D. Form 5. This is required only in dispensaries in which there are in-patients.

(15) A stock ledger of surgical instruments and appliances (B. C. M. D. Form No. 48).

(16) A stock ledger of medicines (B. C. M. D. Form 47).

(17) Annual indent for European medicines and instruments (B. C. M. D. Form 13). This is to be submitted to the Civil Surgeon in printed form and in quadruplicate.

(18) Emergent indent for European medicines and instruments (B. C. M. D. Form 14). This is to be submitted to the Civil Surgeon in printed form and in quadruplicate.

(19) Annual indent for forms (B. C. M. D. Form 16).

(20) Annual returns (B C. M. D. Forms 18, 19, 20, 21, 22, 23, 24 and 25). These should be sent in the printed form and in duplicate, in the first week of January, to the Civil Surgeon for check, and for the transmission of one of the copies to the Inspector-General of Civil Hospitals not later than the 10th January.

(21) A season monthly register of vaccination for use in dispensaries to which vaccinators are attached. This form can be obtained from the Superintendent, to whom a copy duly filled up should be submitted every month for incorporation in his monthly return to be submitted to the Sanitary Commissioner.
(22) A visitors' book. For this a simple blank book will suffice.
(23) A blank book for copies of all letters and circulars received, of which the originals cannot be retained.
(24) A blank book for copying all letters despatched.
(25) A book-cover for filing all circulars and other letters.

Books and forms to be kept up by the Secretary or Manager.

RULE 55.—The following books and forms are required to be kept up by the Secretary or Manager of a Dispensary:—

(1) Account of the receipts and payment of Municipal dispensary prescribed in rule 104 of the Municipal Account Rules (Form No.).
(2) A statement of accounts (in B. C. M. D. Form 22), to be submitted by the Secretary or Manager monthly to the Superintendent. A copy of the same should also be laid before the managing body at their meetings and another copy should be sent to the Magistrate.
(3) A monthly *pro formâ* account of class III dispensary prescribed in the Accountant-General, Bengal's Circular No. 263L.A., dated 18th August 1900. B. C. M. D. Form No. 60.
(4) An annual return of accounts in the same form and an annual account of invested capital in Form 22 (statement F) should be submitted to the Superintendent for his information in the first week of January.
(5) A cash book of class IIIA Dispensary Fund (B. C. M. D. Form 7) to be kept by the Managing Committee or Manager in accordance with the instructions contained in rule 28.
(6) A subscription and donation book (B. C. M. D. Form 6).
(7) A dispensary property book (blank book).
(8) A committee book for recording the proceedings of each meeting of the managing body (blank book).

Reports and returns.

RULE 56.—The following reports and returns are required to be submitted by the Superintendent:—

(1) Annual return of Government Assistant Surgeons and Civil Sub-Assistant Surgeons (B. C. M. D. Form 30).
(2) Annual confidential report of Government Assistant Surgeons and Civil Sub-Assistant Surgeons (B. C. M. D. Form 31).
(3) Inspection report of a dispensary (B. C. M. D. Form 29).
(4) Annual report on the working of a dispensary (B. C. M. D. Form 50).

IRRIGATION DEPARTMENT.

The 3rd February 1914.

No. 1 Notification.—The following draft of (1) rules and (2) schedule of rates of tolls, which, in exercise of the powers conferred by sections 6 and 11 of the Canals Act, 1864 (Bengal Act V of 1864), the Governor in Council intends to make and fix for the navigable channels of the Magra Hât Drainage scheme, as defined in Notification No. 4, dated the 22nd April 1913 (published at page 634, Part I, of the *Calcutta Gazette* of the 23rd *idem*), is published, as required by section 12 of that Act, for the information of persons likely to be affected thereby.

II. The draft will be taken into consideration on or after the 18th March 1914, and any objection or suggestion which may be received by the undersigned before that date will be duly considered.

H. H. GREEN,
Secy. to the Govt. of Bengal.

DRAFT RULES FOR THE MAGRA HÂT CHANNELS.

1. Every vessel entering or making use of the Magra Hât channels shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Governor in Council as Collectors of Tolls or Navigation Canal Officers shall have authority to again measure a vessel notwithstanding that it was measured before.

2. Vessels for the purpose of the determination of maundage shall be divided into three classes as follows :—

Class I.—To include all vessels of the usual native types of build known as saltees, but not *bonâ fide* tal (or palm-tree) dongas and not exceeding 50 maunds by canal measurement.

Class II.—To include all other vessels of usual native types of build or cutters.

Class III.—To include all steamers, flats, barges and other square-built boats.

The net maundage of every vessel, whether laden or empty, shall, for the purposes of the Canals Act, 1864, and of these rules be determined by the following measurements :—

CLASS I.

A.—The product of one-quarter the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel multiplied by three-quarters of the depth, measured from the top of the vessel amidships to the interior bottom of the vessel is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length to be made in feet, rejecting inches, and of the breadth and depth in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—Any vessel the maundage of which calculated as above exceeds 50 maunds shall be reckoned as a vessel under class II.

CLASS II.

A.—The product of one-quarter the length of the vessel from stem to stern measured outside and along the water line, multiplied by the greatest interior breadth of the vessel multiplied by the greatest interior depth from the water line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches, the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, rejecting any remainder of less than 12½ maunds. In the case of boats exceeding 500 maunds by measurement the maundage shall be reckoned to

the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—In the case of boats carrying passengers only, one foot shall be deducted from the full interior depth of the vessel, the other measurements and the calculations for maundage being made in the methods prescribed for vessels under Class II.

CLASS III.

A.—For vessels of class III, the number of maunds obtained by the system of measurement prescribed for vessels of class II shall be increased by one-half. For vessels of this class exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds rejecting any remainder of less than 100 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

B.—In case of steamers that have been surveyed under the Inland Steam-vessels Act, 1884, the registered tonnage entered in the certificate may be accepted as the tonnage of the steamer in lieu of measurement.

3. All vessels under class I, known and defined as saltees, will be charged under a system of compounded tollage in accordance with rules contained in Appendix A.

4. Every vessel included in classes II and III entering or passing along the canal shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The number of days so allowed without additional payment shall be calculated as follows :—

Boats.—One day for every eight miles or portion of eight miles, to be traversed together with one day for every 100 maunds of measurement or part of 100 maunds.

Floats (timber).—One day for every five miles for any number of timbers not exceeding fifty, and one day for every additional fifty or part of fifty.

Rafts (bamboos).—One day for every five miles for any number not exceeding five hundred and one day for every additional five hundred or part of five hundred.

5. Every vessel which does not complete its voyage within the number of days allowed by rule 4 shall, for each day or part of a day in excess, be liable to an extra charge equal to one-half of the toll payable on the maundage of the vessel as per the Schedule of Rates in Appendix B, provided that in no case shall the demurrage charged exceed Rs. 5 per diem. The Superintending Engineer may, at his discretion, exempt any boats on any line of navigation, or any portion of line of navigation from the payment required by this rule.

Exemption from payment of demurrage may, at the discretion of the Collector of Tolls, be granted for vessels detained in the channels (steamers broken down and boats damaged) by stress of weather, should immediate notice of detention, for the information of the Collector of Tolls, Magra Hât channels, be given to the nearest toll-station.

6. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed : Provided that the Collector of Tolls may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

7. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to do so. If, on demand, the ticket is not produced, such person shall assess the tollage as provided in rule 2, and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel will be liable to seizure and detention in accordance with the provisions of section 9 of the Canals Act, 1864.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of Re. 1. Provided that for tickets on which the

total tollage is less than Rs. 4, the fee to be charged for a duplicate shall be one-quarter of the total tollage with a minimum of As. 4.

9. A vessel, which has been detained under these rules or under section 9 of the said Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

10. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Circular No. 11., dated the 11th July 1906.

11. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor or Navigation Canal Officer. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

12. At places where mooring posts have been provided by the Supervisor or Navigation Canal Officer, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor or Navigation Canal Officer may direct, and shall not be moored in any other manner.

13. The Supervisor or Navigation Canal Officer may, by written notice to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor or Navigation Canal Officer from time to time, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety or obstruct the passage of other boats. Every vessel, when stationary, shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

15. Vessels passing through the canals shall keep in separate lines, empty boats keeping close to the bank, and those that are laden in the centre.

16. In portions of the canals where only one towing-path exists, vessels shall moor on the side opposite to the towing-path, and the towing-path side shall always be kept clear.

17. Iron-built cargo boats, with outside angle iron projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the locks.

18. No fire, or open, unprotected light of any description shall be used on boats containing petroleum, jute, hay or straw in any place prohibited by the Navigation Canal Officer or Supervisor, and no fire, or open, or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor or Navigation Canal Officer and his subordinates shall offer every assistance in removing the same.

If in three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor or Navigation Canal Officer and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, in cases where navigation is seriously obstructed, arrangements may be made at once to remove the wreck.

21. When a sunken vessel has been recovered, the Supervisor or Navigation Canal Officer shall cause notices to be posted at the locks, toll offices or other prominent places calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Canals Act, 1864.

22. The purchaser of a vessel sold under the provisions of section 9 of the said Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered, or when any laden vessel has been seized under the provisions of the said Act or of these rules, the Supervisor or Navigation Canal Officer shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the Supervisor or Navigation Canal Officer be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 21 shall be effected by a notice exhibited in his office and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. No steam-vessel, whose length exceeds thirty feet, shall ply in the Magra Hât channels except in the following:—Diamond Harbour creek, Usti Naiman outfall, Nazra khal, Sangrampur khal up to Sangrampur bridge, and the Surjipur outer khal up to the Surjipur bridge.

26. *Lights and Signals.*—All vessels, whether travelling or moored in the Magra Hât channels, must, between sunset and sunrise, carry a white light in a lantern on the forepart of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed above.

27. *Speed of vessels.*—Every vessel plying in the Magra Hât channels must, between sunset and sunrise, limit her speed to three miles per hour. No steam-vessels shall ply between sunset and sunrise in channels detailed in rule 25.

28. No vessel shall remain in the outer entrance channels of the locks at Diamond Harbour and Uttarbhag nor in the inner lock channel and diversion channel of the Diamond Harbour lock and sluice, nor in the approach channels to any sluice. A board will be put up limiting the portion of the channels in which boats are not permitted to moor.

29. The places at which boats cannot be loaded or unloaded will be fixed by the Superintending Engineer, South-Western Circle, and will be demarcated with suitable posts and notice boards.

30. For any contravention of rules 10, 14, 15, 16, 17, 19, 20, 26, 27 and 28, the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 for any one infringement, or Rs. 5 a day for any continuing infringement.

31. The channels may be closed, whenever necessary, for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but, in the event of any sudden emergency, the channels may be closed at any time without prior notice, and no claim in such cases by owners of vessels or others for compensation on account of detention or otherwise shall be entertained.

32. The term "Navigation Canal Officer," as used in these rules, shall include all persons appointed to collect tolls under section 8 of the Canals Act, 1864, and all Public Works officers or subordinates in charge of the channel, not below the grade of Sub-Overseer.

33. No vessel whose beam exceeds 19 feet will be permitted to enter the channels through the Diamond Harbour lock. The same prohibition will apply in the case of the Uttarbhag lock to all vessels exceeding 14 feet beam.

34. Any vessel which enters the channels through the Diamond Harbour lock for the purpose of taking refuge during stormy weather will be charged a nominal toll of As. 8 per boat, provided the vessel leaves the channel again as soon as the weather conditions permit, and does not load or unload cargo inside the channel. All vessels seeking refuge under this rule must anchor in the creek close to the toll-collector's office and will not be permitted to proceed up the creek without paying the usual tolls.

35. Any vessel entering the channels through the Diamond Harbour lock and proceeding to load or unload at the Diamond Harbour station only will be charged tollage at the rate of As. 2 per 100 maunds to include the return journey. Should such boats proceed up the creek, they will be charged the ordinary tolls.

APPENDIX A.

Rules for licensing and registration of saltees or vessels under class I.

1. As provided for under rule 3, no vessel coming under class I, rule 2, shall ply, whether regularly or only occasionally in, or partly within and partly without the limits of, the Magra Hât channels unless licensed and registered by the Collector of Tolls of the Magra Hât channels.

2. Every owner of a vessel or his agent or manjhi shall apply to the Collector of Tolls, Magra Hât channels, for licensing and registration, giving the owner's name and residence or those of his agent duly authorised to act for him.

3. Every license granted under these rules shall continue in force for either six months or one year from the date of issue.

4. The license is not transferable, and if the ownership or manjhi or both of the vessel be changed, notice of the transfer must be given to the Collector of Tolls of Magra Hât channels, who will endorse the change of ownership on the certificate and register free of charge.

5. The license certificate granted for a vessel should contain the registered number of the vessel, owner's name and residence, name of manjhi, the maundage measurements, amount of compounded tollage and the dates of issue and expiry and shall be kept on board. It shall be produced, when required, by a Navigation Canal Officer and shall be delivered up on the expiration of the license.

6. The charge for the issue of a duplicate license to vessels in lieu of those defaced or lost is Re. 1.

7. The registered number of every licensed vessel shall be engraved, or branded, as well as painted in figures easily discernible on both sides of the vessel for which a charge of Re. 1 will be made. These figures shall be legibly maintained during the period of the license.

8. On the expiration of the license the manjhi shall deliver up his ticket to the toll collector at the station from which it was issued.

9. No person in charge of any licensed vessel plying within the limits of the Magra Hât channels shall use or have any ticket resembling those granted under the authority of these rules.

10. Every renewal of a license shall, unless the Navigation Canal Officer considers it unnecessary, involve the issue of a fresh license certificate without alteration in the registered number of the vessel.

11. Every vessel under class I, found plying in the channels without being licensed and registered shall be charged a demurrage rate of Rs. 3 for every such offence, provided that such vessel is not proceeding to the nearest toll station for the purpose of obtaining a license and being registered

GOVERNMENT OF INDIA.

DEPARTMENT OF COMMERCE AND INDUSTRY.

ANGLO-AMERICAN EXPOSITION, LONDON.

The following information relative to the Anglo-American Exposition which will be held in London between May and October 1914 is published for general information.

The Government of India have decided not to participate in the Exposition.

ANGLO-AMERICAN EXPOSITION, LONDON (SHEPHERD'S BUSH), 1914.

The object of the Anglo-American Exposition is to celebrate in a fitting manner the hundred years of Peace and Progress between the English-speaking peoples since the Treaty of Ghent in 1814. What more appropriate means could be adopted to commemorate these epoch-making events than to materialise in a magnificent joint display the vast gains which have accrued to mankind through this peaceful development of Great Britain and the United States of America during the past century? The Exposition will be held at Shepherd's Bush, London, between May and October of 1914, and will demonstrate in a practical manner the progress which has been made by the British and American people in every branch of civilisation during that century, and will place on view in chronological order the great achievements of that epoch—from inception to perfection—showing not only how each nation has improved on its own inventions, but also where both have worked hand in hand to perfect the creation of the other. Thus there will be unfolded the rich treasures of a hundred years of British and American Art.

A hundred years of the history of the two nations—their famous Statesmen, Authors, Artists, Inventors, Philanthropists, Financiers, Merchants, Manufacturers, and others. Men and women who have helped in the advancement of civilisation and in making each nation what it is to-day will be represented with such objects of historical interest as are associated with them and their times.

A hundred years of progress in Education, Science, Literature, Inventions and Productions, Improvements and Comforts in Social Life, Betterment of the conditions of Working Men and Women.

In placing before the world the fruits of the intellect and genius of the people of both nations, what a great opportunity presents itself of showing in practical ways the advancement in Navigation; in Railway Transport; in Girder, Suspension, and Cantilever Bridges. The use of Steel in Architecture, the boring of Tunnels Underground and Over-head Railways, Aquedcts, Lighthouses, the work of the Panama Canal. Printing—from the simple hand press to the modern rotary press and Linotype—Lithography, Electricity, Electric and Hydrauli Power, Coal-gas and Electric Light, the Storage of Power, Pneumatic Dispatch, the Telegraph, Telephone and Wireless, Phonograph and Gramophone, Photography—from the Daguerreotype to Coloured and Animated Photography. The invention and creation of new Metals, the advancement in Mining, the utilisation of Rubber, Calculating and Recording Instruments, the great advance in Agricultural Machinery and all kinds of Labour-saving Devices, the marvellous achievements in Chemistry—in fact, the harnessing of the very Elements for the use and comfort of the nations.

No Exposition has ever been afforded such unique and interesting opportunities, and certainly there never was an occasion more fitting for a great Exposition of the work and achievements of two nations of the same blood, celebrating their hundredth anniversary of peace and concord, where people of the same family, although separated by a great ocean, will be able to join hand in hand to unite in shaping their mutual destinies and as kinsmen advancing the welfare of humanity and of the whole civilised world.

Great Britain is now the largest customer of the United States and the United States is a valued consumer of British products; and the conjunction of the respective products of the two countries will provide a suitable stimulus for the still further increase of their mutual trade.

The Anglo-American Exposition was inaugurated at a large and influential meeting held at the Mansion House on March 26th, 1913, under the Presidency of the Lord Mayor of London, at which all parts of the United Kingdom were represented.

The Lord Mayor, in addressing the distinguished assembly, stated that the Exposition would do much to maintain and strengthen the bonds of friendship which exist to-day, and had existed for so long, between the peoples of the two great nations. Great Britain was the largest customer of

the United States, and they were almost our largest customer. In 1912, the Exports to England amounted to over $564,000,000, to the next largest, Germany, $306,000,000 odd. The imports were, from Great Britain and Ireland, $272,940,700,—nearly $273,000,000, and next from Germany, $171,380,380. These figures showed what an enormous trade there was between the two countries, but the greatest bond of all was the feeling of friendship and kinship which united the two countries, and which the Exposition would do much to cement, strengthen, and improve.

The following resolution, which was warmly supported by the Lord Mayor of Cardiff who came from Wales, and many other distinguished gentlemen who came from all parts of Great Britain expressly to attend the meeting was unanimously carried with acclamation :—

"London and the United Kingdom welcome the Anglo-American Exposition to be held at Shepherd's Bush next year, in celebration of the hundred years of peace and progress of the English-speaking peoples, as a means of strengthening the bond of friendship and kinship between the American and British nations, of drawing them closer together, and of further developing their great commercial and industrial relations."

It was also resolved—

"That all profits shall be devoted to some public objects of national utility to the United Kingdom and the United States."

The whole assembly pledged themselves to do everything in their power to make the Anglo-American Exposition to be held in London in 1914 a great success.

The imposing Exposition Palaces, most decorative in architectural design, containing 1,000,000 square feet of floor space and entirely fireproof, nothing but steel and concrete having been used in their construction, have been erected in the most beautifully laid-out Grounds with its Gardens, Lakes and Lagoons. These buildings are now ready for the reception and installation of American and British Exhibits, practically a year before the opening of the Exposition, fixed for the 1st May 1914. The plan, which shows the allotment of the various buildings to the different classes of Exhibits, gives also a comprehensive idea of the importance of the scheme. About 20 acres are also available for the erection of Government, States, Cities, and Colonial buildings and pavilions, as well as outdoor Exhibits.

The Fine Art Palace, which has been pronounced the largest and best, equipped building of its kind in Europe, containing 30 galleries for paintings, in addition to the superb central Sculpture Hall, covering 30,000 square feet will be devoted to a collection of American and British modern and retrospective art, such as it is believed has never been brought together in any Exposition in Europe.

The Congress Hall, situated in the centre of the Exposition Grounds, will be devoted to Congresses and Conferences on subjects of interest to America and the British Empire.

The Exposition Grounds at Shepherd's Bush, within 15 minutes of the centre of London's main thoroughfare, cover over 100 acres. The main entrance is connected directly with the terminus of the Central London Railway and the Metropolitan and Great Western Railway Station, and is also in close proximity to the West London, London and North-Western, Great Western, London and South-Western Railways, and in direct communication with the District, North London, London, Brighton and South Coast, South Eastern and Chatham, and the Great Central Railways, in the centre of a network of tramways and omnibuses affording easy means of communication with all parts. The various methods of transport are capable of conveying to the spot over 80,000 persons a hour, or nearly a million visitors a day. Favourable arrangements for the conveyance of passengers have been made with all the lines of Railways by which travellers reach London from the Continent and elsewhere, and frequent excursion trains will run direct to the Exposition from the various provincial centres of population.

The musical arrangements will be upon a scale of magnitude unprecedented at any Exposition ever held in London, and will include a number of the best bands of the British Guards, as well as American bands of the highest possible standard, furnishing continuous music from the opening to the closing of the Exposition daily.

The Great Stadium (the largest in the World), which has a seating capacity for 100,000 people, will form part of the Exposition, and possesses the finest running and cycle track, as well as the splendid swimming tank, 100 metres in length. It is intended to organise International Sports, Historical Pageants, Spectacular Productions, and Fireworks.

Facilities will be given to exhibitors and visitors by the establishment of a commercial bureau, by which visitors can at once obtain full information as to the locality where every exhibit can be found, its nature and character, and the literature which has been prepared in connection with it.

The Board of Trade has certified the Anglo-American Exposition under the provisions of the Patents and Designs Act, 1907.

Diplomas for Grand Prizes, Gold, Silver, and Bronze Medals and Honourable Mention will be granted to exhibitors upon the award of an International Jury.

The Garden Club, under the Presidency of His Highness the Duke of Teck, which already numbers several thousands of distinguished members, will form the centre of social life of the Exposition.

Amusements of the most varied nature will be provided, the dignity of the Exposition being maintained by keeping them in a separate part of the Exposition Grounds, as has been the case at the World's Columbian Exposition, 1893, and at the Buffalo and St. Louis Expositions since.

In addition to the British Restaurants, Buffets and Tea Rooms, etc., a number of buildings have been set aside for American Restaurateurs desirous of taking part in the catering arrangements of the Exposition.

TARIFF FOR SPACE.

The price for Exhibit Space for the display of articles will be $2.50 per square foot.

The charge for more than one frontage will be $2.50 per foot run additional frontage.

Special terms will be quoted for special attractive Exhibits and exceptional positions.

Terms for outdoor space and concessions will be forwarded upon application.

DRAFT BYE-LAWS.

Definitions.

Definitions

1. In these bye-laws, unless there is anything repugnant in the subject or context,—

(1) the word "cattle" has the same meaning as in the Cattle-trespass Act, 1871 ;

(2) "reserved tank or well" means a tank or well which the District Board has set apart under section 90 of the Bengal Local Self-Government Act of 1885, by public notice, for the supply of water for drinking and for culinary purposes and includes any reservoir or part of any river, *khal* or other channel, so set apart ; and a notice-board on the edge of a reserved tank or well, containing the words "reserved tank" or "reserved well" or words to that effect, shall be deemed to be sufficient notice for the purpose of this definition ; and

(3) the "slopes" of a reserved tank or well include all places from which water can flow directly into such tank or well ; and

(4) "road" means a road vested in, or under the control and administration of, the District Board or a Local Board ; and includes—

(*a*) a village road ;
(*b*) the slope, berm, borrow-pits and side-drains of a road ; and
(*c*) all land vested in, or under the control and administration of, the District Board or a Local Board and attached to a road.

Roads, Drains, Bridges, Canals and Embankments.

Encroachment or obstruction on a road.

2. (1) No person shall encroach on any part of a road by cultivating crops thereon.

Explanation.—This prohibition does not apply to land attached to a road which is neither vested in, nor under the control and administration of, the District Board or a Local Board, and whereon private persons have hitherto enjoyed the right of cultivating crops, subject only to a right of user on the part of the District Board or a Local Board of making borrow-pits and side-drains therein.

(2) No person shall on any road,

by means of any building, fence, pit, embankment or ditch, or any other obstruction, or by means of any cut, drain or watercourse intended for the purpose of drainage or irrigation, or by exposing thereon any goods for sale or by placing thereon any substance or material,—

(*a*) without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer, make or cause any encroachment, or
(*b*) obstruct traffic, or
(*c*) cause any inconvenience to passengers, or
(*d*) hinder or impede the flow of water.

3. No person shall expose or place any article for sale in any bazar or market in the vicinity of any road, or collect or gather any articles in the vicinity of a road, so as to interfere with the traffic of the road.

Sale, collecting or gathering of articles in vicinity of road

4. Any person in possession of, or having control over, any plants, trees or hedges which obstruct, overhang or overshadow any road, or any public drain or sluice or any drain which is connected with a public drain, shall, if so required by notice in writing, signed by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer, cut down, prune or trim such plants, trees or hedges within the period, and in the manner, prescribed in such notice.

Cutting of plants, trees or hedges, obstructing road or drain

5. (1) No person shall destroy or damage, or cause to be destroyed or damaged, any bridge, culvert or causeway built on or across any road.

Damage to bridges, culverts or causeways on road

(2) No person shall erect any fence or other object on, or before or close to the opening of, any such bridge, culvert or causeway, for the purpose of fishing or for any other purpose, so as to impede the free flow of water thereunder, or so as to cause damage thereto.

(3) No person shall cast "nets" for fishing purpose from any parapet of any such bridge or culvert.

6. No person shall—

(*a*) destroy or damage, or cause to be destroyed or damaged, any fence or post erected on any road; or

Damage to fences, posts, soil, turf or grass on road

(*b*) dig, scrape, uproot or remove any soil, turf or grass from any part of a road.

7. (1) No person shall cut a channel, or convey water by a channel, across a road, except with the permission of the Chairman or Vice-Chairman of the District Board or a Local Board, or the District Engineer, and in such manner as he may prescribe.

Channel across road

(2) Any person who has been permitted by the Chairman or Vice-Chairman of the District Board or a Local Board, or by the District Engineer to cut a channel across a road, shall, at the time prescribed by him, cover or refill the channel so as to restore the road to its former condition.

(3) Any person who has a prescriptive right to keep a channel open for carrying water across a road shall keep the channel in proper order, so as to prevent danger or inconvenience to the public.

8. No person shall obstruct any waterway adjoining a road, so as to injure or tend to injure the road or otherwise to render the road impassable.

Obstruction of waterway adjoining road

9. (1) No person shall make any excavation on any road, or any hole, pit, tank or well within fifteen feet of any road, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer.

Excavation on or near road.

(2) Every person by whom, or by whose direction, any hole, pit, tank or well has been excavated within fifteen feet of a road shall be bound to take such order therewith as will prevent damage to, or erosion of, the road.

10. The owner or occupier of any tank, well, or other excavation on or near the side of any road shall be bound to fence in or duly protect such excavation in such manner as may be directed by notice signed by the Chairman or Vice-Chairman of the District Board or a Local Board.

Protection of excavation on or near road

11. No person shall pass over, or drive any animal or vehicle over, any road, bridge, culvert or canal so as to injure the same, while it is under construction or repair or is affected by flood or is otherwise rendered unfit for traffic and is closed to traffic under the orders of the Chairman of the District Board or a Local Board or (in emergent cases pending application to such Chairman) of the District Engineer.

Use of roads, bridges, culverts or canals while closed to traffic

12. No person shall, without the permission of the Chairman or Vice-Chairman of the District Board or a Local Board or the District Engineer, allow the rainfall from the roof of any building owned or occupied by

Discharge of rainfall from roof to road

him to be discharged upon any road by means of a spout or other thing intended for the conveyance of water.

Flow of filth on to road.

13. No person shall allow the water of any privy, or any matter offensive or deleterious to health, to flow on any road.

Removal of trees or erections falling on to road.

14. Any person owning or possessing a tree or a house, wall or other erection which has fallen, or part of which has fallen, on to a road shall, if so required by notice in writing signed by the Chairman or Vice-Chairman of the District Board or a Local Board or by the District Engineer, remove such tree, house, wall, erection or part, within the period prescribed in such notice.

Curing hides on or near road.

15. No person shall cure hides on or near any road.

Slaughter of animals, cleaning of carcasses, etc., on or near road.

16. No person shall slaughter any animal, or clean any carcasses, or collect bones, on or near any road.

Placing or burning of bodies on road.

17. No person shall place or burn any corpse or the dead body of any animal on or near any road.

Steeping offensive matter in roadside drain, pit or excavation.

18. No person shall steep any jute, hemp, bamboos, hides or other offensive matter in any drain, borrow-pit or excavation at the side of any road.

Rule of the road.

19. (1) Any person driving a vehicle along a road and meeting another vehicle shall keep on the left or near side of the road, so as to allow sufficient room for the other vehicle to pass.

(2) No person driving a vehicle along a road and overtaking another vehicle shall attempt to pass the latter vehicle otherwise than on the right or off side of the road.

Freedom of roads.

20. No person shall prevent any other person from passing along a road, or shall otherwise interrupt the free use of a road.

Care of animals on road.

21. (1) No person in charge of, or having control over, any animal used for riding or draught shall allow such animal to stand or wander on any road without a rider or driver.

(2) No person in charge of, or having control over, any cattle shall allow such cattle to stray or lie on any road so as to cause inconvenience or danger to any person travelling on the road.

(3) No person shall tether any cattle on, or within reach of, a road, or stall cattle or allow cattle to graze on a road.

Elephants and camels on road to have bell.

22. Every person owning, riding, driving or in charge of any elephant or camel proceeding on a road must see that such elephant or camel is provided with a bell; and with a light also if such animal is proceeding on a road after nightfall.

Taking elephants over road, embankment, bridge or culvert.

23. No person driving or in charge of an elephant shall—

(*a*) cause material injury to a road, or to an embankment vested in the District Board or a Local Board, by taking the elephant over the same; or

(*b*) take the elephant over a bridge or culvert vested in the District Board or a Local Board unless the same be constructed of arched masonry.

Removal of elephants or camels from road to admit passage of horses.

24. Every driver of an elephant or camel shall, on being so required by the rider or driver of a horse, remove such elephant or camel with reasonable promptitude to a sufficient distance from the road, to allow such horse to pass safely along the road.

Care of vehicle on road.

25. (1) No person shall drive or have in his charge on any road more than one vehicle at a time.

(2) No person in charge of, or having control over, any vehicle shall allow it to stand unattended on any road.

(3) No person shall leave a vehicle standing on a road for any longer time than is necessary for loading or unloading it.

(4) No person shall drive upon a road any vehicle laden with bamboos, planks or other materials of a similar character which exceed twelve feet in length and project beyond the vehicle, unless the vehicle be accompanied also by another person.

(5) All owners and drivers of vehicles loaded with bricks or other materials, shall be responsible for their being so secured that the contents thereof may not fall down on any road.

(6) If any vehicle breaks down on a road, the driver shall remove it to the edge of the road without delay and shall, within a reasonable time, remove from the road all materials (if any) which have fallen from the vehicle, and shall place the vehicle in such a position that it will not obstruct traffic.

(7) No person shall lead or drive any vehicle up or down the slopes of any road, except at crossing fixed by the District Board.

Carrying bamboos or *bullahs* on cart on road

26. No person shall carry bamboos or *bullahs* on a cart on any road in such a manner as to scrape the road, or to cause injury or annoyance, or risk of injury, to travellers thereon.

Separate tracks for cart traffic and carriage traffic.

27. Where separate tracks on roads have been set apart for carts and carriages, respectively, no cart shall be permitted to pass over the portion reserved for carriages.

Transport of heavy machinery over bridge

28. No person shall transport heavy machinery over a timber bridge so as to injure the bridge.

Lighting of vehicles on road.

29. Every carriage drawn by a horse or horses, every waggon drawn by any other animals or propelled by motive power, and every motor-car shall carry two conspicuous lights, one on either side,

and every two-wheeled cart, and every bicycle, tricycle and multicycle shall carry one conspicuous light,

when travelling on a road between dusk and dawn, except on clear moonlight nights.

Nuisance on roads.

30. No person shall commit a nuisance on any road.

Trees.

Damage to trees.

31. No person shall destroy or damage or cause to be destroyed or damaged,—

(*a*) any tree planted by, or under the charge of, the District Board or any Local Board; or,

(*b*) any gabion or other defensive enclosure erected for the protection of any such tree.

Tapping, or taking fruit from, trees on road

32. No person shall tap any date- or palm-tree, or remove fruit from any tree planted by, or under the control of, the District Board or any Local Board, without a lease or written permission previously obtained from the Chairman of the District Board or Local Board.

Fires.

Lighting of fires

33. No person shall light a fire in any unenclosed place within ten yards of any wooden bridge vested in the District Board, or within fifty yards of any inspection or dâk bungalow vested in the District Board or a Local Board.

Bathing or washing.

34. No person shall—

(*a*) bathe or wash any portion of his own body or the body of any other person; or

(*b*) wash clothes; or

(*c*) wash any cattle or other animal; or,

(*d*) allow any of his ducks, geese or other birds to enter the water in any reserved tank or well, or upon any of the banks, slopes, or sides of any reserved tank or well.

Fouling of water

35. No person shall—

(*a*) commit any nuisance in, or on the banks or slopes or sides of, any reserved tank or well, or

(*b*) throw any filthy substance thereinto, or

(*c*) in any way pollute the water thereof, or

(*d*) allow the water of any sink, sewer, cess-pool or privy or any offensive matter belonging to him or being on his land, to flow thereinto.

Explanation.—Steeping jute or bamboos and sinking boats in a reserved tank and putting branches or twigs of trees into any such tank amount to an offence against this bye-law.

Removal of earth or grass from sides or slopes.

36. No person shall cut sods or grass or remove earth or grass from, or otherwise damage, the sides or slopes of any reserved tank without the express permission of the District Board or a Local Board.

Overhanging trees or vegetation.

37. No person shall allow any trees, bamboos or other vegetation growing on land in his occupation to overhang any reserved tank or well so as to foul the water thereof, or shall fail to cut and remove the same after reasonable notice in that behalf from the District Board or Local Board.

Cultivation on banks, sides or slopes of reserved tank or well.

38. No person shall cultivate the banks, sides or slopes of a reserved tank or well except in such manner as may be approved by the District Board or a Local Board or a Union Committee.

Building on banks, sides or slopes of reserved tank or well

39. No person shall erect any hut or house upon the banks, sides or slopes of a reserved tank or well without the permission of the District Board or a Local Board or a Union Committee.

Dams, stakes and fishing apparatus

40. No person shall construct dams, fix stakes or place fishing nets or apparatus across, or in any reserved tank or well, or in any part of a river, *khal* or other channel set apart under section 90 of the Bengal Local Self-Government Act of 1885 for the supply of water for drinking and culinary purposes.

Fishing

41. No person shall catch or attempt to catch fish in a reserved tank or well without the permission of the District Board or a Local Board or a Union Committee.

PROSPECTUS OF THE GOVERNMENT COMMERCIAL INSTITUTE.

THE Government Commercial Institute, Calcutta, affords a training of a practical and businessl ke character, well up to date and capable of direct application to the commerce and trade of the city. It is neither a business college in which the academic element exceeds the vocational in relative importance nor a secondary school of commerce, but a higher school of commerce in which the vocational element predominates *but in a liberal manner*.

2 There is a specialised Day Course extending over two years, ending in the Commercial Course Final Examination. Provision is also made for more advanced and more technical instruction by means of evening lectures on Advanced Book-keeping, high speed in Shorthand and Typewriting, Political Economy, Mercantile Law, Annuities and Insurance, and Banking and Currency, ending annually in Commercial Course Special Examinations in each of the subjects. These lectures are intended to give persons already employed in business a chance of improving their efficiency as first-rate Shorthand-writers, Typists or Book-keepers, and of gaining an intelligent insight into the economical, financial or legal principles on which commerce is based.

3. The aim of the Institute is to turn out a type of young man who, if he has received a thorough grounding in the ordinary school subjects, especially in English, has the makings of a useful assistant either in commercial firms or in Government offices generally, and who, if he is destined for commercial life and is willing to avail himself of the facilities offered for more advanced and more technical instruction by means of evening lectures, has the makings of a more useful assistant aspiring to be a businessman.

THE DAY COURSE.

4. There are two day classes—a first-year class and a second-year class. For the students of these classes the following course of study is prescribed :—

(1) Modern English, and especially English correspondence, including commercial correspondence, letter drafting and *précis*-writing.

(2) Arithmetic, including commercial and mental arithmetic.

(3) One of the following languages, namely, Bengali, Hindi, Urdu, Uriya, French, German or Latin.

(4) One of the following subjects, namely, book-keeping, shorthand-writing or typewriting.

(5) Commercial Geography.

Arrangements are made to enable those students who may wish to do so to take up two or all of the following subjects, namely, book-keeping, shorthand-writing and typewriting.

English.—The English teaching is as severely practical as it can be made. In the first-year class, the students regularly practise dictation and essay-writing. They also practise writing easy letters, both official and business, as between a private man and a firm, and making index and *précis* of such letters.

In the second-year class they study the advanced stages of Commercial Practice or Business Methods and are drilled constantly to work out complete transactions, enabling them to appreciate not only the exact relation which one item bears to another but also the place of each in the completed whole, the transactions given in outline furnishing material for unaided work on the part of the students. They now practise making index and continuous *précis*, not only of all the series of letters arising in the transactions given but also of longer official letters and their replies from such bodies as Chambers of Commerce and other Associations. Their papers are corrected and returned soon after they are submitted. No text-books being prescribed, the students are under no temptation to cram, their capacity to write simple correct English with perspicuity and brevity thus developing under careful guidance.

Modern Bengali including Bengali commercial correspondence, etc.—In Bengali "Kapalkundala" by Bankim Chandra Chatterjea is prescribed as a text-book affording a model for style and diction. Besides this language work, practices and principles obtaining in the commercial transactions covering different branches are also taught in Bengali, giving the students a further opportunity to learn them and to practise drafting business letters in their mother-tongue. They are required also to make index and *précis*, in Bengali, of commercial letters.

In order that they may be able to express themselves clearly and accurately in Bengali and in English and with a view more effectively to supplement the practical teaching in English, special attention is paid to translation of passages from English into Bengali and retranslation after some time has elapsed, and *vice versâ*.

Commercial Geography.—The course in Commercial Geography deals specially with the relations of cause and effect that hold good between the general principles of geography and the occurrence, production, and exchange of commodities. It also deals in an elementary way with the history of commodities.

The Commercial Geography text-books used are "Commercial Geography of the World" by A. J. Herbertson, "A Short Commercial Geography" by L. W. Lyde, "Elementary Commercial Geography" by H. R. Mill, and "A School Economic Atlas" by J. G. Bartholomew.

Commercial and Mental Arithmetic.—In Arithmetic the students are taught addition, subtraction, multiplication and division—simple and compound; approximation in multiplication and division; G. C. M. and L. C. M.; fractions—vulgar and decimal; practice; proportion—simple and compound (*i.e.*, simple rule of three and double rule of three); the metric system; percentages, commission, etc.; proportional division; profit and loss; mixtures; interest—simple and compound; present worth and discount; stocks and shares; exchange—chain rule; square root. Grant and Hill's "Commercial Arithmetic" and "Mental Arithmetic" are used.

Shorthand.—During the first-year of the course the students are thoroughly grounded in the theory of Pitman's Shorthand and are expected to attain a speed of 50 words per minute at the end of the year. "Pitman's Shorthand Instructor" is the text-book used. Throughout the second-year they practise speed. The minimum speed sought to be attained is 80 words per minute. The best students are found to attain a speed of 120 words a minute. In the Final Examination speed tests are held at 80, 100, 120 and 140 words per minute.

Typewriting.—The "Touch" system of Typewriting is carefully taught from the beginning. No particular text-book is used. The students are required to attain a minimum speed of 30 words per minute at the end of the two years' course. Dexterous students are found capable of attaining the maximum speed prescribed for the examination, viz., 55 words per minute. The intermediate standard of speed test is 40 words per minute. They have also to pass a tabulating examination corresponding to each speed test.

Book-keeping.—The full course of the Day classes in Book-keeping includes instruction in the elementary stage. It is expected that a student shall have a satisfactory grounding in English and Arithmetic. In this course there is taught a Double Entry system with simple accounts and commercial transactions. Students are taught to open and keep the following books: Journal, Purchase Day Book, Sales Day Book, Cash Book, Bill Book and Ledger. Instruction is also given in making entries for outgoing and incoming single consignments. In connection with these books instruction is given in Trial Balance and preparation of Balance Sheet and Profit and Loss Accounts.

5. The students pay an admission fee of Rs 3. The monthly tuition fee is Rs. 3. The text-books which the students have to buy cost about Rs. 16.

6. The classes are held between 11 A.M. and 4 P.M. except on Saturdays, when they are held between 11 A.M. and 2 P.M. Students of typewriting are allowed to stay later for extra practice.

7. The session begins annually about the end of June and closes about the end of April. The usual Autumn and Christmas holidays are given.

8. Candidates who have passed the Matriculation examination are eligible for admission. Others are admitted, provided they satisfy the

Education Department, by passing a preliminary test examination of a similar standard, that they have sufficient general education to enable them to derive advantage from the teaching.

9. Graduates and Intermediates may be admitted in the second-year class, provided they take up only Typewriting among the subjects mentioned in section (4), paragraph 4. They may be allowed to take up Shorthand or Book-keeping, provided they have sufficient knowledge in Shorthand or Book-keeping, as the case may be.

10. Candidates for admission should send in their applications to the Principal annually before the end of June.

THE EVENING COURSE.

The session begins annually about the end of June and closes about the middle of April.

11. There are at present Evening classes for the following subjects: Shorthand-writing, Typewriting and Book-keeping.

12. If classes can be formed, arrangements will be made for the delivery of lectures on Political Economy, Annuities and Insurance, Mercantile Law, Modern English, and Banking and Currency. Fees are paid according to the number of lectures delivered in each subject. Classes were formed last year in all the subjects except Modern English.

13. A student may be a member of one or more classes at his option.

14. *Shorthand.*—Students are admitted in July and also in December every year. The examination is held in April. For the session July to November the fee is Rs. 12, payable in four instalments of Rs. 3 each. Only those having a minimum speed of 60 words per minute are admitted in July. For the session December to mid-April, the fee is Rs. 16, payable in four instalments of Rs. 4 each. Those having a speed of 80 words a minute or more are admitted in December. Speed classes are so held as to enable a student to attain any of the four grades of speed required for the Special Examination, viz., 80, 100, 120 and 140 words per minute. There is no Theory class in the evening. The class sits at 6 P.M. daily (except on Saturdays and holidays).

15. *Typewriting.*—Beginners are admitted in July. They are carefully taught the "Touch" system. Advanced students are also admitted in this session. In December, only students having a speed of at least 20 words per minute are admitted. No beginner can join this session. By mid-April, when the examination is held, the minimum speed sought to be attained is 35 words per minute and the maximum is 60 words per minute. There is an intermediate speed test at 45 words per minute. For each of the three speed tests there is a corresponding accuracy test in tabulating, which is carefully taught. The fee is the same as that of the Shorthand class; but a reduction of Re. 1 per instalment of each of the two fees payable by a student, who is simultaneously a member of both the Shorthand and Typewriting classes, is granted, and the same reduction per instalment of each of the three fees payable is made when a student is simultaneously a member of three classes, viz., Shorthand, Typewriting and Book-keeping. The Typewriting class is divided into two groups, the first of which practise from 5 to 6-30 P.M. and the second from 6-30 to 8 P.M. (except on Saturdays and holidays).

16. *Book-keeping.*—The full course of the evening classes in Book-keeping includes instruction in two stages—the Elementary and the Advanced. Preparatory to the Elementary work it is expected that a student shall have a satisfactory grounding in English and Arithmetic—

(*a*) In the first-year class, ending with the Commercial Course Special Examination in Elementary Book-keeping, the course is similar to that prescribed for the day course.

(*b*) In the second-year class ending in the Commercial Course Special Examination in Advanced Book-keeping, the course includes matters as under:—

In the advanced stage there is considered the nature of capital, whether as money or property, stocks, shares, classification of capital, revenue accounts, the use of departmental ledgers, also the establishment and recoupment of sinking funds, investment accounts, public, railway, gas and water

companies accounts. Joint-stock companies' accounts are dealt with completely. Instruction is also given in joint consignments, partnerships, contracts, etc. The nature and purposes of allowances to be made for depreciation in value of property are also made clear.

The fee for the Elementary Book-keeping class is Rs. 24, payable in eight instalments of Rs. 3 each, and that of the other Book-keeping class is Rs. 32, payable in eight instalments of Rs. 4 each. A reduction of Re. 1 per instalment of each of the two fees payable by a student who is a member simultaneously of two of the classes in Shorthand, Typewriting or Book-keeping will be granted, and the same reduction is granted per instalment of each of the three fees payable by a student who is a member simultaneously of three of the classes in Shorthand, Typewriting and Book-keeping.

17. Candidates who have attended the lectures in the day course will be eligible for admission to the evening course. Others will be admitted, provided they appear qualified for the class or classes they seek to join. Candidates for admission to Typewriting and the first-year Book-keeping classes must show that they have sufficient general education. Candidates for admission to the Shorthand and the second-year Book-keeping classes must show that they have sufficient knowledge of Shorthand or Book-keeping, as the case may be.

18. *Examinations.*—The following examinations are held annually in April :—

(1)	The Commercial Course Final Examination.		
(2)	A Special Examination in		Mercantile Law.
(3)	Ditto	ditto	Banking and Currency.
(4)	Ditto	ditto	Outline of Political Economy.
(5)	Ditto	ditto	Annuities and Insurance.
(6)	Ditto	ditto	Modern English.
(7)	Ditto	ditto	Book-keeping (Elementary).
(8)	Ditto	ditto	Book-keeping (Advanced).
(9)	Ditto	ditto	Shorthand-writing.
(10)	Ditto	ditto	Typewriting.

The fee is Rs. 5 for each Special Examination and Rs. 8 for the Final Examination.

19. *Scholarships.*—It has been proposed that three scholarships of Rs. 12 each will be awarded to those among the students admitted in the first-year Day class in the Government Commercial Institute, who have secured the highest number of marks in English in the Matriculation examination of the Calcutta University, and that three scholarships of Rs. 20 each will be awarded to the students of the second-year Day class who will obtain the highest total number of marks at a preliminary examination to be held at the end of the first year for the purpose of awarding the scholarships and determining promotion. These proposals, however, have not yet been sanctioned.

Prizes.—First and second prizes of Rs. 75 and Rs. 50 respectively will be offered by the Bengal Chamber of Commerce for competition by the students of the Day class and another prize of Rs. 50 will be offered by the same body for competition among the students of the Evening classes in each of the following subjects :—

Mercantile Law, Banking and Currency, Annuities and Insurance, Political Economy, Modern English, Shorthand and Advanced Book-keeping.

Three prizes are offered by the Remington Typewriter Company to be awarded to the three students of the Institute obtaining the highest marks for efficiency in Typewriting.

A prize of Rs. 50 has been offered by the Hon'ble Rai Sitanath Roy Bahadur to be awarded to the student who would pass in Banking and Currency, heading the list, in the Commercial Course Special Examination.

20. The Commercial Course Final Examination at the end of the two years' Day course and the Commercial Course Special Examinations in each of the subjects specified for evening lectures at the end of each year are controlled by the Commercial Course Advisory and Examination Board, a body consisting of educational officers and gentlemen engaged in commerce in Calcutta. On the results of these examinations certificates are granted

by the Education Department, these certificates being endorsed by the Secretary, Bengal Chamber of Commerce, which body, as also the Bengal National Chamber of Commence, have undertaken to publish the list of the successful candidates.

21. Up till now the Institute has turned out 312 successful candidates in the Final and Special Examinations. All of these are now employed in various offices, both mercantile and Government. A good many of them, viz., those that had joined either the Day or Evening classes with a tolerably fair grounding in English and could, therefore, make the best use of the training received here, have risen above the level and are now drawing from Rs. 60 to Rs. 120, some of them having even received two or three increases in the course of a year and are reported to be shaping very well in their respective spheres.

22. The Bengal Chamber of Commerce has issued a circular letter containing a request to its members to make it a rule to take the passed students of the **Day classes,** whenever possible, in preference to other clerks.

In its Notification No. 4122Mis., dated the 24th November 1911, the Government has recognised the comprehensiveness and thoroughness of the course of studies prescribed for our Final Examination by adopting it, with slight elimination and addition, for the Secretariat Clerical Service Examination, and has declared our successful candidates in the Final Examination as eligible to appear for it along with those who have passed the Intermediate and higher examinations of an Indian University.

23. Candidates for admission should send in their applications to the Principal annually before the end of June.

THE INDIAN LAW REPORTS.

Published in FOUR SERIES, viz

CALCUTTA, MADRAS, BOMBAY AND ALLAHABAD.

THE Indian Law Reports, published under the authority of the Governor-General in Council, are printed in monthly Parts, which are issued, as soon as possible after the first of each month, at Calcutta, Madras, Bombay and Allahabad, respectively.

The Reports comprise four Series—one for the Calcutta High Court, a second for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court.

The cases heard by the Privy Council on appeal from each High Court are reported in the Series for that High Court. Cases heard by the Privy Council on appeal from Provinces in India not subject to any High Court are reported in the Calcutta series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt; and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad, respectively.

Persons desiring to subscribe for or purchase the Reports should apply to—

the Officer in charge Bengal Secretariat Book Depôt, Calcutta,
or
the Superintendent, Government Press, Madras, or
the Superintendent, Government Central Press, Bombay, or
the Curator of Government Books, United Provinces of Agra and Oudh, Allahabad.

Franklin harbour—Lights.

No. 130 (first publication).—With reference to Notice to Mariners No. 113 of 1914, issued by this Office, the President of the Marine Board, Port Adelaide, has given Notice (No. 1 of 1914) that the channel leading from seaward into Franklin Harbour is now marked at night by the following lights :—

No. 1. An unwatched white light, flashing every two (2) seconds, and showing all round the horizon, will be exhibited from an open iron-work tower, painted red, and surrounded by timber fender piling placed in 12 feet at O.L.W.S., about the centre of the two-fathom patch at the entrance to Franklin Harbour, and 2¼ cables N.N.E. from the fairway buoy. The focal plane of the light is thirty (30) feet above H.W., and it should be visible at a distance of about eight (8) miles in clear weather. The beacon is to be kept on the starboard hand entering, and the deepest water in the channel (18 feet at L.W.S.) is about 100 feet from the buoy.

No. 2. Light buoy opposite Points Victoria and Germein on starboard hand in 16 feet L.W. and painted red. The light is an "AGA" Flashing White Light, flashing 60 per minute. Its focal plane is 6 feet above water level.

No. 3. Beacon (Front Leading) on port hand west of southern end of Entrance Island at L.W. mark. The beacon is an open lattice tower fixed on top of four wooden piles. The light is an "AGA" Flashing Green Light, flashing 60 per minute, its focal plane being 13 feet above H.W.

No. 4. Beacon (Back Leading) one cable distant from No. 3 beacon. The beacon is similar to that described for No. 3, and painted white. The light is an "AGA" Flashing White Light, flashing 120 per minute, its focal plane being 23 feet above H.W., and, in line with No. 3, indicates the centre of the channel.

No. 5. Beacon (Front Leading) on starboard hand opposite gap in Entrance Island in 9 feet at L.W. The beacon tower is similar to that described for No. 3, and painted red. The light is an "AGA" Flashing Red Light, flashing 60 per minute, its focal plane being 13 feet above H.W.

No. 6. Beacon (Back Leading) 3½ cables distant from No. 5 in 3 feet at L.W. The beacon is similar to No. 4, and the light is an "AGA" Flashing White Light, flashing 120 per minute, its focal plane being 23 feet above H.W., and, in line with No. 5, indicates the centre of the channel.

No. 7. Beacon (Back Leading) 1 cable distant from No. 5 in 6 feet at L.W. The beacon is similar to No. 4, and the light is an "AGA" Flashing White Light, flashing 120 per minute, and, in line astern with No. 5, indicates the centre of the channel.

No. 8. Beacon (Front leading) on starboard hand on edge of channel at last bend leading to jetty. The beacon is similar to No. 5, and the light is an "AGA" Red Light, flashing 60 per minute, and, in line astern with No. 6, indicates the centre of the channel.

No. 9. Jetty Light on cast-iron pillar at sea end of jetty, painted red. The light is a 6th Order Fixed White Light showing through an arc of 180°, its focal plane being 26 feet above H.W.

This affects Admiralty Charts Nos. 2389b and 785.

Entrance to the Haiho—Establishment of river mouth leading marks and Inward and outward turning transit marks.

No. 100 (third publication).—The Coast Inspector, Shanghai, has given Notice (No. 563 of 1913), that the following aids to navigation have been established, to assist vessels in navigating between the Deep Hole and the entrance to the Haiho :—

Two *black* pyramidal Beacons, to be known as the River Mouth Leading Marks, have been established on the northern bank of the Haiho, about 1 mile to the north-westward of the Fort Light.

The high (or rear) Beacon exhibits a *white* light. The low (or front) Beacon exhibits a *red* light. The lights are Fixed, Dioptric, of the Sixth Order. These Beacons in transit mark the channel from the Spit Light-boat towards the entrance to the Haiho, until Central Fort (about 4 cables S.S.W. of Fort Light), is abeam.

Three Beacons, forming two sets of unlighted transit marks, and to be known as the Inward and Outward Turning Transit Marks, have been established in the neighbourhood of the Taku Bar Outer Leading Marks.

The high (or rear) Beacon is a *black* square. The low (or front) Beacons are two *black* pyramids.

The southernmost of these two sets of transit marks—the Inward Turning Transit Marks—indicate, when in line, where an inward-bound vessel should leave the Taku Bar Inner Leading Marks and proceed on the River Mouth Leading Marks. The northernmost of these two sets of transit marks—the Outward Turning Transit Marks—indicate, when in line, where an outward-bound vessel should leave the River Mouth Leading Marks and proceed on the Taku Bar Inner Leading Marks.

The accompanying plan shows the position of aids to navigation marking the entrance to the Haiho.

The customary withdrawal of the floating aids to navigation during the winter months is not affected by this Notice. The lighting of the several Leading Marks will be continued during the winter.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Spring Oilseed Crops of Bengal, 1913-14.

(Note.—On the average of the five years ending 1911-12, the area under linseed in Bengal represents some 6·6 per cent., and that, under rape and mustard, 22·2 per cent., of the total area under these crops in British India.)

Explanatory.—This forecast deals with all kinds of oilseeds, except sesamum, for which separate forecasts are issued.

Area sown.—Oilseeds are chiefly grown in the Dacca, Rajshahi and Presidency Divisions. In the other two Divisions the area under the crops is very small. The total area under the crops sown this year is reported to be 1,578,800 acres against 1,571,000 acres last year.

Character of the season.—The rainfall in September was general throughout the Province. In October, it was generally above the average and proved sufficient for sowings which began generally in normal time. The sowings were a little late only in Malda and in parts of Jessore and Jalpaiguri. The rainfall in November generally proved beneficial to the growth of the crops. The next two months, December and January, were generally dry with occasional showers of rain. The season has not therefore been uniformly favourable.

Outturn.—According to the estimates of district officers, the total outturn of the different kinds of oilseeds (excepting til) for the province as a whole works out to 90 per cent. of the normal against the same outturn last year.

CALCUTTA,
The 25th February 1914.

Director of Agriculture, Bengal.

APPENDIX.

Second Forecast of the Spring Oilseed Crops of 1913-14.

District.	Names of spring oilseed crops.	Estimated normal area under spring oilseeds.	Estimated area under spring oilseeds.		Taking 100 to represent the normal, what would be the average outturn per acre cropped		Date by which the harvesting generally commenced this year, and whether that date was early, normal or late.	Remarks by District Officers.

		Acres.	Acres.	Acres.				
24-Parganas	Linseed	1,800	700	700	92	100	January, Normal ...	The weather conditions have been favourable and the outturn is expected to be normal.
	Rape and mustard ...	1,500	900	900	92	100		
	Other oilseeds (excepting til).	200	.....	.....	.....	.....		
	Total ...	3,400	1,600	1,600	92	100		
Nadia ...	Linseed	55,700	42,100	42,200	83	83	Beginning of January. Normal.	The increase of area under rape and mustard is due to timely rainfall.
	Rape and mustard ...	23,500	16,800	17,800	67			
	Other oilseeds (excepting til).	18,900	5,500	5,200	93			Owing to excessive moisture, the outturn is low but the average may be fixed at 10 annas.
	Total ...	98,100	64,400	65,200	79	83		
Murshidabad	Linseed	20,800	16,000	16,100	92	83	February. Normal ...	Increase of area under linseed as compared with the estimates in the first forecast is due to the fact that the sowings of the crop were not completed when the first forecast was submitted. The decrease of area under rape and mustard as compared with that of last year was due to unfavourable weather conditions at sowing time.
	Rape and mustard ...	18,900	16,400	15,700	92	83		
	Other oilseeds (excepting til).	8,700	4,000	4,200	92	92		Since the submission of the first forecast the weather conditions have been favourable, but the rainfall in December caused damage by about two annas. Hence the outturn is expected to fall below the normal.
	Total ...	48,400	36,400	36,000	92	83		
Jessore ...	Linseed	24,000	16,200	17,100	67	83	Not yet commenced except in Jhenidah, where the harvesting of rape and mustard commenced in the first week of January. Normal.	The increase of area as compared with last year is due to failure of paddy crop.
	Rape and mustard ...	49,600	27,500	32,700	67	83		
	Other oilseeds (excepting til).	3,300	2,400	4,100	67	83		The outturn is expected to be better than last year owing to favourable weather conditions.
	Total ...	76,900	46,100	53,900	67	83		
Khulna ...	Linseed ...	900	500	500	100	100	End of January. Normal.	The decrease of area as compared with last year is due to heavy rainfall in October.
	Rape and mustard ...	29,700	8,900	24,600	100	100	End of December. Normal.	Owing to favourable weather the outturn is expected to be normal.
	Other oilseeds (excepting til).	100	100	100	100	100	Not yet commenced.	
	Total ...	30,700	9,500	25,200	100	100		
Burdwan ...	Linseed ...	22,500	17,800	17,200	108	100	Beginning of January (except at Asansol, where the harvesting has not yet commenced).	The difference in area from that shown in the first forecast is due to revised figures given by the Subdivisional Officer Katwa, on further enquiry.
	Rape and mustard ...	21,100	19,300	20,100	100	100		The weather conditions, on the whole, have been favourable.
	Other oilseeds (excepting til).	1,500	1,400	1,300	83	100	Normal ...	The outturn is anticipated to be normal except in Asansol, where weather was unfavourable at the time of sowing.
	Total ...	45,100	38,500	38,600	103	100		
Birbhum ...	Linseed	800	800	1,000	92	100	Not yet commenced	The weather conditions have been good.
	Rape and mustard ...	2,000	2,000	2,500	92	100		
	Other oilseeds (excepting til).	200	200	400	100	100		The outturn is expected to be normal.

Midnapore ...	Linseed	15,000	14,400	13,500	70	75	Middle of January, Normal.	The decrease of area under linseed and rape and mustard is due to destruction of plants caused by the rain in October and the increase of area under other oilseeds is due to later attempts of ryots to cultivate more fields.
	Rape and mustard ...	31,000	20,000	15,900	70	74		
	Other oilseeds (excepting til).	14,500	14,600	14,700	70	83		The weather conditions have been favourable on the whole except in Tamluk and Ghatal, where the condition of the crops is not good for want of timely rain. The outturn is anticipated to be normal.
	Total ...	60,500	49,000	44,100	70	77		
Hooghly ...	Linseed	800	700	600	83	67	Will begin in the middle of March in normal time.	The decrease of area as compared with last year is due to deposit of sands on certain tracts.
	Rape and mustard ...	7,900	6,200	6,300	91	70	End of February. Normal.	The weather conditions are not favourable in Arambagh and Sadar subdivisions, but are favourable in Serampore.
	Other oilseeds (excepting til).	3,700	2,400	2,200	99	67		The outturn is anticipated to be below the normal owing to unfavourable weather.

Rajshahi ...	Linseed	20,000	10,600	10,500	67	70	Will commence in March in normal time.	The decrease of area under "Other oilseeds" as compared with the estimate in the first forecast is due to revision by the Subdivisional Officer, Natore, and that under "Rape and mustard" as compared with the area of last year is due to heavy rainfall in October last.
	Rape and mustard ...	74,000	71,700	65,800	72	87	January, Normal ...	The weather conditions on the whole have been good.
	Other oilseeds (excepting til).	400	600	800	70	70	February, Normal ...	Owing to heavy rainfall in October last and high flood in Naogaon subdivision the sowing of the crops was a little late. The outturn will therefore fall below the normal.
	Total ...	102,400	82,900	77,100	70	75		
Dinajpur ...	Linseed	100	.....	.....	.....	.....	.....	The decrease in area as compared with that of last year is due to want of sufficient rain at sowing time.
	Rape and mustard ...	126,000	69,300	65,000	98	86	Middle of January. A little early.	The weather conditions have since been favourable.
	Total ...	126,100	69,300	65,000	98	86		
Jalpaiguri ...	Rape and mustard ...	53,800	51,700	50,900	97	91	Not yet commenced except in Falakata, where the harvesting commenced by the end of January in the normal time.	The increase in area of 1,000 acres under rape and mustard as compared with the estimate in the first forecast is due to revision after further enquiry.
	Other oilseeds (excepting til).	1,000	200	1,000	80	100		The weather conditions since the submission of the first forecast have been favourable.
	Total ...	53,800	51,900	51,900	97	91		The outturn is however expected to be below normal owing to late sowing.

Second Forecast of the Wheat Crop of Bengal, 1913-14.

(Note. On the average of the five years ending 1911-12, the area under wheat in Bengal represents some 0·5 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total acreage in (a) British India and (b) in the territory now reported on has in the five years ending 1911-12 averaged (a) 38·8 per cent. and (b) 16·9 per cent., respectively).

Character of the season.—The chief wheat-growing districts in Bengal are Malda, Murshidabad, Nadia and Pabna. The rainfall in September and October was helpful to the sowings, which generally commenced at the usual time. The sowings were, however, late in Malda, Jalpaiguri, and in parts of Murshidabad and Rangpur. The rainfall in November generally favoured the growth of the crop. The next two months, December and January, were generally dry with occasional showers of rain. The season in the chief wheat-growing districts has been on the whole favourable, and prospects of the crops are reported to be fairly good.

Area sown.—The total area sown with the crop this year is estimated at 143,700 acres against 116,300 acres of last year.

Outturn.—The outturn in the important wheat-growing districts is as follows: Malda, Murshidabad and Pabna, 100 per cent. each · Nadia, 92 per cent. According to the estimates of the District Officers, the outturn for the Province as a whole works out to 94 per cent. of the normal.

	Acres.	Acres.	Acres.				
Nadia	23,100	17,700	16,600	83	93	Middle of October. Normal.	The increase in area as compared with the estimate in the first forecast is due to revision of figures and to the inclusion of areas in the Kumarkhali police-station, which had been previously omitted. The decrease as compared with the area of last year is due to heavy flood in Navadwip police-station and insufficient rain in Chuadanga subdivision at the sowing time. The weather conditions have been almost normal, and the outturn is expected to be almost normal.
Murshidabad ...	69,300	37,300	37,500	93	100	Latter part of October and first part of November. The date was normal except in Lalbagh, where it was late.	The increase in area as compared with the estimate in the first forecast is due to the fact that the sowings had not been finished when the first forecast was submitted. The increase of area over the estimate of last year is due to favourable weather conditions. A normal outturn is expected.
Jessore	2,300*	1,000	1,100	83	85	October. Normal ...	The weather conditions were favourable. A better outturn than that of last year is expected.
Burdwan	1,400	2,000	2,000	108	93	From middle of October to middle of November. Normal.	Since last report no damage has been done to the crop and the character of weather has been on the whole favourable. In Asansol and Kalna, the weather was unfavourable at the beginning of the season and the outturn will be below the normal.
Birbhum	5,000	5,000	5,000	100	100	Middle of November. Normal.	The weather has been favourable and a normal crop is anticipated.
Bankura	3,500	3,300	3,300	83	83	End of October. Normal.	Absence of rain at the beginning of February is responsible for the probable outturn being shown below the normal.
Midnapore	2,600	1,400	1,000	75	75	First week of November. Normal.	The decrease of area as compared with that of last year is due to flood in Ghatal. The outturn is expected to fall below the normal as the plants have not developed well.
Hooghly	2,400	1,700	1,400	83	83	.....	The decrease in area as compared with that of the last year is due to a deposit of sand on cert in tracts by the late flood. The outturn is expected to fall below the normal for the same reason.
Rajshahi	8,500	7,600	7,600*	65	55	First week of November. Normal.	The weather has been on the whole fair. Owing to want of rain in January the outturn is expected to fall much below the normal.
Dinajpur	1,000	1,300	900	57	60	Latter part of October. Normal.	The increase of area as compared with the estimates in the first forecast is due to revision.
Jalpaiguri	1,000	1,100	1,000	75	80	First week of November in Alipur. Normal. Second week of November in Chakulat. Late.	Owing to late sowing in Chakulat the outturn is expected to fall below the normal.
Darjeeling	4,500	4,500	4,500	85	77	October. Normal ...	Weather was unfavourable at the beginning of the season.
Rangpur	3,000	3,000	3,000	100	100	Middle of October. Normal.	The decrease in area as compared with that of the last year is due to excessive moisture in the lands during the sowing time. The weather has been favourable and a normal crop is expected.
Pabna	16,000	16,000	16,000	100	100	3rd week of October. Normal.	No damage has been done to the crop by any cause, and the weather conditions have been favourable throughout. A normal outturn is therefore anticipated.
Malda	60,000	40,000	40,000	95	100	Beginning of November. Normal.	A normal outturn is anticipated as favourable weather conditions have prevailed throughout the season.
Faridpur	2,000	2,400	2,400	90	95	Middle of November. Normal.	The outturn is likely to fall below the normal for want of rain during the Christmas time.
Total ...	208,000	146,900	145,700	91	94

DISTRICT REPORTS ON WEATHER AND CROPS

For the week ending on the 2nd March 1914.

Summary.—During the week under report scattered showers fell in several places both in East and West Bengal. The rainfall has proved beneficial to standing *boro* paddy. Pressing of sugarcane and harvesting of *rabi* crops are continuing. The outturn is fair. Preparation of lands for autumn rice and jute is going on. Cattle-disease is reported from nine districts. The average price of common rice remains almost stationary as compared with that of the previous week.

DRAFT RULES FOR THE MAGRA HÂT CHANNELS.

1. Every vessel entering or making use of the Magra Hât channels shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt, the persons appointed by the Governor in Council as Collectors of Tolls or Navigation Canal Officers shall have authority to again measure a vessel notwithstanding that it was measured before.

2. Vessels for the purpose of the determination of maundage shall be divided into three classes as follows :—

Class I.—To include all vessels of the usual native types of build known as salteea, but not *bonâ fide* tal (or palm-tree) dongas and not exceeding 50 maunds by canal measurement.

Class II.—To include all other vessels of usual native types of build or cutters.

Class III.—To include all steamers, flats, barges and other square-built boats.

The net maundage of every vessel, whether laden or empty, shall, for the purposes of the Canals Act, 1864, and of these rules be determined by the following measurements :—

CLASS I.

A.—The product of one-quarter the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel multiplied by three-quarters of the depth, measured from the top of the vessel amidships to the interior bottom of the vessel is to be taken as equal to the number of maunds upon which toll shall be levied.

B.—The measurement of the length to be made in feet, rejecting inches, and of the breadth and depth in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C.—Any vessel the maundage of which calculated as above exceeds 50 maunds shall be reckoned as a vessel under class II.

CLASS II.

A.—The product of one-quarter the length of the vessel from stem to stern measured outside and along the water line, multiplied by the greatest interior breadth of the vessel multiplied by the greatest interior depth from the water line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B.—The measurement of the length is to be made in feet, rejecting inches, the measurement of the breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder less than a quarter of a foot.

C.—The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, rejecting any remainder of less than 12½ maunds. In the case of boats exceeding 500 maunds by measurement the maundage shall be reckoned to

the nearest integral multiple of 50 maunds rejecting any remainder of less than 50 maunds.

D.—In the case of boats carrying passengers only, one foot shall be deducted from the full interior depth of the vessel, the other measurements and the calculations for maundage being made in the methods prescribed for vessels under Class II.

CLASS III.

A.—For vessels of class III, the number of maunds obtained by the system of measurement prescribed for vessels of class II shall be increased by one-half. For vessels of this class exceeding 1,000 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 100 maunds rejecting any remainder of less than 100 maunds. In the case of steamers, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

B.—In case of steamers that have been surveyed under the Inland Steam-vessels Act, 1884, the registered tonnage entered in the certificate may be accepted as the tonnage of the steamer in lieu of measurement.

3. All vessels under class I, known and defined as saltees, will be charged under a system of compounded tollage in accordance with rules contained in Appendix A.

4. Every vessel included in classes II and III entering or passing along the canal shall be furnished with a ticket on paying the prescribed toll. The ticket shall specify the station at which it has been issued, the name of the person in charge of the vessel, the date on which the voyage commenced, the point to which the vessel may proceed on the line of navigation, the maundage of the vessel, the amount of toll charged, the number of days allowed for the voyage, and the date of such last day. The number of days so allowed without additional payment shall be calculated as follows :—

Boats.—One day for every eight miles or portion of eight miles, to be traversed together with one day for every 100 maunds of measurement or part of 100 maunds.

Floats (timber).—One day for every five miles for any number of timbers not exceeding fifty, and one day for every additional fifty or part of fifty.

Rafts (bamboos).—One day for every five miles for any number not exceeding five hundred and one day for every additional five hundred or part of five hundred.

5. Every vessel which does not complete its voyage within the number of days allowed by rule 4 shall, for each day or part of a day in excess, be liable to an extra charge equal to one-half of the toll payable on the maundage of the vessel as per the Schedule of Rates in Appendix B, provided that in no case shall the demurrage charged exceed Rs. 5 per diem. The Superintending Engineer may, at his discretion, exempt any boats on any line of navigation, or any portion of line of navigation from the payment required by this rule.

Exemption from payment of demurrage may, at the discretion of the Collector of Tolls, be granted for vessels detained in the channels (steamers broken down and boats damaged) by stress of weather, should immediate notice of detention, for the information of the Collector of Tolls, Magra Hât channels, be given to the nearest toll-station.

6. All tolls are payable on demand and shall be paid at the toll-station before a vessel is permitted to proceed : Provided that the Collector of Tolls may, at his discretion, permit vessels belonging to individuals or firms of recognised standing to proceed without prepayment on an undertaking that the bills for tollage due shall be liquidated monthly on presentation.

7. The ticket must be kept on board the vessel and must be produced for inspection when demanded by any person authorised to do so. If, on demand, the ticket is not produced, such person shall assess the tollage as provided in rule 2, and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel will be liable to seizure and detention in accordance with the provisions of section 9 of the Canals Act, 1864.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the Collector of Tolls on payment of a sum of Re. 1. Provided that for tickets on which the

total tollage is less than Rs. 1, the fee to be charged for a duplicate shall be one-quarter of the total tollage with a minimum of A—4.

9. A vessel, which has been detained under these rules or under section 9 of the said Act, may not be removed from the canal without the order of the Collector of Tolls until the toll due has been paid. During such detention the manjhi, owner or agent must make arrangements for the safety of the vessel and cargo.

10. All vessels, whether the property of Government or of private owners, are liable for toll, except those exempted by the provisions of Bengal Government Circular No. II., dated the 11th July 1906.

11. Vessels may be hauled up for repairs on the banks of the canals with the previous written permission of the Supervisor or Navigation Canal Officer. A rent calculated at one-sixth the rate of ordinary demurrage will be charged for the time the vessel occupies the bank.

12. At places where mooring posts have been provided by the Supervisor or Navigation Canal Officer, vessels desiring to moor shall be made fast in single line along the banks to such posts in such manner as the Supervisor or Navigation Canal Officer may direct, and shall not be moored in any other manner.

13. The Supervisor or Navigation Canal Officer may, by written notice to be posted at the toll offices, prohibit the dropping of anchors or the putting up of bamboos or luggees in any specified part of the canals or on the banks.

14. Vessels shall be allowed to make fast in single line along the canal banks in such manner as may be directed by the Supervisor or Navigation Canal Officer from time to time, and no boat shall be made fast or be placed outside of boats so secured. No boat or raft shall be placed in such a position as to endanger the safety or obstruct the passage of other boats. Every vessel, when stationary, shall be securely fastened, and shall at all times have some person in attendance on board. Every vessel in motion shall have a sufficient crew.

15. Vessels passing through the canals shall keep in separate lines, empty boats keeping close to the bank, and those that are laden in the centre.

16. In portions of the canals where only one towing-path exists, vessels shall moor on the side opposite to the towing-path, and the towing-path side shall always be kept clear.

17. Iron-built cargo boats, with outside angle iron projecting beyond the wooden fenders, will not be allowed to enter the locks unless permanent fenders are fixed over the edges of the angle iron so as to prevent them from causing damage to the locks.

18. No fire, or open, unprotected light of any description shall be used on boats containing petroleum, jute, hay or straw in any place prohibited by the Navigation Canal Officer or Supervisor, and no fire, or open, or unprotected light (except in the case of steamers, the galley and engine-room fires and the electric light) shall be used on any vessel while in a lock basin.

19. No person shall wilfully or negligently allow a vessel to sink in the canals.

20. In every case of a sunken vessel, whether due to negligence or otherwise, the Supervisor or Navigation Canal Officer and his subordinates shall offer every assistance in removing the same.

If in three days after the occurrence of a wreck it is seen that prompt measures are not being taken by the owner to remove the sunken vessel from the line of navigation, the Supervisor or Navigation Canal Officer and his subordinates shall make their own arrangements for the removal of the same at the expense of the owner, provided that, in cases where navigation is seriously obstructed, arrangements may be made at once to remove the wreck.

21. When a sunken vessel has been recovered, the Supervisor or Navigation Canal Officer shall cause notices to be posted at the locks, toll offices or other prominent places calling on those concerned to pay to the Collector of Tolls all toll or demurrage which may be due, as well as the expenses incurred in the recovery of the vessel and cargo. Should the sum due be not paid within fifteen days of the date of notice, the vessel and its furniture, or so much of it as may be necessary for the recovery of the dues, will be sold under the procedure directed in section 9 of the Canals Act, 1864.

22. The purchaser of a vessel sold under the provisions of section 9 of the said Act shall have the right to take it out of the canal on the day of purchase, or within such time as may be allowed by the Collector of Tolls, without payment of tolls.

23. When any laden vessel which has sunk has been recovered, or when any laden vessel has been seized under the provisions of the said Act or of these rules, the Supervisor or Navigation Canal Officer shall give immediate notice of the recovery or seizure to the owner of the cargo or his agent, requiring the removal of the cargo without delay and informing him that he will be required to pay all expenses necessary for the proper custody and storage of the cargo until removed.

24. If the Supervisor or Navigation Canal Officer be unable to ascertain the name and place of business or the abode of the owner of the cargo of such vessel, the notice prescribed in rule 21 shall be effected by a notice exhibited in his office and by advertisement in at least one English and one vernacular Calcutta newspaper.

25. No steam-vessel, whose length exceeds thirty feet, shall ply in the Magra Hât channels except in the following:—Diamond Harbour creek, Usti Nainan outfall, Nazra khal, Sangrampur khal up to Sangrampur bridge, and the Sarjipur outer khal up to the Surjipur bridge.

26. *Lights and Signals.*—All vessels, whether travelling or moored in the Magra Hât channels, must, between sunset and sunrise, carry a white light in a lantern on the forepart of the vessel where it can be distinctly seen from all sides. All steam-vessels in motion shall carry the lights prescribed by the Board of Trade Regulations. Barges or boats, attached to a steam-vessel, whether in motion or moored, shall carry the light prescribed above.

27. *Speed of vessels.*—Every vessel plying in the Magra Hât channels must, between sunset and sunrise, limit her speed to three miles per hour. No steam-vessels shall ply between sunset and sunrise in channels detailed in rule 25.

28. No vessel shall remain in the outer entrance channels of the locks at Diamond Harbour and Uttarbhag nor in the inner lock channel and diversion channel of the Diamond Harbour lock and sluice, nor in the approach channels to any sluice. A board will be put up limiting the portion of the channels in which boats are not permitted to moor.

29. The places at which boats cannot be loaded or unloaded will be fixed by the Superintending Engineer, South-Western Circle, and will be demarcated with suitable posts and notice boards.

30. For any contravention of rules 10, 14, 15, 16, 17, 19, 20, 26, 27 and 28, the person in charge of the vessel or other person in fault shall, on conviction before a Magistrate, be liable to a fine not exceeding Rs. 50 for any one infringement, or Rs. 5 a day for any continuing infringement.

31. The channels may be closed, whenever necessary, for effecting the necessary repairs to them on one month's notice of the intention so to close them being given; but, in the event of any sudden emergency, the channels may be closed at any time without prior notice, and no claim in such cases by owners of vessels or others for compensation on account of detention or otherwise shall be entertained.

32. The term "Navigation Canal Officer," as used in these rules, shall include all persons appointed to collect tolls under section 8 of the Canals Act, 1864, and all Public Works officers or subordinates in charge of the channel, not below the grade of Sub-Overseer.

33. No vessel whose beam exceeds 19 feet will be permitted to enter the channels through the Diamond Harbour lock. The same prohibition will apply in the case of the Uttarbhag lock to all vessels exceeding 14 feet beam.

34. Any vessel which enters the channels through the Diamond Harbour lock for the purpose of taking refuge during stormy weather will be charged a nominal toll of As. 8 per boat, provided the vessel leaves the channel again as soon as the weather conditions permit, and does not load or unload cargo inside the channel. All vessels seeking refuge under this rule must anchor in the creek close to the toll-collector's office and will not be permitted to proceed up the creek without paying the usual tolls.

35. Any vessel entering the channels through the Diamond Harbour lock and proceeding to load or unload at the Diamond Harbour station only will be charged tollage at the rate of As. 2 per 100 maunds to include the return journey. Should such boats proceed up the creek, they will be charged the ordinary tolls.

APPENDIX A.

Rules for licensing and registration of sattees or vessels under class I.

1. As provided for under rule 3, no vessel coming under class I, rule 2, shall ply, whether regularly or only occasionally in, or partly within and partly without the limits of, the Magra Hât channels unless licensed and registered by the Collector of Tolls of the Magra Hât channels.

2. Every owner of a vessel or his agent or manjhi shall apply to the Collector of Tolls, Magra Hât channels, for licensing and registration, giving the owner's name and residence or those of his agent duly authorised to act for him.

3. Every license granted under these rules shall continue in force for either six months or one year from the date of issue.

4. The license is not transferable, and if the ownership or manjhi or both of the vessel be changed, notice of the transfer must be given to the Collector of Tolls of Magra Hât channels, who will endorse the change of ownership on the certificate and register free of charge.

5. The license certificate granted for a vessel should contain the registered number of the vessel, owner's name and residence, name of manjhi, the maundage measurements, amount of compounded tollage and the dates of issue and expiry and shall be kept on board. It shall be produced, when required, by a Navigation Canal Officer and shall be delivered up on the expiration of the license.

6. The charge for the issue of a duplicate license to vessels in lieu of those defaced or lost is Re. 1.

7. The registered number of every licensed vessel shall be engraved or branded, as well as painted in figures easily discernible on both sides of the vessel for which a charge of Re. 1 will be made. These figures shall be legibly maintained during the period of the license.

8. On the expiration of the license the manjhi shall deliver up his ticket to the toll collector at the station from which it was issued.

9. No person in charge of any licensed vessel plying within the limits of the Magra Hât channels shall use or have any ticket resembling those granted under the authority of these rules.

10. Every renewal of a license shall, unless the Navigation Canal Officer considers it unnecessary, involve the issue of a fresh license certificate without alteration in the registered number of the vessel.

11. Every vessel under class I, found plying in the channels without being licensed and registered shall be charged a demurrage rate of Rs. 3 for every such offence, provided that such vessel is not proceeding to the nearest toll station for the purpose of obtaining a license and being registered

No. 833—860-5, dated Delhi, the 14th February 1914.

RESOLUTION—By the Government of India, Department of Commerce and Industry.

THE following information relative to the Shipping, Engineering and Machinery Exhibition which will be held in London in September and October 1914 is published for general information.

SHIPPING, ENGINEERING AND MACHINERY EXHIBITION.

OLYMPIA, LONDON,

September 25th to October 17th, 1914.

Organized by the Trade on Co-operative Principles.

PROSPECTUS.

The Need of the Exhibition.

THERE has been no fully representative Shipping, Engineering and Machinery Exhibition in London for many years, and in view of the great importance of the Naval, Shipping, and General Engineering Industries of this country, it has been decided to hold such an Exhibition in the Autumn of 1914.

For this purpose Olympia, the second largest Exhibition Hall in the world, has been taken for an Exhibition to be held from September 25th to October 17th, 1914, inclusive.

It is proposed, in connection with this Exhibition, to devote the main body of the Hall to Naval and Shipping Exhibits, and also important Exhibits of Marine and General Engineering Appliances, working or otherwise.

The only two Exhibitions of importance of this character which have been held in this country for the last thirty years are the Naval Architecture and Marine Engineering and Fisheries Exhibition at Tynemouth, September, 1881, and the Naval and Mercantile Marine Exhibition at Olympia in 1910; and it is therefore considered that the time is ripe to hold a really representative and comprehensive Exhibition of Specialities connected with these great Industries, particularly in view of the remarkable advances during recent years in all directions.

Classification of Exhibits.

As far as possible the Exhibits will be sectionized under the following headings :—

NAVAL ENGINEERING, embracing:

War Vessels.
Armour Plate.
Steering Gears.
Torpedoes.
Range Finders.
Repair Ship Equipment.
Equipment of War Vessels.
Castings.
Guns.
Gun Carriages.
Submarine Signalling Apparatus.
Floating Docks, &c.

NAVAL ARCHITECTURE, embracing:

Shipbuilding.
Steam and other Launches.
Steam and Electric Navigation on Rivers and Canals.
Shipyard Tools.
Ocean Shipping, Steam and other Vessels.
&c.

MARINE ENGINEERING, embracing:

Coal Handling Plant.
Condensers.
Patent Marine Stokers.
Electric Light Sets.
Reciprocating Engines.
Marine Motor Engines.
Ventilating Machinery.
Gas Engines.
Pumps.
Marine Boilers.
Marine Boiler Fittings.
Turbines.
Marine Oil Engines.
Hydraulic Machinery.
Heating Apparatus.
&c.

SHIPPING EXHIBITS, embracing:

Towage.
Dredgers.
Lights.
Patent Davits.
Lifebuoys, Jackets, Belts, &c.
Inland Navigation.
Wireless Telegraphy.
Life Belts, Life Rafts, &c.
Boat Lowering and Detaching Apparatus.
Rockets, Mortars, and other Signalling Apparatus.
&c.

FISHERY EXHIBITS, embracing:

Trawlers, Steam and Sailing.
Fishing Boats.
Boat Equipment.
Fog Horns, &c.
Models of Fishing Markets.
Lamps. &c.

GENERAL MARINE EXHIBITS, embracing:

Lanterns for Lighthouses and Lightships.	Cranes.
Illuminated Buoys, &c.	Mooring Buoys.
Models of Lighthouses, Lightships, &c.	Screw Moorings.
Diving Apparatus of all description.	Locks.
Apparatus for Raising Wrecks.	Port Works,
Victualling and Equipment of Ships.	Life-saving Apparatus.
Harbours, Bridges, Docks.	Patent Logs.
	Cold storage.
	Nautical Instruments, Chronometers, Compasses, &c.

GENERAL ENGINEERING, embracing—

Forgings.	Acetylene Welding and cutting.
Water Softening Machinery.	Wood Working Machinery.
Machine Tools.	Accessories, &c.
Foundry Requisites.	
Lifts and Lifting Tackle.	

Allocation of profits.

This Exhibition will be run on the Co-operative Principle, every Exhibitor having a direct interest in the undertaking. An Exhibitors' Committee will be formed to control the general organization. The profits will be allocated partly to Exhibitors by way of rebate on space and partly to the Managers as a fee for their services.

It is proposed that a bonus of not less than 20% on the value of space taken by each individual Exhibitor shall be declared before the Managers receive any share of the profits.

The organizers in connection with previous exhibitions

The fact that the Managers have been associated during the last twelve years with numerous successful Technical Exhibitions is sufficient evidence of the organizing capacity at the back of this enterprise. The last of the series of which they were Organizing Managers, namely, the Engineering and Machinery Exhibition, Olympia, 1912, was stated on every hand to be the most successful Exhibition of its kind ever held.

Gas engines and acetylene plant.

It is proposed to devote the whole of the Wall Space on the Blythe Road side to exhibits of Gas Engines and Suction Gas Plants, and the Wall Space on the Hammersmith side to demonstrations of Acetylene Welding and Cutting, this particular process having come very much to the front in connection with Marine Engineering during the past two years; and the aim generally will be to sectionize the exhibits as far as possible.

General.

Exhibits of Accessories, Journals, and Office Appliances will not be allowed in the main Hall. This will be reserved entirely for firms manufacturing Heavy Machinery, Naval and Shipping Appliances, &c.

Price of space.

The price will be as usual at Olympia, Rs. 4 to Rs. 2-6 per square foot, according to position, and will include the provision of Platforms, on hire, free of charge to Exhibitors, throughout the Hall.

Handling of Goods.

Special consideration will be given to the question of the quick and economical handling of goods, and the Management hope to make arrangements with various contractors whereby Exhibitors will be able to have their goods, of all classes, received and lifted at fixed rates.

Power

Electric current for power purposes and lighting and water-supply service will be provided to the fullest extent of the facilities at Olympia, and at the rates charged by Olympia (1912), Ltd., so as to enable Exhibitors to show their specialities in motion. Provision will also be made for the supply of steam.

Publicity.

A special publicity department will be formed so as to attract buyers from Colonial and Foreign Countries as well as from the manufacturing centres of Great Britain, and at least 5,000 Special Invitation Tickets will be sent to Government and other engineers throughout the world. Advertisements will be placed with the leading technical papers, and a Press Bureau formed under the management of an expert. Advance particulars will be sent to the technical and daily papers from time to time, and all facilities afforded them of dealing adequately with the Exhibition. Every endeavour will be made through foreign correspondents to arrange for special excursions to the Exhibition, from France and other countries, of engineers and others interested in the exhibits. It has been found that excursions of this kind increase the commercial value of Trade Exhibitions, resulting, as they do, in the opening up of many new and valuable connections.

Railway Facilities.

Addison Road Station, adjoining Olympia, is in direct railway communication with all the great lines of Great Britain.

Committee.

The Organizers will have the assistance of a strong Committee of Leading Engineers, and this is a guarantee that the wishes of the general body of Exhibitors with regard to the organization of the Exhibition will, as far as possible, be carried out.

Exhibitors' Club.

A suitable space will be allotted for an Exhibitors' Club and Writing Room, which will be catered for by Messrs. Joseph Lyons & Co., Ltd., Tea and Light Refreshments being provided at reasonable rates. Each Exhibitor's Season Ticket includes Membership of Club.

Plans, Application Forms, and further particulars can be obtained on application to

DACCA, *the 7th March 1914.*

NOTICE.

Examination of Compounders at the Dacca Medical School.

IT is hereby notified for general information that the next half-yearly examination for compounders will be held on the 20th April 1914 and subsequent days.

The examination will be conducted in accordance with Bengal Government Notification Nos. 1410 and 1411 Medical, dated the 7th July 1913—

(*a*) The Examining Committee will consist of :—

PRESIDENT :

Lieut.-Col. A. R. S. Anderson, B.A., M.B., C.M.Z.S., I.M.S.,
Superintendent, Dacca Medical School.

MEMBERS :

Assistant Surgeon Jogendra Nath Mittra.
Assistant Surgeon Harendra Chandra Das.

(*b*) No person will be admitted to this examination unless he produces certificates as required by rules 9, 10, 11 and 12 of Government Notification No. 1410 Medical, dated the 7th July 1913.

(*c*) All male candidates must forward to the undersigned an examination fee of Rs. 5 at least one week before the commencement of examination; a fresh fee must be paid on each occasion that the candidate enters for the examination; but a candidate who, after payment of the fee, is unable, through illness, to attend the examination will be allowed, on producing a satisfactory medical certificate to that effect, to attend the next examination without payment of a fresh fee.

NOTE.—Women candidates are examined free of charge.

(*d*) The students of compounder class of the Medical School will be allowed to appear at an optional examination. The examination will be conducted by the Committee of Examiners notified above—in minor bandaging, preparation of lotions, dressings, sterilization of dressings and instruments and in all minor duties of Hospital work. No additional fee shall be charged. Every candidate who passes the optional examination shall be granted an additional certificate in the prescribed form that he is qualified for the duties of a Hospital dresser and for Hospital ward work generally.

A. R. S. ANDERSON, B.A., M.B., C.M.Z.S., LIEUT.-COL., I.M.S.,
Superintendent, Dacca Medical School.

CAMPBELL MEDICAL SCHOOL, CALCUTTA, *the 20th February 1914.*

HIGH COURT NOTICE.

CIRCULAR ORDER.

Issued by authority of the High Court of Judicature at Fort William in Bengal.

CIVIL.

No. 1 of 1914.

ORDER 5, Rule 27 of the Code of Civil Procedure, 1908, provides that "where the defendant is a public officer . . . . or is the servant of a railway company . . . . , the Court may, if it appears to it that the summons may be most conveniently so served, send it for service on the defendant to the head of the office in which he is employed, together with a copy to be retained by the defendant."

It has been represented that the advantages afforded by this procedure are often overlooked, and the attention of the Subordinate Courts is therefore drawn to the rule.

Bankura.

No. 628M.—The 5th March 1914.—In exercise of the power conferred by clause (2) of section 241 of the Bengal Municipal Act, 1884 (Bengal Act III of 1884), the Governor in Council is pleased to sanction the following rules which have been framed by the Commissioners of the Bankura Municipality under clause (1) of that section :—

Rules framed by the Commissioners of the Bankura Municipality under section 241 of Bengal Act III of 1884.

The following rules apply to houses, not being huts :—

Drains.

1. Any house erected or re-erected after these rules come into force shall be provided with drains sufficient for its effective drainage, to the satisfaction of the Chairman.

2. The owner or occupier of any premises shall, provided that he first obtains the written permission of the Chairman and that he complies with the conditions prescribed by these rules, be entitled to connect his house-drain with the nearest Municipal drain.

3. No house-drain shall be so constructed as to pass beneath any floor or part of a building or in the case of a drain carrying foul water within 10 feet of any well or tank the water of which is used for bathing or drinking purposes.

4. Every house-drain must be open and at least 8 inches in breadth and must be laid upon a bed of good concrete and constructed with cut stone or brick masonry well plastered and protected with cement and must have a proper fall.

5. Every house-drain must be laid in a straight line as far as possible. The bends, if any, should not be at right angles but in easy curves.

6. The level of the ground-floor of every house shall be at least 2 feet higher than the top of the nearest Municipal drain :

Provided that, where the Municipal drain is more than 100 feet from the house, the ground-floor level shall be at least 2 feet higher than the level of the surrounding land.

Privies.

7. No privy situated in, or adjacent to, a house shall be placed at a distance of less than—

(*a*) 6 feet from any other building which is a public building, or

(*b*) 4 feet from any other building which is, or is likely to be used as a dwelling place or as a place in which any person is, or is intended to be, employed in any manufacture, trade or business.

8. No privy shall be erected at a distance of less than 25 feet from any tank, or 12 feet from any well, the water of which is used for bathing or drinking purposes.

9. (1) A drain shall be provided for every privy.

(2) Such drain shall be constructed of some impervious material and must connect the floor of the privy—

(*a*) with a drain communicating with a Municipal drain or sewer, or

(*b*) if permitted by the Chairman, with an impervious cesspool, the contents of which can be removed either by hand or by flow after filtration.

10. (1) The floor of every privy—

(*a*) shall be made of one of the following materials, to be selected by the owner of the privy, that is to say, of glazed tiles, artificial stone or cement, and

(*b*) must be in every part at a height of at least 6 inches above the level of the ground adjoining the privy.

(2) The floor of every privy shall have a fall or inclination of at least half an inch to the foot towards the drain prescribed by rule 9 and the platform of the privy shall have a similar fall towards the aperture.

11. The walls and the roof (if any) of every privy shall be made of such materials as may be approved by the Chairman:

Provided that the entire surface of the walls below the platform shall either be covered with cement or be made in the manner prescribed for the making of the floor in clause (*z*) of rule 10.

12. The platform of every privy shall either be plastered with cement or made in the manner prescribed for the making of the floor in clause (*a*) of rule 10.

13. Every privy situated in, or adjacent to, a house shall have an opening, at least 3 square feet in area, in one of the walls of the privy, as near the top of the wall as may be practicable and communicating directly with the open air.

14. Every privy shall be constructed in accordance with the following provisions:—

(*a*) The space beneath the platform of the privy must be of such dimensions as to admit of at least one moveable receptacle for sewage, of a capacity not exceeding 1 cubic foot, being placed and fitted beneath the platform in such manner and position as will effectually prevent the deposit, otherwise than in such receptacle of any sewage falling or thrown through the aperture of the platform.

(*b*) The privy shall be so constructed as to afford adequate access to the said space for the purposes of cleansing such space and of placing therein and removing therefrom a proper receptacle for sewage.

(*c*) The said receptacle must be water-tight and must be made of metal or well-tarred earthenware or glazed stoneware.

(*d*) The door of the opening for the insertion and removal of such receptacle must be so as to completely cover the opening.

15. All powers of the Chairman under these rules can be delegated by him to the Vice-Chairman.
